For years previous cabinets were formed or ministerial vacancies filled by mere presentation to the sovereign of the names of the new ministers. King Edward has done away with this tradition. He has spent the last few days in constant discussion with Mr. Balfour as to the advisability, from the point of view of the national welfare, of the latter's suggested appointments.

The question of having some genera notably Lord Kitchener, as head of the War office has been keenly discussed at Balmoral between the king and the min isters, but the Associated Press under stands that the consensus of opinion was that such an appointment would be interpreted as a modified form of military dic tatorship which the public would never sauction.

### Chamberlain Ignored Canada.

Alexander W. Black, liberal member of Parliament for Banfishire, makes public tonight an interesting series of letters which passed between himself and Mr. Chamberlain in which Mr. Black maintains that the former colonial secretary launched his fiscal scheme while ignoring Canada's attitude.

In the first letter dated September Mr. Black points out that Mr. Chamberlain's replying to a question from the writer in the House of Commons. July 22. stated that the Canadian government had had no direct correspondence with Germany in regard to the tariff question and that the Canadian government could only com municate with Germany through her maj esty's government. The subsequent publication of the tariff correspondence showed that official correspondence had passed between the Canadian premier and Mr. Bopp, German consul at Montreal in which the Canadian policy toward Germany was clearly defined. Mr. Black asked the cold nial secretary to reconcile his reply with the facts shown in the correspondence.

Replying on September 2 Mr. Chamber aln said he was unaware of the correspondence, as the Capadian government had not kept him informed, but he had asked the Canadian government to keep him informed on any unofficial negotiations they might conduct.

### Alleged Damaging Admission.

Mr. Black, replying to this letter, pointed out that Mr. Chamberlain makes the damnging admission that he announced his proferential tariff scheme without having showed that Canada intended to negotiate directly with Germany and was prepared to give tlermany the same preferential treatment as the mother country. Mr Black said that Mr. Chamberlain must
