Firm Undertone in Wheat Pit by Reason of Eastern Situation.

REPORT OF FROST DAMAGE TO CORN This Report Sends Prices Up on This Grain, While Whent and Oats

Close at Higher Figures.

CHICAGO, Oct. 23.—A firm undertone prevalled in the grain pit today, wheat prices being upheld by the uncertainty of affairs in the far east, while corn was influenced by continued reports of damage by frost, and closing prices were up ½ 5% con wheat, is on corn and % con oats. Provisions closed steady, the January products being unchanged to 5c higher.

Rumors of a probability of war between Russia and Japan circulated quite freely among wheat traders before the opening and caused a little buillish sentiment. This feeling was accentuated by the comparatively firm tone of cables in the face of a decline here yesterday, and December opened in the face of a decline here yesterday, and December opened in the face of a decline here yesterday, and December opened in the face of a decline here westerday, and December opened in the face of a decline here yesterday, and December opened in the face of a decline here yesterday, and December opened in the face of a decline here yesterday, and December opened in the face of a decline here yesterday, and December opened in the face of the strength of outside markets, prices showed a fair advance early, December selling at 80%c. With the exception of the bear talk the news in general was bearish, and this caused some selling by local traders, which resulted in a somewhat easier tone, but a recovery soon followed on recovering by shorts and fair trading by a prominent bull. New York reported a good inquiry for No. 2 red winter for expert and thus helped prices here. Trading was quiet in the latter part of the session and prices fluctuated narrowly. December closed in the latter part of the session and prices fluctuated narrowly. December closed in the latter part of the session and prices fluctuated narrowly. December closed in the latter part of the session and prices fluctuated narrowly. December closed in the latter part of the session and prices were firm, due principally to the continued recepts for the three points of 78 cars, against \$7 cars inst week and 79 cars a yea

after ranging between 25% c and 35%c. Local receipts were 25% cars.

Trading in provisions was extremely quiet and prices showed little change. Opening prices were a trifle easier along with hogs, but a firmer tone at the yards later was reflected in the hog products. January pork closed 5c higher, at \$11.97%; January lard was unchanged at \$6.55, and ribs were up 23%c, at \$6.25.

Estimated receipts for tomorrow: Wheat, 75 cars; corn, 355 cars; oats, 240 cars; hogs \$12,000 head.

NEW YORK STOCKS AND BONDS

Amalgamated Copper Absorbed Interest of Dealers on Stock Exchange.

CONSIDERABLE SHRINKAGE IN VALUES Bond Market is Attracting Attention and There is a Tendency to Higher Prices Due to

Freer Buying.

NEW YORK, Oct. 23.—Amaigamated Copper absorbed an everwheiming propor-tion of today's pusiness in the sock mar-ket. For a good deal of the time the dealings in this stock were larger than in dealings in this stock were larger than in all others combined and it computed about one-third of the aggregate sales of the day. The day's tolal showed a considerable shrinkage from the recent average and none but a negative significance cound be drawn from the day's market.

On this basis of interpretation the market must be said to have offered a good resistance to the day's disturbing factor, as has been the case during the whole of the week. From the point of view of the professional traders there was an inclination to draw the inference that the backset received by the Amalgamted Copper company would induce a very conservative market attitude on the part of the Sandard Oll party. As the professional element lays great stress on the so-called leaving interests, this inference caused some sentimental effect. But the professional impression was somewhat confused in this regard by the action of Standard Oll itself on the curb. This stock sold first at six points over the previous close at 638 and later at 546, the closing being at 650 bid. There was a very excited market for Amalgamated Copper at first. At the opening 12,500 shares were thrown upon the market for simultaneous sales, which were made at 35% down to 31½. Within the first few minutes of the trading from 30,000 to 40,000 shares changed hands. The manifest inside support for the stock then became effective and railled it a point. Its fluctuations were constant and feverish during the whole of the day, carrying it back to the opening low point, then completely recovering and closing at a decline of %. The decision to shut down the company's works in Montana pending the decision on appeal of the litigation presents a situation whose seriousness to the corporation can hardly be gainsaid. The principals to the contest exchanged bitter recrim nations through publications during the day. But the impression gained force nevertheless that the accumulation of the stock was of a substantial character, and the supply of the selling showed some falling off in e-this of the aggregate sales of the day

BOUTH OMAHA, Oct. 23.

SHEEP—There was a fair sized run here this morning for the time of the week and the market could best be described by calling it slow, but about steady. Killers were very scarce and it did not look as though buyers were very anxious for fresh supplies. They finally bought up about every thing offered, though, at yesterday's prices, but as compared with a week ago prices are considerably lower. The decline in the majority of cases would be covered by 100 l5c, while something common might be 150 l5c lower.

The feeder market was also slow this morning, as very few buyers put in an ap-

The feeder market was also slow this morning, as very few buyers put in an appearance. There was not very much carried over from yesterday, though, so the pens will undoubtedly be well cleaned by Saturday afternoon. The general run of feeder sheep are 10% like lower and the better grades of lambs are not over that, but common and lightweight lambs are around 50c lower than last week. Thin ewes are also considerably lower, the loss amounting to 25% of and trading on that class is very slow at the decline. Baby lambs can now be bought around \$2.50% 3.00.

Dry Goods Market.

NEW YORK, Oct. 22.—The week at its close shows no increase in business in dry goods, but sellers are firmer in their ideas and report more inquiry, with a determination on the part of buyers to bear the market, which is generally insuccessful. Johbers are doing a very small store business and the outlook for increased trade with second hands is not bright.

On His Way to Corea.

SAN FRANCISCO, Oct. 23,-Horace N. Allen, United States minister to Corea, has arrived here from the east. Minister Allen, who has been in Corea for eighteen years, left Seoul, the Corean capital, last spring on an extended leave of absence. He is now on his way back to Corea to resume his diplomatic duties.
