Reed was only prevented from taking his own life Baldwin, who wrested the weapon from his grasp when he was in the act of attempting to reload it. The injured woman was retended by Police Surgeon MacDiarmid. Dr. Summers, who was called later, said she was too weak to undergo an eperation last night. It is the opinion of the attending physicians that the woman cannot recover. Reed has been calling upon the Hynes women since last January. On two or three different occasions he has threatened to take her life if she did not marry him. According to his own statement Reed first met the woman during January at her home. 1403 Webster street. He was infatuated with her from the first and asserts that she had made promises to marry him which were never fulfilled. Some time ago an agreement was entered into between them that they were to be married in October. In closing, President Buchanan said:

The ramifying influences of the great moneyed interests of the country have entered every field of our national life. These interests dictate our elections, they interpret our laws and they prescribe the conditions of our existence. Intelligent co-operation is the secret of their power.

Would we protect ourselves against their encroachments? Would we preserve the liberties guaranteed us by our constitution? Would we secure the full measure of the product of our toil? Would we create conditions of benefit to curselves and promise for our children?

Then we must set ourselves to the task with the same intelligent co-operation that distinguishes the action of employing classes. Nor must we be satisfied with fighting for merely higher wages and shorter hours. Trade's unionism stands He then turned and ran out of shorter hours. Trade's unionism stands for more than this. It stands for the full exercise of citizenship. Trades unionism must exert itself to the utmost to uproot the evil of special privileges that is the responsible cause of the injustice that our fellow workmen suffer today. Superintendent of Omaha and Winnebago Agencies Finally Steps Down.

GIVES ILL HEALTH AS THE CAUSE

Commissioner Jones Expresses His Regrets and Promises Early Appointment Elsewhere-Other Washington News.

(From a Staff Correspondent. WASHINGTON, Sept. 26 .- (Special Telegram.)-Superintendent C. P. Matthewson of the Omaha and Winnebago agency has resigned. In his letter of resignation to Commissioner Jones, Mr. Matthewson states that his separation from the Indian service was due solely to ill-health. For some time past Mr. Matthewson has been very anxious to secure an appointment either in Arizona or New Mexico, but by reason of places being filled the commissioner has been unable to secure the transfer for Mr. Matthewson. Speaking of the resignation, Commis-

sioner Jones said: "I regret that Mr. Matthewson has decided to resign. Personally I think a great deal of the superintendent of the Omaha and Winnebago agency. His health, however, has been precarious for some time past, and, while recognize that Mr. Matthewson has been sirous of quitting the service, I shall certainly do all I possibly can to secure his transfer to a more congenial climate." By reason of the resignation of Superintendent Matthewson the Indian office will now carry out a plan which it has had in contemplation for some time, looking to the division of the Omaha and Winnebago reservations into two bonded school superintendencies instead of the present arrangement. Commissioner Jones said today that H. G. Wilson, superintendent of schools at the Sisseton (S. D.) agency, would be appointed to succeed Mr. Matthewson at the Winnebago agency. As to the Omaha agency, the commissioned would not state who would be appointed, several well-known men being under consideration. Mr. Wilson, who will assume charge at the Winnebago agency shortly after the first of next month, is regarded by the Indian office as a very careful and safe man. He goes to Nebraska with splendid recommendations and it is ex pected that he will bring the agency to a high standard.

The chief believes it was Smith who broke into three South Omaha homes last week and hopes to beable to fasten the commission of these erimes upon him. Smith was pos'tively identified by Mrs. Abrahamson, 2817 Caldwell street, and Mrs. Swartzland, who lives next door, as the man who entered and intended burglarizing the home of Mrs. Schindler, 2529 Caldwell street, but was frightened away, Mrs. Schindler returning home and entering by the front

door. Smith also was identified by a Mrs. Roberts of South Omaha Saturday afternoon as the man she had seen hanging around her premises last Thursday shortly before her house was entered and robbed.

COLLEGE MEN Quite Universally Use Grape-Nuts.

A lady of Tabor, La., who has six strap-"They range from ping big boys, says: to 19 years and we are living at a college town for the purpose of educating them.

"I have a great work before me, as you can see, and I regard your Grape-Nuts a very valuable assistance, for without healthy bodies I know it is impossible to build up strong, healthy brains.

"My boys all think they owe much to the food Grape-Nuts, and on 'field day' or in the foot ball season the athletic ones declare Grape-Nuts is a great strenthener and muscle maker. I have no doubt they are right, but it interests me more to know positively that Grape-Nuts makes general good health and restores the wasted brain and nerve matter and keeps my boys normal and strong.

'As for myself, I have been troubled since childhood with severe sick headaches. which all came from a disordered stomach. There was always trouble about digesting my food, and this resulted in violent attacks of headache about once every two weeks. These were so severe that I would be unable to raise my head for 24 hours, then nature would readjust herself by rest and an entire lack of food. Then I begun to use Grape-Nuts for breakfast and the stomach trouble began to fade away. All of the symptoms have gradually changed for the better and the very few headsches I have that since using Grape-Nuts have been very light and have not interfered with my regular work, while I am fleshler and stronger than ever before. I take great pleasure in telling my friends what this splendid food has done for us, not only in the case of my own worn-out system, but in keeping up the health of my strapping young glants.

"I must speak of a tribute paid Grape-Nuts at our district convention of the Woman's Relief Corps. Two hundred in telligent women were at this meeting and the Department President, in her address, spoke of the wonderful merits of Graps-Nuts to produce brain power."
