PRICE OF CORN SOMEWHAT HIGHER

Oats Market Was About Steady, with Trading of Moderate Proportions-Provisions Market Was Little Firmer.

CHICAGO, Oct. 14.-Increased primary receipts with a reduction in the premium of the cash article were influences that tended to weaken values in the wheat market today and closing prices were weak. Rect today and closing prices were weak. December being ½c lower. December corn was up ½c, with oats off ½c, while January provisions closed from ½½cc lower.

There was a general disposition manifested among wheat traders to sell out long lines and with an absence of any news that might be construed of a bullish character the market developed a weak underione. Opening prices were easier on rather indifferent cables, invorable weather for the movement and larger receipts, becember being ½½ckc lower at ½ckc. Trading was dun the early part of the session and prices fluctuated within a narrow range. The tendency was toward a lower level however, influenced by the smaller demand for each and the lower prices at Minneapolis. Later a fair raily occurred on buying by traders who had sold short early, which sent December up gradually to ½cc. A slight raily at Minneapolis and a stronger market at \$1. Louis were causes for the covering. During the last hour of the session there was selling on the advance, credited to a prominent bull operator and with an absence of support the market again weakened. Closing prices were near the bottom, with December ½c lower at ₹8½c, after touching ₹8½ £78%c. Clearances of wheat and flour were equal to ₹80,800 bu. Primary receipts were 1.182,900 bu. against 1.122,900 bu a year ago. Minneapolis and Duluth reported receipts of 104 cars—none of contract grade, made total receipts for the three points of 619 cars, against 547 cars last week and 551 cars a year ago. ers a year ago. Corn got a firm start under the influence

cars a year ago.

Corn got a firm start under the influence imparted from westerday's shipping business, and on higher cables and smaller receipts than had been estimated. There was a fair demand from locals early in the day and with light offerings the market developed additional strength, helped to some extent by the small offerings from the country. The late weakness in wheat affected corn and the close was only a trifle higher than yesterday. December being up 'kc at 45\cdotkc, after selling between 45\chick, and 5\chick, after selling between 45\chick, after selling by packers was a weakening influence later in the day. The close was steady, with January pork and lard each 2\chick, lower at \$12.07\chick, and \$6.57\chick, and 26.57\chick, and 26.57\ Articles. | Open. | High. | Low. | Close. | Yes'y.

LONDON, Oct. 14.—MONEY—Was plentl-ful in the market teday and rates easy, which affected discounts. Business on the Stock Exchange opened quiet with prices firm. There were indications that tomorrows' pay day will pass without difficulty

The lack of further alarming far eastern news was interpreted favorably. Consola hardened, uplifting other sections. Home rails improved in spite of unencouraging traffic reports. American's opened weak, but recovered to above parity. They essed slightly lator, the movements were irresular and prices closed steady. Canadian Pacific was weak. Kaffirs were firmer on cape and continental buying. Bullion to the amount of £100,000 was withdrawn for shipments to South America.

PARIS, Oct. 14.—Three per cent rentes 957 80c for account. Exchange on London 257 15c for checks. Trading on the bourse to-day was favorably influenced by Japan's denial of the reported tension with Russia and the signing of the Anglo-French arbitration treaty. Prices had an upward tendency throughout and closed firm.

BERLIN, Oct. 14.—The tone on the bourse to-done advices and as a result of that favorable news regarding the far eastern situation. Exchange on London 20 marks 42 pfgs for checks.

NEW YORK STOCKS AND BONDS.

NEW YORK STOCKS AND BONDS.

Stocks Was Feature of the Day.

