J. C. Boone, Salem, Col. Co., Ohio. Y.—

PROVEN BY U. S. MINT RECEIPTS that this company produced over \$60,000 gold buillion from one year's development work on one claim. It paid over \$23,000 in dividends last year. The Nevada Keystone Mining Co. owns seven additional claims and it is for the purpose of pushing development work on these that a limited amount of stock is offered for sale. Such development work as has been done on the seven claims has demonstrated that they are richer than the developed claim, the "Keystone," which gives the name to the whole group. Ten per cent per annum in dividends on your investment is certain because of the earning power of the developed mine, with a magnificent epportunity of increasing the value of your holdings by the development of the seven additional claims. The company courts the closest investigation of both large and small capital. Dun and Bradstreet mercantile agencies have intelligent reports on the company. Highest bank references. We recommend this as a rare opportunity for a safe and remunerative investment. Write at once for booklet containing facsimiles of U. S. mint 'eccipts and 'what others have to say." W. M. OSTRANDER, N. A. Bidg., Phila QUARTERLY DIVIDEND

NOVEMBER 2, 1908.

As prognosticated by us three months ago, our Quarterly Dividend to be paid November 2, 1908, to all our investors reaches the immense figure of 27 per cent, surpassing all our former records for handsome quarterly dividends and thoroughly eclipsing those made by any other company in existence. Pemoriber these quarterly dividends are in addition to our regular weekly dividends of 4 per cent.

Owing to the inauguration of new fields for winter operations we have no hesitancy in assuring our investors that our NEXT QUARTERLY DIVIDEND, PEB. 18T, 194,

will more than double any February dividend made by us herefore. Let us explain to you our methods, together with references in your own locality.
