NO REVENUE LAW DECISION

Supreme Court Commission Requests Further Time to Consider Cass. PROUT RULES ON ONE PHASE OF THE BILL. Official Returns Show Barnes, Republican, Has Over Nine Thousand Plurality and Regents Over Twenty Thousand.

(From a Staff Correspondent.) LINCOLN, Neb., Nov. 16.—(Special.)—The supreme court commissioners, before whom the argument in the revenue law cases were made, did not hand down their opinion today and in all probability will not until the last of the week. Judge Barnes said the matter was of so much importance that the commissioners had not yet had time to formulate their opinion and had asked for further time. It was expected that the opinion would be rendered either today or tomorrow.

In the meantime Attorney General Prout has handed down an opinion at the request of the county attorney of Otoe county regarding the time personal taxes become delinquent and he holds that December 1 is the time under the new revenue law. This opinion does not meet with the approval of the legal departments of the railroad and their representatives were here this morning to see Mr. Prout. These roads some time ago informed Treasurer Wharton that their taxes would be paid by December 1 but after the attacks were made on the revenue law, they evidently changed their minds thinking to get in under the provisions of the old law, February 1, as none of them have paid.

The opinion of the attorney general reads: Section 159 of the new revenue law provides: "On the 1st day of December of the year in which taxes shall have been assessed, all personal taxes, except in cities authorized by law to levy and collect their own taxes, shall become delinquent and shall draw thereafter 10 per cent per annum, which interest shall be collected the same as tax so due." If this provision is now in full force and effect, personal taxes for 1903 will become due on December 1. This means, however, that the personal taxes for 1903 were levied under the old revenue law and that the taxes for 1904 will not become delinquent until February 1, 1904. This suggestion seems to be based on the saving clause in section 245 of the new act, which is as follows: "Nothing in this act shall be construed to release in charge or in any manner affect the validity or the collection of any tax heretofore assessed and levied under the revenue laws in force prior to the taking effect of this act, nor shall the same affect pending actions founded thereon or causes of action which may have accrued; but all rights in relation to such taxes and all rights in relation to such taxes which may have accrued to persons under the revenue laws of this state are hereby saved and preserved."

It is clear to my mind that this saving clause does not keep in force the old statute which provides that the unpaid taxes shall become delinquent on the 1st day of February of the year after the date of the assessment. The saving clause itself does not so state and was never intended to serve any such purpose. The new act in effect repeals the old act, and the old act was repealed. An examination of the saving clause will disclose that it was not intended to release taxpayers from any burden imposed by the new act, but to save the right of the state to collect taxes for the benefit of the state and persons who are entitled to the same under the new law. It was the intention of the legislature in enacting the saving clause to prevent evasion of payment of taxes already assessed, and it was not the intention to suspend for several months the operation of the new law, and to allow the old law to remain in force until the 1st day of February, 1904, and that in the statute says so. Section 245 of the new act provides: "This act shall take effect and be in force from and after the 1st day of December, 1903."

This section would have been different had the legislature intended to suspend until February the operation of section 159 relating to delinquency. Besides, the provision in the subject was repealed by section 244 of the present law and the repeal went into effect September 1, 1903. The average republican majority is 21,883; Allen, the high man on the republican ticket, received a majority of 21,831 over Jones, and Whitmore received a majority of 20,941 over Weber.

Official Election Returns.

The return from the various counties are all in, and will be officially canvassed on Monday. The returns show Judge Barnes received 9,361 votes, Judge Sullivan 87,962, a plurality for Barnes of 9,025. The vote on regents resulted as follows: C. S. Allen, 101,632; W. G. Whitmore, 85,232; W. A. Jones, 73,851; E. O. Weber, 77,236. The average republican majority is 21,883; Allen, the high man on the republican ticket, received a majority of 21,831 over Jones, and Whitmore received a majority of 20,941 over Weber.

War on Tramps.

The Nebraska tramp is to go. A war has been started on him by the State Board of Charities and Correction that will make this state look to him like a wood pile. Saturday Secretary Davis of the board called upon the county commissioners of Douglas county and secured the promise of that board to co-operate with him in the work, which had its inception so far as this state is concerned, at the last national conference of Charities and Correction. Mr. Davis intends to get every county and city in the state interested in the matter, to the end that no tramp will be allowed to roam on Nebraska's prairies or grow fat on Nebraska's products. Every state in the union is taking up the work simultaneously, and the end that is expected is that in a few years there will be no tramps in the entire United States.

MICKEY APPROVES THE HOME

Is Pleased with General Conditions at Grand Island. WILL GO OVER THE OLD RECORDS. Expects to Send Expert Accountant to Check Up the Alleged Discrepancies in the National Government's Account.

