Rheumatism Is Not a Skin Disease.

Most people have an idea that Rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniments or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and sore-Bowling Green, Ky.
