Improvement Club Debates Routes and Listens to Commissioner Cornish on the Subject.

The boulevard question was the principal subject for consideration at a very interesting meeting of the Grand View Improve ment club last evening. Among those present were E. J. > HAPPY DAYS When Friends Say "How Well You Look."

What happy days are those when all our friends say "How well you look." We can bring those days by a little care in the selection of food just as this young man did.

"I had suffered from dyspepsia for three years and last summer was so bad I was anable to attend school," he says: "I was very thin and my appetite at times was poor, while again it was craving. I was disay and my food always used to ferment instead of digesting. Crossness, unhappi ness and nervousness were very prominent

symptoms. "Late in the summer I went to visit a sister and there I saw and used Grape-Nuts. I had heard of this famous food before, but never was interested enough to try it, for I never knew how really good it was. But when I came home we used Grape-Nuts in our household all the time and I soon began to note changes in my health. I improved steadily and am now strong and well in every way and am back at school able to get my lessons with ense and pleasure and can remember them, too, for the improvement in my mental power is very noticeable and I get good marks in my studies which always seemed moult before.

"I have no more of the bad symptom given above, but feel fine and strong and happy, and it is mighty pleasant to hear my friends unf: 'How well you look." Name given by Postum Co., Battle Creek, Mich.

From my standpoint it is the highest honor that could be conferred upon me and materializes the only great personal ambition in the way of place that I have.

Policy of Republican Party.

Pelicy of Republican Party.

The republican party stands for those policies that have in the main prevailed since 1861, under which in forty years from a comparatively small nation we have grown to be first among the nations of the earth and sovereignty with us is in the people. The republican party, being in the majority, is responsible and is entitled to the credit. Under these policies we enjoy material well being exceeding that of any former period of our existence. The people were never so well and profitably employed as now and consumption of the product of each individual engaged in gainful occupation was never before so generous and profitable to all, at the same time leaving a surplus for future need in the shape of capital, which is better distributed among the people and much larger in the aggregate than ever before.

Under these conditions, in my judgment, our policy should be to consider and enact proper legislation covering the convention for reciprocal trade between Cuba and the United States, to make generous, not extravagant, appropriations at the regular session of congress for public service, then to adjourn and return to our homes and the people setting the seal of approval upon our action will do the remainder, working out their own salvation.

AN OLD PRACTICE OF Ex-Walking Delegate Says that

Financial Dealing with Employers is the Cause of His Downfall and Disgrace.

NEW YORK, Nov. 7 .- Before he left his cell here to begin serving his sentence of more than two years in Sing Sing prison for extortion Samuel Parks, ex-walking delegate of the local housesmiths and bridgemen's union, called about him a number of newspaper men to bid .hem farewell. In so doing he made the following state-

ment:

It's only taken a little more than seven years to get me here. It has been a hard light and Ive lost, that's all. Im down and out and I know when I've got enough. I'll be forgotten in less than a year except by some of the boys who thought there was some good in me, and I am sorry for it.

Every laboring man in this country should remember me for years to com... I should be a warning to them. I'm the victim of a custom that is older than I am, and that is the habit of having money transactions with employers. That put me here.

The salavation of the union lies in stopping that practice at once. They must give and everything like that. That's the loophole through which this "gratting," as they call it, creeps in. The employers never leave any tracks. I could name 100 employers who have made a practice of using labor unions against competitors.

I know plenty of employers who have made fortunes by the use of many a young fellow who has never made more than a couple of deliars a day and has been put in authority by his union.

THE VALUE OF CHARCOAL

Few People Know How Useful it is in Preserving Health and Beauty,

Mearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realise its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the

Charcoal sweetens the breath after smok ing, drinking or after eating onlone and other odorous vegetables. Chargoal effectually clears and improves

the complexion, it whitens the teeth and further acts as a natural and eminently safe earthartic. It absorbs the injurious gases which collect in the stomach and bowels; it disin-

fects the mouth and throat from the poison of catarrh. All druggists sell chargoal in one form or another, but probably the best charcool and the most for the money is in Stuart's Absorbent Lozenges; they are composed of the firest powdered Willow charcoal and

other harmless antiseptics in tablet form, or, rather, in the form of large, pleasant tasting losenges, the charcoal being mixed with honey. The daily use of these lozenges will soon tell in a much improved condition of the

general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the son trary, great benefit. A Buffalo physician, in speaking of the

benefits of charcoal, says: Stuart's Absorbent Losenges to all patients suffering from gas in the stomach howels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Absorbert to than in any of the ordinary charcoal tab-
