As has frequently been pointed out, the Canadian contention in regard to the Alaskan boundary is of comparatively recent date. It was trumped up shortly after the discovery of gold. By our treaty of 1867 with Russia...

Canadian displeasure at the outcome is wholly displeasure. The decision of the commission, it is not to be doubted, will stand and what has been an irritating and somewhat dangerous issue will be removed from further controversy.

The Real Thing in a Salubrious. Our main object in coming to Arapahoe is to make some money. We have been in the newspaper business for a number of years, and while we have had lots of fun...

Unorthodox Garments Tabooed by a West Virginia Presbytery. Washington Post. Something new is a promise for a spell with the Greenbrier Presbytery of West Virginia on the following proposition...

As the time approaches for the arrival in Washington of Mr. Root's successor as secretary of War interest is aroused in the prospective attitude of Governor Taft. Those who know him are inclined to think that he will not be profoundly interested in the routine matters which he will enjoy upon the head of the War department.

Another big railroad system is promising to install block signals on all its lines. The days of the old flagman and lantern swinger are surely numbered.

Nothing more has been heard of the proposition to create a "military" assistant secretary of the navy. It may be positively stated that any such plan will be opposed with uncompromising emphasis by Mr. Moody, and it is certain the idea will be rejected with equal promptness and vigor if it found its way to a house or senate naval committee.

The first year's institution at the School for Farmers and Horsehoers at Fort Riley, Kan., has justified the anticipations, and as soon as the building authorized for the school can be completed the service will derive a continuous benefit from this establishment.

TALK OF THE STATE PRESS. Minden News: The new revenue law is a republican law, and to give it a fair trial we should have a republican assessor. A fusion assessor will, of course, do all in his power to make the law a failure.

That's Different. James Barton Adams in Denver Post. When a man in noble clothes spends his money through a hose...

Our amiable democratic contemporary is still wearing blinders whenever public attention is directed to those rotten county bridge deals and court house vault steals.

AN ECONOMIC CONGRESS. According to Washington reports it is the intention of Mr. Cannon, the prospective speaker of the house of representatives, to insist upon economy in appropriations. It is easy to believe the statement for Mr. Cannon has always been in favor of a reasonable economy and it is to be expected that in making up the house committee on appropriations he will select men who are known to be in sympathy with his views in regard to public expenditures.

PERSONAL NOTES. A Pittsburg astronomer claims the discovery of a new spot on the sun—or is it the place where Boston knocked the ball through?

It is announced that President Pizaro of Ecuador will come to the United States soon. He will remain long enough to visit the St. Louis exposition.

The annual report of General P. C. Ainsworth, United States army, chief of the record and pension office, contains an attack upon the practice of legislation which constitutes one of the most absurd fictions of the government.

Wayne Herald: A committee of Norfolk citizens appeared before the State Board of Public Lands and Buildings in Lincoln Tuesday to urge action looking to the reconstruction of the insane asylum at Norfolk. The delegation was informed that an architect was working on the plans of the proposed buildings and would have them ready by November.

While the troops from this section are all mobilized at Fort Riley the time should be propitious for the launching of a few new Indian war scares from neighboring reservations.

It is intimated that Senator Gorman would like to have a political joust with President Roosevelt by drawing the personality of the president into the Maryland state campaign. The president, we may depend on it, will not dignify the Maryland senator's attacks with attention.

The results of Prof. Langley's experiment on flying machines illustrates the truth of the saying that it is not the wings—the appropriation for the experiment is exhausted.

A dispatch from Indianapolis announces that Senator Fairbanks is "in the hands of his friends" with respect to the vice-presidential nomination. But he wants it understood that he is seeking the honor.

Wayne Herald: People will remember the many sheriff's sales of real estate, under foreclosure, previous to the good times ushered in by the McKinley administration. Every sheriff in the state usually had plenty to do in selling land to satisfy mortgages.

The judges and clerks of election have all been appointed for Douglas county—nearly 700 of them altogether. What the people want is simply a fair count and an honest enforcement of the election laws and this they will insist on.

The assertion that the republicans are slugging Judge Sullivan because he ruled that the Nebraska constitution does not bar the bible out of the public schools is absolutely baseless. Judge Sullivan is not being criticised because he ruled on the bible-in-the-public-schools question, but because his so-called ruling was a straddle that would best be described by "now you see it and now you don't."

Just the Weather. To wear one of those new broad shouldered \$15.00 suits that you hear so much about—some at \$18.00 and \$20.00 and \$25.00. You don't need to cover it up with a top coat either for some time to come—because warmth goes with other details of excellence in the Browning, King & Co's clothes.
