Reynolds: J. E. Buckingham and F. H. Blake and these players are not due to play their first match until October 18.

In the handicap event at the Field club, the semi-finals were contested yesterdhy afternoon between Harry B. Morrill and H. Lawrie, the latter wilning by 1 up. INTERNATIONAL GOLF MATCH

As Result of Invitation Tourney Niue Americans Will Meet with Britons.

PHILADELPHIA. Oct. 7.—The first match play round of the invitation golf tourney given by Mrs. Clement A. Griscom in honor of her guest, Miss Rhonda K. Adair the British champion, was concluded at the Marion Cricket club links today at Haverford. The two best known players, Miss Adair and Mrs. C. T. Stout, formerly Miss Genevieve Hecker, still remain and will probably fight out the final on Saturday. During the day arrangements were made for an international woman's team match to be played on Saturday. Nine Americans will play against nine Canadians and English women. Miss Rhonda Adair will capiain the English side, and Mrs. C. T. Stout will head the home team. The match between Miss Adair and Miss Paulinte Mackay, was an interesting one throughout. The pair squared their match at every other hole, until the eighth was reached, when Miss Adair took the lead and from that point did not lose a hole. She won at

"Brooklyn Tommy" Sullivan, the doughty 120 pound man from St. Louis, sustained reputation for cleverness and hard hitting, which he gained in a long string of battles in the east, in his battle last night before the Omaha Athletic club at Washington hall, with Clarence Forbes of Chicago. Sullivan scored a clean knockout in the fifth round, after about a minute and a half of clever fighting. In this round Sullivan was the aggressor and chased his man clear around the ring. In ducking and side-stepping Sullivan, who was pressing him hard, Forbes came in contact with one of the iron posts of the ring and appeared to be daged. He did not take the count, but leaning on the ropes with both feet on the floor, received a right uppercut on the law that put him through the ropes and out.

In allowing Forbes and Sullivan to dictate new and unexpected terms before they would go on, and in giving up to the main event the entire receipts of the house, the ciub management certainly gained the good will of the local sporting fraternity. The men had agreed to go on for 50 per cent of the gross receipts, but at the last moment refused unless guaranteed \$400. As this sum represented the receipts of the house, there was a thresome debate before the fighters appeared, and then they only agreed to fight the scheduled ten rounds for the entire gate receipts.

The main event was preceded by four pre-liminaries, two of which were passably good and two quite the reverse.

John Holden and Ed Morgan gave a fine exhibition of "catch-as-catch-can" wrestling in two bouts. Holden won the first in twelve minutes and Morgan gained the second fall in six minutes.

William Wiley laid down in his bout with Charles Crusco, and "no contest" was the decision of the referce.

Terry Mustain made it a clean knockout in his bout with Harry Wilding after forty seconds of the first round had clapsed. Wilding was out-classed and the fight was not satisfactory to those present. At the close of this, for Wilding, short and dizzy affair, Theodore Van Busker, challenged Mustain and a fight may be arranged.

Joe Cathright colored, went on for four rounds with Hoy Buckles. He was too light for Buckles, and realizing that he could only hope to win the loser's end, Cathright quit after the second round.

Peter Loch, club referee, locked after each event, and his decisions were popular. Good order prevailed and the milling, especially in the first four rounds of the main event, was clean out and scientific.

Loss of Canteen Held to Be Responsible for Many of Ills with Which Troops Have to Contend.

WASHINGTON, Oct. 7.-An increase in the death rate of the army from 13.54 per thousand in 1901 to 15.49 per thousand in 1903 is shown in the annual report of Surgeon General O'Rellly for the fiscal year ending June 20. This increase is attributed to cholera, which caused 3.54 deaths per thousand.

Discussing other features of the health of the army, Surgeon O'Reilly's report says:

The aillotment of about \$0,000 native Filplao scouls having added a new racial element to the army, it becomes a matter of
much interest to study the comparative effects of discase on our white and colored
troops. For the whole army, at home and
abroad, during the year 1921 the while
troops showed an admission rate of 1.7.6.33
per thousand, a death rate of 14.40. The
negro troops had 1.897.74 admissions and
34.11 deaths per thousand, and the Malay
scouls 1.707.21 admissions per thousand and
34.04 deaths. The white race, therefole,
gave the lowest figures in sickness and
much the lowest ingures in sickness and
much the lowest mortality. The black race
led in both, aithough the Malay closely approached it in death rate.

Filipinos Are Temperate.

The freedom of Filipinos from the vice of The freedom of Filipinos from the vice of drunkenness is strikingly shown, when we had that out of 5,000 men only three individuals were treated for alcoholism in one year, and that, while white solders were admitted to suck account on account of their strength misconduct due to alcohol at the rate of 4.78 per thousand and colored troops at the rate of 17.70, the Malay scouts showed the extremely small admission rate of 0.82 per thousand.

The steadily increasing prevalence of veneral disease is the most discouraging feature in the sick report of the army. During 1902 13,000 admissions were from this

leadure in the sick report of the army. During 1902 13,009 admissions were from this cause alone, equivalent to a rate of 16.04 per thousand. Admissions to sick report from alcoholism in 1902 were slightly in excess of the number (including vo.unicern) for 1901. A total number of 1,830 cases, equivalent to 21.65 per thousand of strength, occurred.

occurred.

It is impossible not to attribute a large part of the steadily increasing venereal cases of the army to the loss of the canteen, where the soldier, if he so desired, could get his beer throughout the manth, but was not subjected to the temptations of intemperance and vice now attendant upon the expenditure of a full month's part the low resorts infesting the outskirts of our military reservations.

A slight diminution of insanity occurred in the army juring 1802. There were 18 new cases, equivalent to the admission rate of 1.71 per thousand, which is almost identical with the rate from 1891 to 1900.
