Lexington Bill Mil Develop: Un xp oted Cap city f r Ore.

TREATS A HUNDRED TONS PER DAY

Company Finds Difficulty in Keeping the Plant Supplied-Smelter Company is Sued for Damage to Land and Crops.

DEADWOOD, S. D., Sept. 27. (Spec Aliis treating upwards of 100 tons per day of ore at the twenty-stamp cyanide mill in Spruce guich it is almost impossible to keep the plant supplied with ore. It has been increasing its tonnage daily for several days at a remarkable rate.

J. J. Feldhausen has the contract for hauling the ore from the mine to the mill. When he first went out, he was to haul seventy-five tons of ore per day. In a short time the plant was consuming eighty, then eighty-five and ninety tone per day. Wednesday n nety-six tons of ore was hauled in and delivered and Thursday morning the bins were empty. Thursday 107 tons were delivered and the bins were again empty the following morning. The plant has developed remarkable efficiency. Its capacity seems to be steadily growing. It is asserted that ah extraction of 90 and 91 per cent, is being

The company's ore is of much higher grade than the officers anticipated when they first undertook the working of the property. They have discovered that their ore supply extends over a vast area along the Spruce guich divide and is a most without limitation. This ore is at present hauled by team and wagon and five teams are kept busy. The loads run from 2,000 to 12,000 pounds each. Besides the five teams on the ore hauling, Mr. Feldhausen also has a team engaged in hauling coal from Deadwood to the mill. A new tunnel is being driven by the company from a point on the hillside just back of the mill into the ore. When this is completed a big expense for transportation of ore will be avoided.

Bunch of Damage Suits.

Sixteen damage suits against the Golden Reward & Deadwood-Delaware Smelter Co. are to be tried at the coming term of circuit court, beginning October 7. These cases are brought by the owners of property situated near the smelter in the First ward of Deadwood, claiming that the smoke and fumes from the smelter have destroyed all vegetation and inflicted injury to the premises. Heavy damages are asked in each case.

Mexican Commission Makes Its Report on Stability of the Currency.

CITY OF MEXICO, Sept. 27.-The report of Mexico's monetary commissioners sent abroad is now published in Spanish. It is quite long, but is of general interest Among the more immediate interesting points and suggestions are the following in Russia and in England, especially, The Lexington Hill Gold Mining company the framediate establishment of a gold standard in China is regarded almost as impracticable. In the monetary system that is recommended for the purpose of bringing about a fixity of international exchange the price in gold or bar silver and the value in gold or silver money are absojutely disassociated. The former may fluctuate in the market, whereas silver money will always have a fixed value in goldhence the stability of international exchange. This fixed value in gold will be maintained by the government in the following manner:

1. By closing of the mints to the free e of sliver. the fixing of the ratio between gold and silver by the governments.

By the legal tender character of the arrency for the payment and the settlement of centracts of all kinds.

By reason of its having the only money a which duties and taxes will be paid as is supposed that there will be no gold in reculation.

circulation.

5. By limitation of the quantity of silver money coined exclusively for the interior currency of each country.

6. By the creation of reserve funds in gold in those countries in which the foregoing conditions are not sufficient to maintain the stability of international exchange. The whole of this mechanism is based on a fixity of value in gold or silver money. The commissioners go on to say that all the economists whom they consulted in Europe pronounced the closing of the mints

lutely essential to the success of any plan for stabilizing the value of the peso.

to the free coinage of silver to be abso-

Yuncio Dodging the King. ROME, Sept. 37.-The Avenire D'Italia, a Catholic organ having relations with the Vatican, publishes a telegram from Paris to the effect that Mgr. Lorenzelli, the papal nuncio at Paris, is shortly coming to Rome to pay homage to the new pope. He will onsequently be absent from the nunciature during the visit of Victor Emmanuel to President Loubet.

MUST CEASE FREE COINAGE Chairman Dick of Ohio Desires to Have Candidate Unrke Classified.

HAS TOO MANY POSSIBLE PLATFORMS

In Declining a Debate Between Sen ator Hanna and His Would-Be Successor, the Campaign Manager Becomes Inquisitive.

