Nervous Sentiment Manifest in Wheat Pit. but Prices Close Higher.

PRICE OF CORN IS SOMEWHAT LOWER

Onts Followed Corn in Sympathy, Closing Lower, White Provisions Were Ensier on Solling by Packers.

CHICAGO, Ill., Oct. 28.—A nervous sentiment permeated trading in wheat today, due to the uncertainty surrouning the situation at \$1. Louis, but after runng weak the greater part of the season a lair raily was experienced later in the day on a better export demand, and December closed with a gain of 4474c. December corn closed 56 lowed, oats were off 5c, and January provisions were 72125c lower.

The opening in wheat gave promise of a buil market Liverpool cables showing better prices and a big advance being reported at \$t. Louis. There was good general buying of both December and slay at the start, the former month opening 4275c to 4295c higher at \$15c to \$15c, with May about steady. A good deal of long wheat came out on the advance and there was also selling for short account and when a break occurred at \$t. Louis, the market here also declined. Large world's simpenests and favorable weather were responsible for some of the selling pressure. The continued liberal shipments from Russiand the shipment of 120,000 bushels of wheat from Australia, which country has been on an importing basis for the past few years, were the principal bear factors. The decline in corn also helped to depress wheat prices and under these influences December dropped to \$1c. A smaller increase in the visible supply than had been expected—only 189,000 bushels, togother with reports from the seaboard of a tair export business, had a fair strengthening influence during the last hour and the market recovered much of the earlier loss. December closed with a gain of \(\frac{1}{2} \) at \$1\frac{1}{2} \) cars, which with local receipts of \$2\) cars, against \$2\(\text{9} \) cars last week and 1.65 (ars a year ago.

Support was lacking in the corn market and as a result prices ruled weak. The CHICAGO, III., Oct. 28 -- A nervous senti-

made total receipts for the three points of \$90 cars, against \$29 cars last week and 1,45 cars a year ago.

Support was lacking in the corn market and as a result prices ruled weak. The opening was steady on firm cables and strength in wheat, but a weak tone soon developed on profit-taking with selling by provision interests. The excellent weather was a bear factor and the duliness of trade tended to hold prices down. After selling between \$3\cap\$c and \$4\cap\$c, December closed \$4\cap\$c lower at \$4\cap\$c, Local receipts were \$3\cap\$c cars, with 16 of contract grade.

Oats also suffered from lack of trade, and although opening prices were steady on the strength in wheat, when one or two commission houses began to sell the market turned weak and remained on a lower level the entire day. The weakness in corn had a depressing effect. December closed at a loss of \$4\cap\$c at \$6\cap\$c after ranging between \$5,936%c. Local receipts were \$24 cars.

Provisions had an easier undertons due to selling by packers who were prominent buyers Saturday and in the absence of any material support. Smaller receipts of hogs with an advance of from 5 to 10c in prices of hogs at the yards caused a slight show of firmness at the start, but the market soon turned weaker. January pork closed 75\cap\$c at \$6.33\cap\$c. In the price of the sellower at \$12.97\cap\$c, January lard was off \$2\cap\$c at \$6.33\cap\$c. leading futures ranged as follows: Articles. | Open. | High. | Low, | Close. | Sat'y.

NEW YORK, Oct. 26.-Professional opera tors ald not find much difficulty in bid-ding up prices today. They met light offerings of stocks as a result. Some coverings by bear operators were induced and this helped in the advance. In the occasional pauses in the professional operations in advance the market fell into an almost stagmant conditions, but yielded a little. The close offered doubtful features.

almost stagmant conditions, but yielded a little. The close offered doubtful features. The fallures at Battimore and Pittsburg not only exercised an influence of their own, but they caused suspicious inquiry into banking and trust company conditions as a whole. This makes improbable that these conditions have any surprises in store in the banking world, and a confidence is feit that other failures will be with as little effect in Wall street as those that have occurred. The situation at Pittsburg conduced to the feeling of encouragement.

Prices were not affected by the admissions, now for the first time admitted, that the general traffic situation is not so strong as it was a month ago. This is in contrast to the great confidence expressed by the traffic officials over the future of business up to this time. This week's report admits that everything is moving in much smaller volume than at any time in many months, and for the first time in a long time some of the roads have their freight sclicitors actively at work again. These reports come from sources that have complained fitherto that Wall street was the only blue spot in the country. Now that the evidence of depression is appearing at other points Wall street was the relief from already having gone through this process of contraction.

There was an appreciably firmer market

NEW YORK, Oct. 26-COTTON-The market opened strope at an advance of market opened strafig. at an advance of 20 to 23 points anidst great excitement and buying by shorts who were evidently in a semi-panic condition as a result of the sensational advance in Liverpool, and reports of more or less general frosts ranging from light to killing that were reported over the central and eastern belts between the close of the market last Saturday and its reopening this morning. October on the call sold at 10.40c, a gain of 41 points, or about \$220 a contract as compared with the last price of Saturday. December sold at 10.30c, a net gain of 28 points; January touched 10.25c; March, 10.20c; May, 10.25c; July, 10.21c. Naturally such gains as these brought out huge blocks of long cotton, but the demand from shorts were tremendous, and while prices slowly sagged down from the best point of the market until a break of some 25 points on October and of from 11 to 17 points on the active positions had been recorded; the market was finally steady, with trading still active and prices net 28 to 34 points ingher, this being a reaction from the best of 18 points on October and from 1 to 7 points on the latter options. Estimates for tomorrow's receipts were very heavy; exports for the day were 38,629 halcs.

the general run of cows and as salesmen were not anxious to take off that much the morning was well advanced before much business was transacted. A few of the choiceat bunches were right around steady, but aside from those the market was slow choicest bunches were right around steady, but aside from those the market was slow and generally a dime lower. It was late before even the bulk was disposed of. Buils, veal caives and stags were also slow and a little lower in sympathy with the decline on steers and cows.

The big bulk of the arrivals consisted of feeders and as speculators found the demand from the country rather light at the close of last week they were slow to take hold this morning and were rather bearish. The market could safely be quoted a dime lower and slow at the decline. There was one extra fancy bunch of Wyoming grade yearling Herefords on sale that brought \$4.10, the top price of the day. They were one of the best bunches of western feeders that have been here this year.

About the usual proportion of western cattle were fat enough for killers, but the quality was rather common. Packers were beartsh in view of the heavy receipts at all points and prices suffered a decline of just about a dime on all kinds. Trading was slow from start to finish. Range cows were generally a dime lower and the same was true of western stockers and feeders. Representative sales:

6 steers... \$75 \$ 00 1 steer.... 1090 \$ 250 HOGS.—There were not enough hogs here today to make a market, as only twenty-four loads were reported and haif of those were consigned direct to local packers. The market opened generally a dime higher and sales were made all the way from \$5.20 to \$5.40. Heavy hogs sold largely from \$5.20 to \$5.50. with some extremely heavyweights and common kinds down to \$5.15. Medium and mixed hogs could be quoted from \$5.25 to \$5.50 and lights from \$5.30 to \$5.50 and lights from \$5.30 to \$5.50 and lights from \$5.30 to \$5.40. Most everything arrived in good season and as there were so few to sell there was practically in quotable change in the market from start to finish. Representative sales:

Dry Goods Market. NEW YORK, Oct. 26.—DRY GOODS—The operations of buyers have been on a limited scale and the week opens with every indication that conservatism is to be the ruling spirit for some time to come. Jobbers are also experiencing a very moderate demand and the outlook for an increase in their business is not of the brightest, for some time to come at least.
