

Another Opportunity for Home-seekers to Home-Seek.

The Frisco System again announces that it will sell tickets from St. Louis and Kansas City to points in Oklahoma, Indian Territory, Kansas and Texas, at the very low "rush-trip" rate of \$15.00. Opportunities for homes in the Southwest are still plentiful, and the best lands are by no means all taken up. Excursion tickets sold at this extremely low rate will be good on any of the Frisco regular trains leaving St. Louis at 2:30 p.m., 1:35 p.m. and 10:30 p.m., October 20, and leaving Kansas City 7:15 p.m., and 11:30 p.m., on the same date. If you are looking to the Southwest for a future home, this excursion of October 20th is an excellent opportunity to investigate the country. Your own home ticket agent will be able to give you full information as to rates and limits of tickets.

Write for our interesting booklet entitled, "New Lands Along the Frisco System," by Bryant Snyder, and for detailed information to R. S. Lemon, Secretary Frisco Immigration Bureau, St. Louis.

COREA AGAIN IN DANGER

Russia, Japan and China in a Fix-Up—Likely to Disturb at an early Day.

THE PEACE OF THE WORLD

The Critical Situation in Manchuria Is Intensified by Trouble in Korea.

Those yellow people in Asia seem bent upon trouble. Russia is not unwilling to have them engage each other in battle. In fact, the Bear of the North is all ready to make a grand rush just as soon as trouble begins. It is bad enough to have the Chinese and Japanese engage in a quarrel, but their controversy is likely to

UPSET THE MAP OF ASIA

An involve nearly all the civilized globe in warfare. Manchuria is a slice of territory which the hungry Russians ache to swallow. Korea is a menace to both China and Japan, and trouble on that peninsula will interest Germany, France and England. The United States will not necessarily be involved, but this nation is a world power now and cannot be indifferent to Oriental difficulties. Meanwhile the

BANKERS RESERVE LIFE

will peg away steadily in the heart of the American continent undisturbed by the frosts likely to be kicked up on the other side of the Pacific ocean. This aggressive young western institution will grow into a \$10,000,000 company next year, in spite of wars and rumors of wars. Its field force, already large, will be doubled within three months and will be actively campaigning in eight of the best states in the American Union if—

R. H. ROBINSON, PRESIDENT,

can secure the men for the work. Good territory is awaiting solicitors, and managers' contracts can be made now, which will make money for the managers and build up the company. Under the new charter of the company, with up-to-date policies and splendidly equipped field men, the \$50,000,000 high water mark will be reached before 1935 as sure as the decade which ends with that year will pass into history.
