

ADDITION OF OMAHA'S TRADE

On the Wholesale Market Last Week Than Ever Before

CHANGES IN RULING PRICES

Businessmen This Time On Will Devote a Larger Share of Attention to Their Business, Which They Expect Will Be Good.

It is safe to say that Omaha jobbers and manufacturers as well as retailers had the business this time on their feet. The business is not only on its feet but it is also on its feet.

Wholesale grocers still report business very brisk in their line, and in fact they have had all the orders of their customers with the usual amount of promptness.

The coffee market eased off a trifle early in the week but turned up again and still higher prices are being predicted for the near future.

Both California and Wisconsin hand picked beans are quoted at a shade easier than last week.

The canned goods market is active and generally firm, but turned up again and still higher prices are being predicted for the near future.

Many Liberal Dry Goods Buyers.

Trades with local dry goods jobbers last week was very heavy and in fact much better than generally anticipated.

There was also a very good demand for sample and seasonal lines of goods.

Leather Goods in Big Demand.

There were more boot and shoe men in Omaha last week than in any other week.

Fruits and Vegetables.

Writing to the large number of visitors in the city last week there was a very heavy demand for all kinds of fruits and vegetables.

Present Agitation in France is Developing Some Queer Phases.

(Copyright, 1908, by Press Publishing Co.) PARIS, Oct. 10.—New York World Cablegram—Special Telegram—Anti-clericalism is developing odd phases. The anti-clericals are now crying loudly for the removal of the cross surmounting the dome of the Pantheon.

The municipal council of Saint Savine, near the Rhone, has solemnly adopted a resolution declaring that "Whores in Paris are supposed to be dwellers in paradise, not requiring a terrestrial residence. Resolved, That the name of this country changed from Saint Savine to Savine."

CHANCE FOR CHAMBERLAIN

Might Devote His Energies to Restoring the Prosperity of South Africa.

(Copyright, 1908, by Press Publishing Co.) LONDON, Oct. 10.—New York World Cablegram—Special Telegram—The radical claim that instead of upsetting the British fiscal system in order to arrest imaginary decline in British trade Joseph Chamberlain would be more profitably employed in devising some statesmanlike scheme by which the prosperity of South Africa might be restored before his waning might be restored.