GRAND ISLAND, Neb., Nov. 16.—(Special.)—Governor Mickey arrived in the city Saturday afternoon and immediately went out to the Soldiers' home, where, while it was yet daylight, he inspected the farm department of the institution. He said to a reporter that he found everything in quite a satisfactory condition. It has been stated that the farm department of the institution had been permitted to run down under the present administration. If anything, he found the contrary to be true. An effort had apparently been made to better the grade of cattle, the governor said. The hogs were in fine condition. No formal complaint had ever been made as to the department, but the governor wanted to know of his own account. His attention had been called, in a complaint, to the sale of a horse by Commandant Cole under the former administration, but the records showed that the horse was Cole's own and that it was sold to an employe, the terms agreed upon being that the employe make installment payments out of his wages. There was nothing irregular about it. A campfire was held Saturday night, at which the executive addressed the members of the home, his remarks being largely attended and the veterans were greatly pleased with the address. After the campfire the governor made a partial investigation of the matter which has been mentioned in the last week—that of a difference between the state and the national inspectors arising from the amount of the home and represented to be present, thus drawing from the national per capita appropriation contrary to the regulations.

Will Send an Expert. A complete statement and investigation of this is to be made. Governor Mickey will send out an expert accountant to go over the records and ascertain just what the difference is. It is probable that the governor's son, an accountant fully competent to do the work. An inquiry as to the possible difference between the accounts of the state and the department at Washington led to the information that the nearest estimate that can now be made would place the amount at about \$20, though it may not be as much.

There are no charges against the commandant of the home, as is locally reported, and it appears that, from any irregularities of the home, his conduct is not in individual either in the home or out of it, was a beneficiary, and that the only irregularity was as stated in these records of persons present. As to the women, such irregularities would not operate against the home, as the amount of the appropriation does not apply to women members. The only difference, therefore, that it would make, and it would be so slight as to be immaterial, would be in the per capita computation. The matter, as a governor, Mickey is in an interest in the state paper, first came up some months ago—last June—and orders were given that the strictest records should be kept henceforth.

No Denial is Made.

All parties here admit that such has been done. The investigation will go into the administration of Mr. Cole under Governor Savage, or, from January 3, this year, back to the beginning of Mickey's command, and then from January 3 to the present time. The executive was not prepared to say when the appointment of Mr. Cole's successor would be made, but intimated rather than said that the matter was now before two or three of the applicants. Governor Mickey was very well pleased with the general condition of the home. He attended the services of the First Methodist Episcopal church Sunday morning, Rev. W. W. Carr, pastor, and left at 1:30 for Lincoln.

Prepares to Fight Fire.

TECUMSEH, Neb., Nov. 16.—(Special.)—The Tecumseh fire department will this week submit plans to half a dozen wholesale firms for an additional lot of equipment. The department is composed of two volunteer hose companies, and it is proposed to form a hook and ladder company and to provide the necessary equipment for the same. A hook and ladder truck, with the ladders, hooks, buckets and ropes, as well as some Babcock fire extinguishers will be purchased. Citizens have assisted the department in making the purchase a financial possibility.

DISEASES OF MEN

"We make no mistaking statements or unsubstantial propositions to the afflicted, neither do we promise a cure in a few days. In order to secure their recovery, but we guarantee a perfect, safe and lasting cure in the quickest possible time, without leaving injurious after-effects in the system, and at the lowest possible cost for honest, skillful and successful services." If you are a victim of Nervo-Sexual Debility, with all its distressing symptoms, you certainly do not intend to remain so. The fact that you have taken interior remedies to no avail, and that you have put your faith in all treatment, nor your hope of a radical cure, during your long term of scientific study and practical experience, I have evolved a special treatment for Nervo-Sexual Debility, impotency, that is uniformly successful in cases where success was before by other doctors deemed impossible. It does not stimulate temporarily, but it scores permanently. It allays the irritation of the delicate tissues surrounding the lax and unduly expanded seminal ducts, contracting them to their normal condition, which stops night emissions, drives up dry drains, and prevents prematureness. It tones up and strengthens the blood vessels, blocks the pathway of the impurities, and parts, which regain full power, size and vigor. Meanwhile all other symptoms improve, and the patient realizes that great light has been lifted from his life.

I WILL CURE YOU

I CURE QUICKLY AND SAFELY

STRICTURE, VARICOCELE, EMISSIONS, NERVO-SEXUAL DEBILITY, IMPOTENCY, BLOOD POISON (SYPHILIS), RECTAL, KIDNEY AND URINARY DISEASES

and all diseases and weaknesses of men due to inheritance, evil habits, excesses or the result of specific diseases.
