Common are quoted at efficie prime biguidide: choice, 60 ever, fancy, Figure. Boot prunes are in moderate demand. though they are moving hardly so rapidly as might be expected at this time. Prices are steadily held and range from Fig to 7c for all grades. Apricots attract a fair demand and hold-ers are firm in their views. this morning, as buyers seemed to be pretty well filled up and apparently did not care whether they got many or not. The market for the week, though, has been very satisfactory, as the demand has been a little in excess of the supply and prices have advanced all along the line, fully 100 jisc, with some sales showing even more of an advance than that. There is little change to note in bulk, yeal calves and stags, as prices have held just about steady all the week. There were only a few stockers and feed-ers in sight, so that in spite of the fact that the end of the week is a thand, orices on anything decent held about steady. Common stuff was extremely dull the same as usual. For the week the beat grades of heavy cattle or choice lightweights are very little if any lower, but the plain and common cattle are dull and fully 1000 bc lower, with some sales even worse. There were compared with the close of last week. Range cows were a little slow, but all of 100 jion higher than tweek, white stockers and feeders looked fully 100 jion lower than last week's closing prices un-less the cattle were of very good quality.
