

GRAIN AND PRODUCE MARKET

Manipulation at St. Louis Ousted Sharp Advances in Price of Wheat. Higher and Provisions Firm After a Break in Price of Ribs.

CHICAGO, Oct. 24.—Manipulation of the December wheat at St. Louis was the dominating influence in the grain market and caused a sharp advance when the December option closing was a gain of 1/4 cent. December corn was up 1/4 cent, oats were 1/4 cent higher and wheat 1/2 cent higher.

Buying of both December and May wheat by houses with St. Louis connections was the feature in the wheat pit and the demand from that source became so urgent with only light offerings that the market was strong throughout the day. Local buyers showed little interest in wheat, but for some time past, although there was nothing in the shape of news to warrant such action, the combination of bull factors was the possibility of war in the Orient and the sharp movement in the northwest, but this was sufficient to create a strong demand. December opened 1/4 cent higher at 92 1/2 cents and soon after the opening when the price of December at St. Louis began to advance by big strides, the price of December at Chicago advanced 1/4 cent to 92 1/2 cents.

On the produce exchange today the market was quiet. Eggs steady at 17 1/2 cents; included, 18 1/2 cents; cheese, eastern, 10 1/2 cents.
