TAKES HER LIFE IN CHURCH

HYPNOTIST HELD RESPONSIBLE FOR DEED

Formerly of a Happy, Cheerful Disposition, but Had Been Melancholy Ever Since Placed Under His Influence.

(From a Staff Correspondent.)

LINCOLN, Oct. 17 .- (Special.)-During the confessional hour at the close of the mission services 'at the St. Theresa pro-ca thedral this morning Pansy Ballard of Wilbur, aged 18 years, a student of the State university, drank a quantity of carbolic acid, walked quietly into the confessional and upon her knees before Father Boarman told what she had done and then collapsed. The priest rushed excitedly from the room and appealed to the congregation for medical aid. Dr. MacFlanagan, who deed. Miss Verges said: was in the congregation, responded and the

two with others supported the dying girl into the sacristy adjoining the confessional, where she breathed heavily for a moment and then died without regaining conscious ness. Though the poison had badly burned her lips and mouth and tongue not a groan escaped her and she gave no evidence that she suffered pain.

The reason for her act, assigned by her friends, was due to her melancholy disposition, the direct result of having been ier. hypnotized four years ago by a traveling hypnotist during a performance at Wilbur. Bince that time her friends said she had changed from a happy, cheerful girl to one of a moody and unhappy disposition. They told also that it was her desire to attend the convent here and that it was her father's wish that she become a student of the university. When she first came to Lincoln at the beginning of the school year she did attend the convent for a short time and then at her father's request entered the university. Yesterday she called upon the sisters at the convent and was to have visited them again today. This had worried wired of the girl's death. her considerably of late and her friends believe that she had no other reason for taking her own life.

## Attend Church in Morning.

The dead girl was the daughter of E. E. Ballard of Wilbur, formerly a banker of caused her to take her life. that place, but who now is in Dodge City," Kan., looking after his grain interests. Her mother and other relatives live at Wilbur.

She roomed with Miss Anna Verges at 1323 S street; Daisy Ballard, a sister, roomed at 410 North Thirteenth street. Miss Ballard went to the church this

morning shortly before 9 o'clock and occupied a seat during the mission services on the west side of the building and so natura' was her actions that no attention was drawn to her. When the services were ended all of the congregation left with the exception of thirty or forty and these were present when the girl so tragically ended her life. After her death a bottle about half full of the poison, tightly corked, was found with a rosary in the seat she had occupied. This had been bought at the Flegenbaum drug store shortly after \$ o'clock this morning and the clerk said she had asked for a quarter's worth of the poison. She did not at this time appear nervous, he said, and as she asked for such a large quantity he thought nothing of selling it to her. It is supposed that she then went direct to the church with her mind

fully made up to commit the deed. Inasmuch as she had been in the church some time before the poison took effect it is supposed that while kneeling in prayer just before the close of the mission service she drank the acid. As she walked from her seat she was noticed to slightly stagger

#### Inquest Develops Nothing.

At the inquest tonight Father Shine, rector of the church, testified that as the girl lay dying in the sacristy he gave her onditional absolution and then seeing that death was inevitable, anointed her lips, hands, nose and feet. He anointed her feet by taking off her shoes and cutting a slit in her stockings. He told also that the dead girl's sister had told that Pansy had been hypnotized four years ago, since which time she had been of a very melancholy temperament.

The testimony of Father Boarman brought out nothing new. He said the girl had spoken to him Thursday night at the services and this morning he was in the box of confessional listening to the right when he heard some one stagger against the box to his left. He heard two or three groans and, rushing out, saw the girl lying against the box. She never spoke.

A misunderstanding arose as to what constable should select the jury in the case and Constables Hunger and Bartram each reported with a jury. After some discussion the coroner recognized Hunger's jury. The verdict was that the girl had died from the effects of a dose of carbolic acid self-administered for reasons unknown.
