WEATHER CONDITION AFFECTS CORN

Oats Follows Market for Corn, While Provisions Are Firm on Covering by Shorts and Large Receipts.

CHICAGO, Nov. 14.—Decreasing receipts in the northwest and strength in outside markets caused a firm tone in the wheat pit today and December closed %45%c, oats were a shade lower, while provisions were steady, the January products closing from 2446660 higher.

were a shade lower, while provisions were steady, the January products closing from 2%36c higher.

There was a good commission house demand and the market raied firm after a slightly easier opening. Continued favorable weather in the face of predictions to the contrary and rather disappointing cables caused some selling at the start and initial sales on December were unchanged to %c lower at 15%37c%c. Outside markets were all higher, however, and this fact soon resulted in creating better sentiment here. December sold up to 7%c, but late selling by longs caused a slight recession from the high point and the close was at 7%4677kc, a gain of %6%c. Clearances of wheat and four were equal to 4%,600 bushels. Primary receipts were 1,255,500 bushels, against 1,130,700 bushels a year ago. Minneapolis and Duluth reported receipts of 184 cars, which, with local receipts of 184 cars, none of contract grade, made total receipts for the three points of 824 cars, against 1,670 cars last week and 1,486 cars a year ago.

Corn had to contend with weather condi-

224 cars, against 4,070 cars last week and life cars is year ago.

Corn had to contend with weather conditions, which were most favorable for drying out and curing the new crop, and this feature produced more or less bearish feeling. Trading was only moderate with a good deal of evening up going on.

December ranged between 4556425c, closing 5575c iswer at 425c. Local receipts were 205 cars, with 9 of contract grade.

Outs ruled steady on a fair demand from commission houses and shorts. There was some seiling by longs at the start, which commission houses and shorts. There was some selling by longs at the start, which aused a little easier feeling, but prices soon responded to the demand from locals and closing prices were at about last night's figures. December being a shade lower at \$35,0150%, after selling between \$35,033% c and \$4c. Local receipts were \$35,0150%, after selling between \$35,0150% and \$4c. Local receipts were \$35,0150%.

Provisions were firm, with a good deal of covering by local shorts in evidence. Huying of lard, credited to packers, was the feature. Large shipments of hog products, with firm prices at the yards, were strengthening influences. January pork closed 5c higher at \$1.67\(\text{d}\), January lard was 21\(\text{c}\) c higher at \$5.85\(\text{o}\), while ribs were up 5c at \$6.20\(\text{d}\). 223\(\text{d}\). Estimated receipts for Monday: Wheat, \$40 cars; corp. 200 cars; oats, 125 cars; hogs, \$5,000 head.

REVIVED RUMORS STRENGTHEN ALTON

Special Causes Also Contribute to an Advance in Southern Rallway and Manhattan - Money Situation Sound.

NEW YORK, Nov. M.—Trading in today's stock market was instless and nafrow. Operations were on too small a scale to offer anything of a representative character. There were a few points of sire.g.h, including Chicago & Atton, on a revival of rumors of its possible assorption as a connecting link in a larger system. Southern Railway advanced in respont to rather vague assertions that the Scaboard Air Line was in a way to be brought into the Southern community of interest. The upward movement in Manhattan continued on the score of the increase of carning power through electric operations, as revealed in the last statement. One or two minor stocks rose without explanation. The market as a whole failed to show a contifuation of yesterday's movement to cover shorts and prices drifted rather aimlessly.

The bank statement proved decidedly more favorable than the forecast had in-

This price subject to previous sale, as I have only a limited amount of stock to offer at this figure. Fifty dullars invested in Homestake stock when it first started should not do as well, as its claims cover part of the same ore deposits as the Homestake. The Columbus Company starts with 045 acres of around, working seven mines; has a small mill in operation that is producing about \$10,000 monthly. The company is out of debt and has \$150,000 on hand with which to build a 1,000-ton mill, contract for which is about to be let. As soon as this mill is finished the property will be on a dividend-paying basis. This is the best proposition ever offered to the public in the way of a mining stock, as there is at least \$10 worth of gold ore in sight for every chare of atock issued. I will agree to pay the expenses of a trip to the Black Hills and return to any one who will agree to lake at least \$2,500 worth of the stock if the proposition is as represented. Don't fail to write for particulars concerning this company. Stock is sold on the instalment plan, if desired, at \$00 per hundred shares. In payments of \$750 down and \$750 per month.
