European Condition and Government Report Depressed Prices of Wheat.

PRICE OF CORN WAS A LITTLE LOWER

Dates Followed the Declines in Other Grains, While There Was Firmness in the Provisions Market.

CHICAGO, Oct. 12.—Unreprovable cables and a bearish government report caused weakness in wheat today, and December closed at a low of 72¢, 11 months at 74¢, and lower, while other provisions were firm.

The sentiment in the wheat pit was decidedly favorable to the long side. In general had a depressing influence. Foreign markets did not respond to the advance here Saturday and this fact, together with the government crop report issued Saturday, showing a large yield, has generally expected a lower price at the start, December being down 1/4 to 1/2 to 1/3 to 1/2.

Local receipts were 351 cars, 22 of contract grade, the balance of the total receipts for the week being 1,327 cars last week and 1,352 cars a year ago.

Corn ruled weak along with wheat and partly on the bearish crop report. There was heavy selling and the price advanced on a fair commission house demand toward the end of the session.

Industrial Stocks Suffer Violent Decline Without Apparent Reason.

NEW YORK, Oct. 12.—The stock market today was a scene of confusion and panic. The market opened easy at unchanged prices to a decline of 6 points under liquidation following rather disquieting cables and the absence of killing frost in the belt over the country.