COLUMBUS, Ohio, Sept. 27.-The reply of Chairman Dick, of the republican state committee, to Chairman Sale.i, of the democratic state committee, declining the challenge of John H. Clarke, comperation nominee for United States Senator to a joint debate with Senator M. A. Hanna, was given out today, Chairman Dick

I regret that candor compels me to say that I find some rather serious objections to the conditions of your proposal. The sought to be some such quanty as mutuality ought to be some such quanty as mutually in a joint discussion. I lear 3 ou have overlooked that phase of the case. Let me particularize. Mr. Hanna's party has but one set of principles, while Mr. Clarke's party has a vust assortment of principles, sounding the entire gamut from acctaine to dogma-aemocratic, populistic, agrarian and socialistic.

There is a tariff. How does Mr. Clarke stand on that issue? His party stands all

There is a tariff. How does Mr. Clarke stand on that issue? His party stands all over it. In New England it is for free raw material and for protected finished products; in Texas it is for protected raw material and for free finished products.

Does Mr. Clarke favor a tariff for revenue only, or a tariff for revenue with incidental protection? Is he a Gorman tariff democrat or a Johnson no-tariff democrat? If he favors any kind of a tariff iet him debate with Mr. Joonson, who is an absolute free-trader, and would repeat every tariff and internal revenue law and sell all the custom houses.

Too Many Strings to His Bow.

Mr. Clarke has all these strings to his Mr. Clarke has all these strings to his bow, and more, too. What chance does Mr. Hanna, who has only one suring to his bow, have in disputation with such a man? Mr. Hanna stands pat. When Mr. Clarke joins a party that stands pat on anything, Mr. Hanna will task with him. Then there is the coinage question, low does Mr. Clarke stand on that? The absolution Mr. Bryan gave him would argue that he is not a stand-patter—indeed, Mr. Bryan says he is not. Then, if Mr. Clarke is really on the Kansas City platform, and is bound to have a debate with somebody, let him hunt up the Palmer and Bucaner platform and debate with that, If, on the other hand, he is still a gold bug, he has no quarrel with Mr. Hanns on that score platform and debate with that. If, on the other hand, he is still a gold bug, he has no quarrel with Mr. Hanna on that score—Ex-Senator Charles A. Towne is the man he is looking for, or the Honorable John J. Lentz might do in a pinch. If Mr. Clarke were elected to the senate, would he vote on the currency question with the gold democrats, or with free cilver democrats? The republican state platform declares that every one of the war amendments is binding in honor upon every American citizen. Why did Mr. Clarke say in his Akron speech that that platform 'winds up with binding in honor upon every American citizen. Why did Mr. Clarke say in his Akron sign the declaration that amounts to a nullilication of the fifteenth amendment? "Where does Mr. Clarke stand on the "war amendment of the favor their repeal? Is he in harmony less that when ever colored voters attempt to exercise the lective franchise in South Carolina he will meet the attempt with a shorting and most in the could not remember having ever heard it perfore, but then his memory had not repeal the fifteenth amendment?" Mr. Clarke join his colleague from Tennessee, Mr. Carmock, and vote for his resolution to repeal the fifteenth amendments. Is Mr. Clarke willing to explain his position on these vital questions?

Where does Mr. Clarke Bollow Bryan!

Where does Mr. Clarke ginl his position on these vital questions?

Does He Follow Bryan!

Where does Mr. Clarke Join Bryan!

Where does Mr. Clarke Join and the put aside all rise to catch the words.

NEW YORK, Sept. 26.—The statement of averages of the clearing house banks of this city for the week shows:
Loans, \$917.047,700, increase, \$5.068,100; deposits, \$901.345,796; decrease, \$5.37,100; circulation, \$45.686,500, increase, \$5137,100; circulation, \$45.686,500, increase, \$507,300; specie, \$188,085,000, decrease, \$5.306,100; reserve, \$220-366,600; decrease, \$68,800; reserve required, \$255,506,300, decrease, \$2.083,725; surplus, \$14,559,300, increase, \$1,789,025

Dry Goods Market. NEW YORK, Sept. S. DRY GOODS.
The end of the week in dry goods shows
ittle more activity from general buyers,
he majority of whom continue to display
conservatium, which has marked operations or some time. Tightness of the money narket is an operative factor, and as the urrent necessities are likely to increase the season advances, operations, it is elieved, will continue on a limited scale.