NEW YORK, Oct. 14.—Attempts on the professional traders to advance stock prices today were disturbed by the development of a number of weak points in very much the same manner as yesterday. The advances which were achieved were in consequence generally wiped out and the last prices were below last night as a rule. The strength in the early dealings was helped by the higher range of prices in London, where the financial community felt great encouragement over the prospect of averting hostilities between Russia and Japan. The stock market situation at Pittsburg was much improved today and market values of Cruchie Steel preferred went far toward repairing the damage done by yesterday's panicky break. The responsive pressure upon United States Steel preferred, which broke that stock in yesterday's market, was relieved in consequence. Official denial of some of the disturbing corporations indicated the activity of bear manipulators in disseminating the rumors and prompted to some recovery. The break in the Canadian group of stocks offered the first interruption to the advance and servei to add to the anxiety caused by yesterday's rumors of financial difficulties in Montreal. The effect on the general list was not very marked and attempts were made to contest the reaction. The market was without any animation, however, after this development. Later in the day the weakness of Amalgamated Copper overshadowed the whole situation. This stock was lifted a point in the early dealings and reflected quite an active speculation based on tomorrow's dividend action. The weakness of the American Smelting stocks seemed to be associated with that of Amalgamisted Copper. The violent break in the American Car stocks toward the close of the session also had an unsettling effect. The common fell 3% and the preferred 4½. The premium commanded by this stock in the-boan crowd this morning indicated an over-extended short account and the covering by the bears alded them in the early market. The effect upon Weakness of Amalgamated Copper Stocks Was Feature of the Day.

NEW YORK, Oct. 14.—The cotton market opened steady at an advance of two points to a decline of two points, the gains being due to the high cables and reports of a better demand from spinning interests abroad, while the declines were under realizing as a result of better weather, unexpected. No frosts were reported and while temperatures in northern sections of the beit were still rather low for the best development of cotton, the forecast called for warmer weather. For a time the market ruled very quiet, showing little change from the opening prices, but with the receipts running behind last year's and private reports being received from the south telling of firmer spot markets, an advancing tendency soon became apparent and trading turned more active. There was considerable covering by recent sellers on the advance and there seemed also to be a better demand from outside sources, attracted by the predictions of a better demand from consumption and encouraged by the more peaceful aspect of the far eastern troubles. The market, after reaching a level 10g12 points higher on active months, was eased off by realizing, however, the profits afforded the room longs by the advances of the day in connection with those of yesterday, proving attractive while there was also some selling on the reaction theory. The market was finally steady, net one to five points higher. Sales were estimated at 500,000 bales, Port receipts for the day, 42,800 bales, against 57,783 bales last year, and the estimates for tomorrow receipts at leading points were light. Exports reached about 16,000 bales, making the total for the season thus far some 679,000 bales against 575,000 last year. The southern spot markets were generally firm from unchanged and 5-16c higher, and the New York spot market was advancing 10 points.

NEW ORLEANS, Oct. 14.—COTTON—Steady; sales, 5,700 bales; ordinary, 6 13-16c.

firm from unchanged and 5-16c higher, and the New York spot market was advancing 10 points.

NEW ORLEANS, Oct. 14.—COTTON—Steady; sales, 5.700 bales; ordinary, 6 13-16c; good ordinary, 8½c; low middling, 9½c; middling, 9½c; good middling, 9½c; middling, 11-16c middling fair, 10 1-16c; receipts, 10,211 bales; stock, 115,837 bales; futures, steady; October, 9.2769.28c; November, 9.2869.27c; December, 9.2569.28c; January, 9.3269.33c; February, 9.3269.28c; January, 9.3269.33c; February, 9.3269.28c; January, 9.3269.33c; February, 9.356; May, 9.60c; June, 9.66c; July, 9.70c.

ST. LOUIS, Oct. 14.—COTTON—Firm but unchanged; middling, 9½c; sales, 88 bales; receipts, 562 bales; shipments, 448 bales; stock, 945 bales.

LIVERPOOL, Oct. 14.—COTTON—Spot, moderate business done; prices, two to eight points higher: American middling, fair, 6.22d; good middling, 6.04d; middling, 5.88d; low middling, 5.68d; good ordinary, 5.12d.

The sales of the day were 6,000 bales, of which 500 were for speculation and export and included 500 American. Receipts, 6,000 bales, including 2.500 American.
