China Lets Opportunity Quit.

China has missed her opportunity. The latest cable advices from the Flowery Kingdom assert that a treaty has been negotlated by Minister Conger which will give the United States greater advantages than ever before in the matter of Chinese tariffs. SPEAK WELL OF THE HOME

Other Eide of the Controversy Regarding Life at the Wisner Farm.

Work on the Farm, Attend School and Are Given Opportunities to Play, Have Plenty of Food and Comfortably Provided For.

WISNER, Neb., Oct. 4 - (Special.) - This mmunity is somewhat wrought up over the report of Rev. Father Ruesing relative to the Wisner branch of the Tabicha home, wherein it is held that the boys connected with the home there were not properly fed, were overworked and were denied many pleasures and that their education was neglected, and that typhold fever had prevalled among certain of the inmates, etc.

This branch of the Tabitha home, should be borne in mind, has been created for the special benefit of orphan boys and such others as come under the care of the home. The purpose of its establishment is to give the boys a practical education along agricultural lines, encourage habits of industry and give them a good business education. This home is located at Salem and is on the extensive and magnificently equipped ranch of 2,500 acres, owned by Henry Leisy, pferident of the Citizens' National Bank of Wisner, and the home is under his direct observation.

The adverse report submitted by Rev. Father Ruesing to Governor Mickey has stimulated the friends and occupants of the Salem home to submit to the governor a number of affidavits denying the essential

SPOLIATION OF THE INDIAN BOYS SAY THEY ARE WELL CARED FOR Hiram Chase Urges that Axe Be Laid at the Foot of the Evil.

> PENDER, Neb., Oct. 2-To the Editor of the Bee: Your paper is to be comnended for the part it has taken in bringing to view the deplorable state of affairs at the Omaha and Winnebago Indian reservations, wherein it appears that the "indian wards of the nation" have been the prey of a few favored land "grabbers" in league with bad officials.

It will be labor lost if The Bee should quit the field now; through its columns much has been done, that will ameliorate deter avarice and greed from making further spoil upon a weak and helpless peo ple; but at this stage of a long drawn fight for principle, it must be observed evils do or do not exist on these Indian reservations, as that since the crime of plundering and making spoil of a weak people is abundantly proven, what measure of punishment is to be meted out, or what remedy is to be applied to prevent the recurrence of these shocking evils? and it is to this point-that of inaugurating a better policy in the treatment of the Indians on these reservations that the thunders of newspaperdom ought now to be di

To one who has given some thought upon the question in hand, it seems that the socalled "Indian Question" to the government, is in many respects what the "col-onial policy" was to the British empire; prators on either side of the question reason well, but upon false premises and doctrines; and it seems to be upon the same plan that legislators pass laws for the government of Indian affairs, till now we have a so-called "policy," the tendency of which is to wrest from the Indian, under laws to which he has never consented, the lands secured to him by solemn treaties with the government. To those informed it appears that the law under which it is supposed that Indians are given the boon of selling their homes under the guise of so-called "heirship" lands, is merely an instance of unconstitutional laws passed by congress upon Indian affairs, as such a law is nugatory in its attempt to divest rights under former acts and treaties with the Indian tribes; that this point on constitutional law is well taken is abundantly supported by the opinions of the highest court in the land is beyond controversy.

The "Indian policy" now in vogue must be fundamentally wrong in principle, which must require an eternal watch upon the conduct of those officers sent to protect conscionable practices even of ghost of Banquo, the 'Indian Question' cerned. INTEREST IN TEXT BOOKS

Question Likely to Be injected Into Campaign of Candidates for

(From a Staff Correspondent.) LINCOLN, Oct. 4 .- (Special.) -- In all probability the question whether the regents of the state university should furish text books to the students of that institution at cost, will be injected into the campaign and the candidates for the reency will be given an opportunity to state the condition of the Indians, as well as to their positions on the question. The parents of the students are deeply interested n the matter, and as it is too late for the present regents to do anything this term, It is more than likely the candidates will be called upon to tell what they intend to do about it if elected.

