A v. 486 867 898 885 898 865 898 865 899 865 No. 39 Wyoming cull ewes...... 40 Wyoming cull feeder ewes... 41 Wyoming feeder ewes... 43 Wyoming feeder ewes... 44 Wyoming feeder ewes... 45 Wyoming feeder ewes... 45 Wyoming feeder lambs... 46 Wyoming feeder lambs... 47 Wyoming feeder lambs... 48 Wyoming feeder lambs... 49 Wyoming feeder lambs... 40 Wyoming feeder lambs... 40 Wyoming feeder lambs... 41 Wyoming feeder lambs... 41 Wyoming feeder lambs... 42 Wyoming feeder lambs... 43 Wyoming feeder lambs... 44 Wyoming feeder lambs... 45 Wyoming feeder lambs... 45 Wyoming feeder lambs... 46 Wyoming feeder lambs... 47 Wyoming feeder lambs... 48 Wyoming feeder lambs... 49 Wyoming feeder lambs... of cattle here than was generally antici-pated this morning, which makes the sup-ply for the week to date the heaviest of the year for the corresponding length of time. As compared with the same days of last year, however, there is still a decrease. 137 Wyoming 546 Wyoming 124 Wyoming 28 Wyoming Last year, however, there is shif a decrease. Considering the heavy run the general mar-ket was in good condition. There were just a few cars of corn-fed steers on sale, and as the demand was in good shape for that class salesmen found it an easy matter to dispose of them at steady prices. Short-fed stuff, of course, sold more or less unevenly the same as usual 94 94 87 87 91 94 00 20 573 102 973 yearlings..... yoming yearlings. feeder lambs..... yoming feeder ewes Wyoming feeder ewes Wyoming Wyoming feeder ewes. steady prices. Short-fed stuff, of course, sold more or less unevenly the same as usual.
There was a big run of cows in sight this morning and the tendency on the part of packers undoubtedly was to get their supplies for less money. The best grades were not a great deal lower, but the medum to common kinds were slow and undoubtedly a shade lower than yesterday. Bulls, yeal calves and stags all fe't to some extent the weakness on cow stuff and common steers, and in a good many instances sold a shade lower.
There was a large supply of stockers and feeders on sale and, although the demand from the country yesterday was fairly good the market on all but the best grades was slow and a little lower. Choice heavy cattle sold without much trouble at steady prices, as there were only a few answering to that description, while the big bulk of the offerings was of only fair quality.
Anything good in the way of western grass beef steers sold at generally steady prices, while the modum to common stuff was slow sale and a little lower owing to the large number of cattle of that description that have been on sale this weak.
Range cows were also steady to a little lower, the commoner kinds suffering the most. The same was true of stockers and feeders. Representative alse: IEEEF STEERS.

No.< New York state this year than usual. That is good news here, for the bulk of the local supply will come from the east, as the Nebraska apple is a poor thing this year. These apples are what are called soft sorts and will meet Eve half way. The Baldwin and Greenings are the boys that can edure the monotony of a winter

passed in a chilly cellar. They will begin

to fly west in about thirty days. The New

Yorkers opened up at about \$3.50 a barrel.

A foreign-looking grape that has been

seen along the row since yesterday has

caused considerable comment. Cornishons

they are called and are said to come from

California. They are long and oval. Black

Ferara grapes, also from the west, are about with the Cornishons. They are like

the Tokays, but a little darker complex-

ioned. The local grapes do not need to be

set on by anybody this year. While they

are not as numerous as some seasons, they

are of a really gentle quality, and while not

having perhaps some of the superficial

graces of the Californians, are of sweet dispositions. The harvest of grapes is now

reaching its height. The price in eight-

pound covered shipping baskets is now \$2.40 per dozen, while at this time last year it

Hurphy Gets His Balloon. Samuel R. Murphy, whose aerial flight inst July landed balloon and balloonist on the property of Claus Neolsen, lying adja-cent to Courtland Beach, has secured the process of law. Neclsen got out an Injunc-tion to prevent Murphy trespassing on his and, and when the balloon descended pounced upon it and took possession for al-leged damages. Mr. Murphy replevined the balloon and suit was instituted in Justice Fester's court to determine who should gain final possession. The case was taken to Justice King's court on a change of venue, and the story of Murphy's flight industice King's court on a change of venue, and the story of Murphy's flight in this subsequent descent on the property of Mr. Neelsen has been fully reiterated and reviewed. Murphy proved that the ve-locity of the wind was such that he certif and helloon was awarded to him.

Twenty days each in the county jail for appropriating two sledge hammers and six chisels, the property of Mr. Albers, and then selling them back to him, was al-lotted to Edward Skold and O. B. Lane in police court. It is believed by the police that these two young chaps, who showed dexterily in doing Mr. Albers, are old hands at the same and expect to be able to trace other petty thefts to them.
