Playing Cards special.
Bicycle playing cards, the 25c kind, as a special bargain for Saturday only go **2 Packages 25c**

CORN PALACE AT MITCHELL

People of South Dakota Making Preparations for Fall Display.

BUILDING IS OF INTRICATE DESIGN
Mitchell Only Town in State that Has Kept the Idea Alive Since Its Inception Several Years Ago.

MITCHELL, S. D., Sept. 25.—(Special.)—The fall corn palace idea has taken deep root in the hearts of the people within the corn belt section of the state as one of the best and most successful plans for displaying the representative products of South Dakota. This is the fifth year that Mitchell has held its corn palace and both in attendance and attractions it has so far excelled any of its predecessors. The building is a structure 140 feet long and 100 feet wide and stands within a block of the business district, so that it is easy of access. The south and west sides of the building are decorated with corn, grain and the many grasses that grow abundantly in this country. The corn is picked while a trifle green and is then sawed in the center lengthwise and nailed to the building. Intricate designs are thus made on mosaic and geometrical lines, which admit of almost any kind of figure being worked out. An abundance of red corn of various hues is grown in this vicinity for the sole purpose of being used in decoration.

Yellow, White and Blue.
Yellow, white and blue (squares) corn is also used in abundance for this purpose. With the red corn it is possible to secure some very handsome shading effects and the designs are drawn with the view of making the figures pronounced with the colored corn. One of the most artistic pieces of work are two American flags and an American eagle done in corn, which for lifelike appearance seems incredible.

On the interior of the building is shown in the various county exhibits. This year there are nine counties in the display, as follows: Aurora, Beale, Buffalo, Jerauld, Lyman, Sanborn, Spink, Edmunds and Davison. (The great varieties of corn shown in every county dispels the illusion held by the eastern people that South Dakota is not a reliable corn country. This year has been the banner one for corn, which was practically out of the way of frost when it appeared a week ago. The samples of wheat, oats, barley, rye,

speltz, all kinds of vegetables, every possible variety of fruit put an end to the false impression that is abroad in reference to this state. However, within the past year there has not been a noticeable change in the sentiment of Iowa and Illinois people concerning South Dakota. These people have been coming into our state and more than ever this year. They have had full opportunity to see the display of grain in the fields in such abundance that it has had the desired effect of eradicating the prejudice that has been held against us.

Extraordinary Yield of Oats.
In the Spink county exhibit, referred to, there is a sample of oats raised on the Hunter-Salter farm that yielded ninety-one bushels per acre. Corn from the same farm averages over sixty bushels per acre. These displays are arranged with the idea of showing the grain in the best possible shape. The Mitchell corn palace has come to be recognized, from the success in past years, as the leading institution to properly display the products of the soil. The corn palace has done as much, if not more, in the way of advertising the wonderful resources of South Dakota than anything else, for every year it has drawn the people hither, and the seeding of the products caused a retaining of the faith in the soil.

In the gallery are perhaps a dozen booths that are decorated by the ladies of the city. Everything that is used in the matter of decoration is taken entirely from the fields of this county, and hardly a thing grows on prairie or in previous year what is utilized in some way for beautifying the booths. There is an art gallery which had a dozen handsomely designed pictures that are made of corn husks, corn silk, wheat straw, etc. They comprise the heads of women, fruit pieces, animals, etc. Another is of a Grand Army of the Republic and Women's Relief Corps booth with the emblems and the American flag deftly woven from grains of corn in the rational colors. The others are decorated on the same general plan.

Amusements for Visitors.
Not all is given over to the matter of education along agricultural lines, for the people would not come for this purpose alone. The matter of amusement of the crowds is a problem that has always been handled successfully. It has been the custom to secure a band, of some prominence to give concerts each afternoon and evening in the palace. This year the famous Banda Rossa was engaged and they are at present playing the most successful engagement. There are also free street attractions given each morning, afternoon and evening at hours when there is no attraction in the corn palace. They serve to keep the people interested and not let the time hang heavy on their hands.

SAM PARKS DIVIDES UNION

Member of His Local Opposed to Him is Unseated by Convention.

PRESIDENT CLOSES MEETING SUMMARILY
When the Structural Iron Workers Meet After Noon Kansas City Police Are Detailed to Preserve Order.

KANSAS CITY, Sept. 25.—Samuel Parks, visiting delegate from New York City, caused a split in the annual convention in the International Bridge and Structural Iron Workers here today in a fight to unseat Daniel Brophy, a delegate from union No. 2 of that city, but who held a proxy.

Banner Day of Corn Palace.
Today has been the banner day of the corn palace. Over 2,000 people came in on the regular and the special trains. The Milwaukee road brought 1,300 people on a special excursion from Sioux Falls and Canton. The visitors in the city now number over 7,000. At the concert this afternoon the building was packed to its utmost capacity and two concerts were given by the Banda Rossa to accommodate the crowds. The Milwaukee road has just granted another excursion train on Sunday for the corn palace. The train will leave Sioux Falls at 7:15 o'clock. Fare one and one-third for the round trip.

