

WE CLOSE SATURDAY AT 4 P. M. Nov. 2, 1903.

"The brief, for it is with briefs as with sunbonnets—the more the better, the deeper they burn."

Rubdry Bath Towels

Towels are made for absorption and friction. The water runs up the loose fibres of the cotton in the nubs of the Rubdry and is instantly absorbed.

The nubs in the Rubdry give the friction; this cleanses the pores, which is an absolute requisite to the health and beauty of the skin. Rubdry towels are woven in clean, sun-lit, up-to-date weave sheds, and are taken fresh from bleaching and finishing amid healthful surroundings and each enclosed in a paper envelope or box—therefore ready to use without washing.

railway lines which converge upon the city of Omaha.

The location of the production of this vast quantity of grain in respect to Omaha as its market is unique. The most of the grain which goes to Minneapolis can just as easily and cheaply go to Duluth as to Minneapolis, and a large portion of the grain which goes to the Kansas City market can just as easily and cheaply go to the Gulf markets as to Kansas City, a few miles to the north, or to Nebraska City, a few miles to the south. And if it can pass through Omaha on its way to either of these points, it can go to either market without passing through Omaha, or crossing the Missouri river at Fort, a few miles to the north, or to Nebraska City, a few miles to the south. And if it can pass through Omaha on its way to either of these points, it can go to either market without passing through Omaha, or crossing the Missouri river at Fort, a few miles to the north, or to Nebraska City, a few miles to the south.

"The Omaha grain market would therefore command 140,000,000 bushels of grain annually, absolutely without competition from any other market."

"The establishment of the Omaha grain market will not, therefore, in the slightest degree detract from the grain receipts of any other market."

"And in this connection let me say that the Chicago Great Western railway company has the same kind of an interest in the grain markets at the other terminal of its lines, Minneapolis, Kansas City and Chicago, as at Omaha, and will do nothing to retard such an upbuilding of one as will aid down another. The mission of the Chicago Great Western railway is not to tear down, but to build up."

Present Adjustment of Railway Rates.
"I have also examined the published tariffs of the railways as at present adjusted, and by comparing the local rates to Omaha from the grain-producing territory in Nebraska with the through rates to Chicago and east I find that there is practically a parity of rates between the local and the through rates of from 12 1/2 to 13 1/2 cents, generally 13 1/2 cents per hundredweight."

"That for many years there has been a proportional rate between Omaha and Chicago applying only to grain brought into Omaha by the Union Pacific railway of 14 cents per hundredweight, while as to all grain brought into Omaha by about 20 cents was charged for carrying such grain to Chicago."

"First—There is the fundamental and stupendous fact that the Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Second—Railway rates covering this vast volume of business have been adjusted to the basis of a fair charge."

"Third—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Fourth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Fifth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Sixth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Seventh—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Eighth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Ninth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Tenth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Eleventh—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Twelfth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Thirteenth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Fourteenth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Fifteenth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Sixteenth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

"Seventeenth—The Omaha grain market is a market for 140,000,000 bushels of grain annually which is exclusively available to the Omaha grain market."

CUBA HOPES FOR TREATY

President Palma Believes Extra Session Will Adopt That Measure.

CONGRESS OF ISLAND NOW IN SESSION

Message of Chief Executive Deals with Relations Between United States and Island Republic and Suggests Legislation.

HAVANA, Nov. 2.—The regular session of congress opened this afternoon. The president Palma believes an extra session will be called to discuss the treaty.

Continuing, the message assures congress of the president's zeal in carrying out the payment of the revolutionary army.

Referring to the relations between Cuba and the United States, the message says: "Our relations with the United States have been of a friendly character since the time of the independence of this island."

The honorable President Roosevelt, to whom the people of Cuba feel such profound gratitude, has been the cause of the word and has convened the American congress in special session for the purpose of establishing a treaty of friendship and commerce between the two countries.

The president recommended also that in cases where it was impracticable to send regular diplomatic representatives, commissioners should be sent for the purpose of settling international questions.

Wants Increase in Army.

In addition to an increase of the rural guard, President Palma recommended increasing the Cuban artillery, especially in the mountainous regions.

Advocates Brick Paving.

Councilman Schroeder Returns from Visit to Other Cities with Views Changed.

Councilman Schroeder of the Eighth ward has returned from a business trip lasting two weeks that took him to Cleveland, Chicago, Milwaukee and a number of Mississippi river cities.

He is convinced that brick is the best material in the cities of the world, especially those lying along the Mississippi river.

He is also convinced that brick paving is a more economical and more generally satisfactory method of paving streets than any other kind of paving.

Another thing which he said that matured during his trip was that the matter of brick paving has proven satisfactory on the streets of the Mississippi river cities.

He is also convinced that brick paving is a more economical and more generally satisfactory method of paving streets than any other kind of paving.

EXPRESSMEN'S STRIKE LOST

Organizer of Union Admits that Pacific Express Company Wins Contest.

ADVISES MEMBERS TO RETURN TO WORK

Former Employees Are Required to Resign from the Union Before Application for Employment Will Be Considered.

KANSAS CITY, Nov. 2.—W. C. Fleming, national organizer of the Brotherhood of Railway Expressmen, tonight notified the striking employees of the Pacific Express company that they had lost their fight, and advised them, if possible, to make their peace with the express company.

He advised them, if possible, to make their peace with the express company. A large number of the local strikers, numbering 150, are willing to go back to work as soon as the company will take them back.

The strike began in St. Louis two weeks ago, when the employees of the Pacific Express company made an effort to obtain an increase of 10 per cent in wages and uniform hours of work.

The strike order included messengers and drivers. When the men applied for reinstatement at the headquarters of the company in this city tonight they were told to make formal application for employment as though they had never worked for the company.

They were also told that they must resign from the Brotherhood of Railway Expressmen before they would be employed. This union has been in existence a little more than a year and the loss of this strike, it is said, will seriously injure its prestige.

Niagara Falls, Ont., Nov. 2.—As the result of an order reducing wages a strike occurred today affecting the whole work of construction of the three big Canadian power companies, employing about 1,600 men.

About 800 men refused to go to work and drove off the men who were at work. Stones and huge pieces of wood were thrown down the shaft, but so far as known no person was seriously injured.

Chicago, Nov. 2.—A settlement tomorrow of the impending general strike by the packing house unions is probable.
