Hats That Are Extra Values...

What's the use of buying a hat in a haphazard sort of fashion at the first place you happen to come across? What's worth buying is worth studying. It's just as important that you should get the best your money can buy in a hat as in anything else.

We want your hat patronage—we're going to win it if your judgment of best values is as good as we think it is. What do you pay—\$1.50, \$2.00, \$2.50 or \$3.00. If you usually pay \$2.50, we'll give you a hat for \$1.50 equally as good, or if you have been in the habit of paying \$4 or \$5 you'll find our \$3 line as good and oftentimes better than you've been getting.