Woman Gets in Jail.
SIoux FALLS, S. D., Sept. 25.—(Special.)—A local court has been called upon to adjust the matrimonial affairs of John Henry Ryan, a wealthy retired farmer residing in this city, and his wife, whom he met and married as the result of an advertisement placed by her in a matrimonial paper, she being at the time a resident of Davenport, Ia.

Ryan and the former Iowa woman did not agree very well. She is something of an Amazon and on numerous occasions was successful in overpowering her spouse. Recently relations between them have rapidly become more strained, finally resulting in a hot fight between the couple. Ryan got decidedly the worst of it, his loving wife leaving his face in a sadly battered condition.

So fierce was the fight that the police were summoned by neighbors, and the arrest of Ryan followed on the charge of disturbing the peace. When the case came up for trial the defendant was able to show that his wife was the aggressor and that he was only defending himself from her assault.

As a result of the trial the case against Ryan was dismissed and the costs were taxed by the court to Mrs. Ryan. Not having the cash to liquidate the costs, she has been turned over to the sheriff and will remain in jail until she can raise the money to pay the amount and thus secure her release.

Big Grain Yields in Hills.
STURGIS, S. D., Sept. 25.—(Special.)—Reports coming in from throughout the hills of the yield of grain per acre in Meade county are most gratifying. M. Bachand, on Spring Creek, from nineteen acres of oats got an average of sixty-two bushels per acre, machine measure, and weighed forty-one pounds to the machine bushel. This overweight of eight pounds above the standard bushel, brings the yield up to a trifle better than seventy-eight bushels per acre. Henry Karrels, on his Bear Butte valley ranch, from a fifty-acre field of wheat got an average of thirty-nine bushels per acre. W. H. Chase, from a four-acre field of wheat, got an average of fifty bushels per acre, and from his twenty-six-acre field there resulted an average yield of thirty-four bushels per acre.

During Convalescence

Recovery is hastened, health restored and vitality renewed by the use of

ANHEUSER-BUSCH'S Malt-Nutrine

The perfect malt tonic. A food in liquid form. It quickly builds flesh and tissue.

All druggists sell it. Prepared by the Anheuser-Busch Brewing Ass'n. St. Louis, U. S. A.

Shaffer to Answer Charges.
PITTSBURGH, Sept. 25.—The special convention of the Amalgamated Iron and Steel Workers to investigate the charges against Robert Shaffer, transferred by the Niles, O. lodge, met here today.

The statement is made that there are three specific charges, but the nature of these has not yet been given to the public. It is said Mr. Shaffer will make a formal reply to the charges, giving an account of his movements during the alleged disappearance.

Strike Causes Assignment.
LYNN, Mass., Sept. 25.—Walter H. Tuttle & Co., shoe manufacturers on a large scale, assigned today. The strike of the Knights of Labor against the Root and Shoe Workers' union in Lynn was precipitated in the Tuttle factory on January 15 and has never been declared off there. Limited capital with the effects of the strike and active competition of other manufacturers, the firm states, caused the assignment.

Strikers Resume Work.
INDIANAPOLIS, Sept. 25.—The striking boot makers and helpers of the Big Four road returned to work today pending a settlement of the wage question.

Employees Return to Work.
NEWARK, N. J., Sept. 25.—The employes

Boys' Strike is Settled.

CHICAGO, Sept. 25.—After noisy street demonstrations, the 400 day messenger boys of the Illinois District Telegraph company ended their strike last night by accepting the new wage scale from their employers.

Early in the evening the company also came to terms with the night messengers. The day boys, who went out in the morning, are to receive \$5.40 a week instead of a commission of 1 1/2 cents for each message delivered. They had not been earning more than \$1 a day, it is said, and struck for 3 cents a message. The night workers are to get \$1 a day in place of the \$5 a week formerly paid.

Charge of Forgery.
A threatening move was made at the door of the hall as Brophy sought entrance to the convention today. He made a move as to draw his revolver, it is said, and declared he would shoot the first man to interfere. Soon after the doors had been closed and the protest against the seating of Brophy had been brought up a member of the Parks delegation made the sensational declaration that the credential held by Brophy from Scranton had been forged and that it originally bore the name of J. Reed, which had been erased.

Instantly there was an uproar and heated words were heard on all sides, charges and countercharges of fraud being made. When the scene became threatening and it seemed impossible to get the convention out of its tangle, President Buchanan summarily declared the gathering adjourned without order.

After the delegates had filed out into the street Delegate Parks and his followers held a conference on the sidewalk. "Our men," declared Parks, with emphasis, "will not sit in a convention with Brophy and if the convention insists upon seating Brophy we will return to New York."