C. S. Allen of Lincoln, one of the re publican nominees said this morning: have had no opportunity to look up the law in the case, though I know the statutes ontain a provision that the regents of the iniversity should furnish text books at cost. If no appropriation has been made for them to do this, and they should attempt to use the temporary university fund, then of course the matter would be up to the auditor to say whether he would people's horseflesh. issue the warrants. If such a plan on the part of the regents would be for the best interests of the students and it could be legally done, then of course I would be in favor of the regents furnishing the books. However, I have given the matter no thought whatever, and am not familiar with the provisions of the law, and neither of such a scheme."

Now that the report of Superintendent term of the year, and that the school only has an attendance of 425 students, those atparents who pay the bills, are becoming more and more interested in the matter, and are anxious that something be done. The executive committee of the State Teachers' association met at the Lindell hotel Saturday night and arranged the details of the program of the hollday meeting of the association. The speakers for the evening meetings will include Frank Roberson, who will deliver his illustrated lecture on "Norway;" ex-Chancellor James H. Canfield and Rev. Joseph H. Nugent of Des Moines, who will talk on the "Phil osophy of Civilization." For the general instructional work the committee has secured Dr. Hale, professor of Roman literature of Chicago university; and for primary instruction Miss Adalaide Holton, formerly of Salt Lake but now of Minneapolis, and Miss Cooper supervisor of primary work in Omaha.

Frank Roberson will deliver his lecture on the evening of December 30, Rev. Nugent the next evening and Dr. Canfield the evening following that. The state spelling contest will occur on Friday afternoon of the session. The evening sessions will be held at the St. Paul church. To look after the visitors a local committee has been appointed, consisting of Superintendent W. L. Stephens, I. S. Cutter, J. W. Crabtree, E. C. Rewick, J. I. Wyer, H. K. Wolfe and E. C. Bishop. Acting Secretary Ryan of the Interior deartment has sent telegraphic orders to the Dawes Indian commission to suspend the allotment of lands in the Cherokee Nation pending the approval by the department of the segregation of the 157,000 acres of land in the Cherokee Nation, claimed by the Delaware Indians, provision for which was made in the Curtis act of 1898. This order is the outcome of litigation nstituted in the courts of the District of Columbia by the Delaware Indians, in which Justice Anderson accepted an answer made by Secretary Hitchcock that the segregation had been approved by him-Acting Secretary Ryan has directed the commission to forward promptly the corrections in the segregation of the 157,030 acres made necessary by the fact that some of the lands heretofore set aside are occupied by Cherokees and as soon as theses are at hand the segregation will be approved. Judge Ryan expects that this will be done expeditiously so that the allotments can go forward.

FATAL FIGHT WITH NEGROES White Men Pursue Men Who Assault Them and One of Pursuers in Killed.

LOUISVILLE, Ky., Oct. 4.-Robert Dalton Burdin, a well known man, was murdered and D. Hays, his cousin, probably fatally hurt in a fight with negroes on the river front this afternoon. The young men who are members of the Louisville boat club, left for a sail in the afternoon, accompanied by several fellow club members, and as they were passing Towhead island were attacked by veral negroes, who threw lumps of coal into the boat. The boat tied up and its occupants started after the negroes, chasing them into a yard, where Will Fletcher, colored, seized an axe and striking Burdin over the head killed him instantly. Hays attempted to secure the axe from the negro, but was assaulted from behind and badly injured. The police arrested four negroes, including Fistcher, although fully twenty were concerned in the assault,

ARCHBISHOP KAIN BETTER Physicians Do Not Give Any Hope that He Will Entirely

Recover.

BALTIMORE, Oct. 4.—The physicians and surgeons who have for several weeks been in attendance upon Archbishop Kain of St. Louis, a patient at St. Agnes' sanitarium, this city, held two consultations today. At the close of the last one, late in the day, they reported that while Monsignor Kain was much improved, his condition does not warrant the hope that he will entirely recover from the ailments he is suffering from. Consultations of the five specialists and physicians will be held tomorrow.
