BOSTON, Oct. 13.-The Boston Americans shut out the Pittsburg Nationals today and won the world's base ball championship

shut out the Pittaburg Nationals today and won the world's base ball champlomains to the almost frenated delight of 7,000 enthusiasts. While the attendance at all the previous games of the series has been larger than today, the demonstration which followed Dineen's striking out of Hans Wagner in the hinth equalled any college football game. The world's champlons were borne to their dressing rooms on the shoulders of thousands and cleering lasted many minutes.

Phillippe, who was such an enigma to Boston in the first few games, essayed to Boston in the first has third base. Dineen struck out seven men and bis support by Criger's game, the latter's beautiful throw to seen did in the fourth, followed by a quick snap of the ball by Collins, catching Leach of the ball, by Collins, catching Leach of the bag, was the best place of work in the game. Other features were mainly contributed by the visitors and Boston's sort would undoubtedly have been larger, but for the great running-catches of Beaumont and Clark, Wagner's work at short and Leach at third. For the home team had men on bases in the first and second innings, they did not entirely any the first strow.

IOWA BACKERS CONFIDENT Improvement in Team Gives Hope of Winning Game from Minnesota.

IOWA CITY, is., Oct. 13.—(Special.)—"Our practice this week and our continued improvement every week, according to program, with our especial improvement in the last game before the Minnesota game, which was peculiarly well adapted to test the lowa teem for the contest with the Gophers, combine to make our chances against Minnesota seem much brighter," said Coach John G. Chalmers of the University of lowa today.

Prof. Chalmers is far from minimizing the difficulties which lowa will encounter on Northrup field and he will certainly not permit the lowa players to become overconfident. He has been very conservative in his stataments about the team from the start of the season. Assistant Coach Clyde Williams, Manager Spangler and the other authorities of Prof. Chalmers' department are much more optimistic than they have been before this year.

The Iowa students are jubilant over the prospects of defeating Minnesots. The crowds watching the practice of the team are as large every night as those which attended the practice games of the season. The subscription hats for the Minnesots. The sexuration are filling rapidly.

"This is our year of years to defeat Minnesota." said Manager Spangler today. "This is our year of years to defeat Minnesota." said Manager Spangler today. "This year and we have had very good reports from the games which Minnesota has played. The development of the team the

last two weeks has been marvelous. I always knew that the impression which somehow got about that we had no team this year would some time receive a severe blow. I guess it has been done away with now. I don't say we will beat Minnesota very much, but we are going to beat her. The lowa team will leave for Minneapoils Thursday night. The excursions from lowa City and Cedar Rapids will leave Friday night. Arrangements have been made so that alumni who can make Cedar Rapids easter than lowa City can take the special cars at Cedar Rapids.

Fritzel is a possible player at fullback in place of Gibbs. He took Gibbs place at fullback in the second half and played a good game Saturday.

The conviction was secured under the section which holds that "a person who omits without lawful excuse to perform a duty by law imposed upon him, to furnish food, clothing, shelter or medical attendance to a minor is guilty" etc.

Justice Bartlett, in the appellate division held that the medical attendance referred to in the statute does not mean exclusively the attendance of a medical practitioner in the general sense of the term. The appellate division reversed the conviction. In its opinion, written by Justice Haight

In its opinion, written by Justice Haight, the court of appeals says:

It would seem that the case is really clear, although possibly more precise language could have been employed. The section of the code under which the indictment was found contemplates that there are persons upon whom the law casts a duty of caring for minors. We are aware that there are people who believe that the divine power may be invoked to heal the sick and that faith is all that is required. There are others who believe that the Creator has supplied the earth, nature's store house, with everything that man wants for his support and maintenance, including the restoration and preservation of his health, and that he is left to work out his own slavation under fixed natural laws. There are still others who believe that Christianity and science go hand in hand, both proceeding from the Crastor; that science is but the agent of the Aimighty through which he accomplishes his purpose and that both science and divine power may be invoked together to restore diseased and suffering humanity. But, sitting as a court of law for the purpose of construing and determining the seaning of statutes, we have nothing to do with variances in religious belief and have no power to determine which is correct. We place no limitations upon the power of the Bupreme Being to heal the sick. We merely declare the law as given us by the legislature. We find no error on the port of the rial court that called for a reversal.

More Room is Needed for Sheep in Barns at the Stock Yards.

Unless Huyers Are Prompt in Getting Out Their Purchases Facilities

"If the present receipts of sheep keep up," said a commission man at the stock yards vesterday, "the sheep barns will have to be enlarged. Since the old barns were burned new barns with all accommodations for the nousing of sheep have been built. These barns have a capacity of 50,000 head, but some days the buyers of feeders are slow in getting out their stock and so the new barns are crowded. Yesterday the receipts were nearly 20,000 head." The attention of General Manager Kenyon has been called to the sheep barns and it is thought that he will have plans drawn for an extension of the barns in the spring. For the present all improvements in the building line at the stock yards have been stopped.

Holes Need Filling. Many holes in the asphalt pavement on Twenty-fourth street need filling, but as usual there is no money on hand to lay a new payement. It has been suggested that the city street department procure some broken stone and fill the holes so that the

pavement will not be so rough during the winter months. From J street south to N the pavement is in bad shape, especially on the west side, and the business men are very anxious that the city authorities do something to put the street in a passable condition before winter. There is enough money in the street repair fund now to fill the holes with broken stone, and it is possible that the mayor may order the work done at once.

MERCURY A POOR CRUTCH.

Experience is a dear teacher, as those who pin their faith to Mercury find out sooner or later. This pow-erful poison combined with Potash, is the treatment generally prescribed for Contagious Blood Poison, but failure and disappointment is the invariable result. These minerals drive in the sores and eruptions, and apparently the disease is gone and the patient believes the cure per-manent, but soon learns better when the old symptoms return almost as soon as the treatment is left off. You must either keep the system saturated with mercury or endure the tortures

of sore mouth, ulcerated throat and the mortification that one naturally feels when the body is covered with disgusting sores, rashes, copper-colored splotches and other aggravating symptoms of this vile disease.

Mercury and Potash are poor crutches, and their use eventually breaks S. S. S., a guaranteed purely vegetable remedy, is the only antidote for Contagious Blood Poison.
