Negotiating for Building.

At an informal meeting of the city cour cil held yesterday afternoon Ed George, representing the owner of the city hall building, made a talk and suggested that the city enter into another lease for five years. This the mayor and council posi-tively refused to do. The entire building was offered to the city for a monthly rental of \$300. At the present time the city is paying \$166 a month for a portion of the building. It was suggested by the council that a lease for one year would be made provided the vacant room adjoining the for the use of female prisoners. No agree-

Very likely it will be the latter part of the week before the money arrives. Before any of the back salaries and dalms can be allowed the council will have to pass on the bilis, and this will be done next Monday night. It will therefore be about November 11 before any of the claims wild be paid, as the city clerk will have an imense amount of work to do in making out the warrants.