Delegate Brophy's home is in Montreal. Mr. Brophy is a member of local union No. 2 of New York City, and aside from Robert Neidig, who was deposed as president of that local because of his stand for President Buchanan, he is the only delegate here from local No. 2, who is opposed to Samuel Parks. Brophy is a fighter and when his credentials were attacked he declared his innocence that they were legitimate. He had, he said, been appointed by the Scranton local a month ago, and he would refuse to be bulldozed into giving up his rights.

Police on Guard.
Later it was stated that the convention would reconvene sometime during the

Employers Refuse to Arbitrate.

MINNEAPOLIS, Sept. 25.—The Minneapolis flour millers refuse to arbitrate the strike question. Replying to Mayor Daynes' offer to arbitrate, the millers addressed the mayor thus:

Hon. J. C. Daynes, Mayor of Minneapolis: Dear Sir—We beg to acknowledge receipt of your letter asking for our approval of your appointing a committee of five representative citizens to arbitrate the labor question of our flour millers. We decline to entertain this proposition. The question was fully canvassed at that time and our reply was distinct enough to thoroughly be understood. We have no objection to your letter further, that we prefer to shut down our mills if we cannot find men willing to work at the present scale of hours and wages. Minneapolis flour manufacturing is already carrying as great a handicap as it can possibly stand. We have in the past made concessions and sacrifices to our men, raised the wages, shortened their hours and at times run the mills at a loss to ourselves.

You probably understand the scale of wages and hours of men working in the Minneapolis flour mills. It is already more favorable to them than is the scale to men similarly placed at other points in this country with which we compete. We should be pleased to have a private conference with you at your office at any hour you name, if in your opinion it should be necessary, but our decision is final. Respectfully yours, WASHINGTON TROSBY COMPANY, PILLSBURY-WASHBURN FLOUR MILLS COMPANY, THE NORTHWESTERN CONSOLIDATED MILLING COMPANY.

Wages to Be Increased.
CHICAGO, Sept. 25.—An increase in wages to 3,000 employes of the twenty car and locomotive repair shops of the Chicago & Northwestern railroad has been granted. The increase means an additional expense of \$800,000 a year to the company.

Conferees with the officials of the company resulted in the signing of an agreement which grants recognition of the union, provides for a union steward in each shop and gives the men an increase of wages, varying from 1 to 1 1/2 cents an hour.

Demands of Western Miners.
PUEBLO, Colo., Sept. 25.—At today's session of the convention of the United Mine Workers' of America, the following demands were formulated and adopted. They

will be presented to the coal operators in the district October 15, and should they not be acceded to a strike will in all probability be declared at the meeting of the next national executive board, October 25. The terms are as follows:

Clause 1. That eight hours shall constitute a day's work.

Clause 2. That all wages shall be paid semi-monthly and in lawful money of the United States, and that the scrip system be entirely abolished.

Clause 3. An increase of 20 per cent on contract and tonnage prices, and 2,000 pounds shall constitute a ton.

Clause 4. That all underground men, topmen and trappers receive the same wages for eight hours as they are now receiving for nine, nine and one-half and ten hours and over for a day.

Clause 5. For the better preservation of the health and lives of our craftsmen we demand a more adequate supply of pure air as prescribed by the laws of the state. There was considerable discussion before the adoption of the report.

During the morning session an address was made by President Meyer of the Western Federation of Miners, in which he roundly scored Governor Peabody and General Sherman Bell. He characterized the former as the worst enemy the laboring man had in the state. It is expected that the convention will conclude with tomorrow's session.

Strike Breakers from Coeur d'Alene.

WALLACE, Idaho, Sept. 25.—A car containing seventy Coeur d'Alene miners left here today for Cripple Creek, Colo., to take the place of the striking miners there. Most of them are Missourians, who were brought here during the labor troubles of 1899.

Nemesis to Druggists.
Frank W. Fogg, who it is alleged sold cocaine to James Baird, contrary to law, was arrested yesterday afternoon on the charge of selling the drug. Fogg had a friend in Scotland, the land of his birth, who went wrong as a result of the excessive use of the drug, and he accepts every opportunity of prosecuting druggists who sell it. Baird was locked up and is being held as a complaining witness. Fogg's place of business is at Twelfth street and Capitol avenue.

Employers Refuse to Arbitrate.
MINNEAPOLIS, Sept. 25.—The Minneapolis flour millers refuse to arbitrate the strike question. Replying to Mayor Daynes' offer to arbitrate, the millers addressed the mayor thus:

Hon. J. C. Daynes, Mayor of Minneapolis: Dear Sir—We beg to acknowledge receipt of your letter asking for our approval of your appointing a committee of five representative citizens to arbitrate the labor question of our flour millers. We decline to entertain this proposition. The question was fully canvassed at that time and our reply was distinct enough to thoroughly be understood.
