leport of Damage to Crops in Argentine Advances Price of Wheat.

RICE OF CORN SOMEWHAT HIGHER

buts Market Strong with Other Grain, but Trading is Light and Provisions Show Decline for the Day.

CHICAGO, Nov. 27.—Rains in Argentine rith resulting crop damage were the chief factor in advancing the price of wheat today, although the market in general was bullish, May being up 1211%. Corn closed %0% higher; cats were up it and January provisions closed from 5c higher to 5c tower.

ary provisions closed from 5c higher to 5c iower.

Smaller receipts in the northwest, lighter cables and unfavorable weather in Argentine caused an advance of wheat. There was a good demand from local traders and prices held firm until toward the noon hour, when liberal selling by commission houses saused May to decline to 79%c. An interest demand developed the latter part of the day, with shorts active buyers. Commission houses were also on the buying side and the leading bull operator added to his big line. With comparatively smaller sperations the market advanced, May being up 161%c at 80%c. December sold between 75%c and 80%c, closing at 80%c, a gain of %c. Clearances of wheat and flour were equal to 69%,100 bu.; primary receipts were 1,809,900 bu., against 1,129,900 a year ago. Bradstreet's exports of wheat and flour for the week were 3,851,000 bu., against 1,180,000 bushels last year. Minneapolis, Duluth and Chicago report receipts of 1,106 mars, against 798 last week and 2,115 a year ago.

Corn ruled firm on the strength in wheat.

sars, against 792 last week and 2,115 a year ago.

Corn ruled firm on the strength in wheat, higher Liverpool cables and the poor condition of the new corn which is coming in. There is some covering by local shorts and a scattered demand from commission houses, but the volume of business was small. Selling by longs had a steadying effect. After selling between 41%042%c. May closed 140%c higher at 42c. December was 1/40 higher at 41%042%c. Local receipts were 200 cars, with two of contract grade.

Outs were strong with other grains, but trading was dull. Local bears showed no disposition to sell and the leading longs were not inclined to do much business. May closed 1/40 higher at 35%c. after ranging between 35%c and 35%c. Local receipts were 141 cars.

Provisions were firm at the start, due to strong grain markets and higher prices, but declined as liberal offerings from packers soon caused a reaction. Trading was quiet the latter part of the day, with prices steady at the decline. January pork closed 250 lower, at \$16.75; lard was not 5c, at \$6.22%, while ribs were up 5c, at \$6.70.

UNION PACIFIC GETS FAVORABLE NOTICE

Annual Report Received with Approval by Wall Street on Dull Day After One Day of

NEW YORK, Nov. 27.—There was very little activity in stocks today. The end-week remnant after the holiday offered slight inducement to members to return to the stock exchange from their outings before Monday and there was a small attendance and languid trading in consequence. The changing fluctuations showed the uncertain moods of professional traders, whose business made up what was essumated at nine-tonths of the total. The market started off with a builtsh demonstration in Southern Pacific. The announced opening of the Sait Lake cutoff of the road was made the occasion of conjectural estimates as to the increased earnings as to result.

to result.
Union Pacific came into the movement with even greater effect owing to the showing in its annual report of the heavy inductedness to it of the subsidiary company on account of advances for betterment work.

There was heavy seiling of Pennsylvania & Reading which was unexplained in the current news. Earnings of the coalers from this time on will compare with the period year after the strike was settled, when the earnings of these companies ran up to unprecedented figures.

Current reports had it that the current earnings of the Eric showed the effects of the floods which have interrupted that line. The Eric stock, however, did not share in the weakness of Reading & Pennsylvania.

In the weakness of Reading & Pennsylvania.

Neither did Atchison share fully in the strength of the Pacifis, its extreme advance being limited to %, notwithstanding its showing of an increase in net earnings for October of \$335,099, or rather more than half the increase of \$655,095 in the gross earnings.

for October of \$335.095, or rather more than half the increase of \$655.095 in the gross earnings.

The minor industrials were decidedly irregular. Some of those which suffered most early in the week were in eager demand in the loan crowd, where they commanded a premium, while shorts bought to cover their contracts. The effect was especially notable on Locomotive preferred. Republic Steel, on the other hand, was forced down an additional 3 points on renewed doubts over the maintenance of the preferred dividend.

The tone of strength developed in the whole market late in the day was due to the forecasts of a favorable bank statement tomorrow. The usual compliers are agreed that the interior current movement has been in favor of New York to the extent of between \$1,000,000 and \$2,000,000, while the subtreasury operations and the foreign gold reserve have contributed over \$1,100,000. The quiet tone of the call money market today indicates that the week's gain in cash, most of it having come early in the week, will figure in tomorrow's bank statement for the full weekly averages. Sterling exchange developed some strength this morning, but broke sharply again and closed weak. Unsubstantiated rumors were current of additional gold engagements in London, The report of grain exports for the week shows an increase of upwards of 1,000,000 bu. of wheat and corn over last week.

The bond market was dull and rather irregular. Total sales, par value, were \$1,722,000. United States bonds were unchanged on the last call.

Following are the closing quotations on the New York Stock exchange:

\$2,600,000 to the control of grain and for the control of grain changed on the last call.

LONDON, Nov. T.-MONEY-Rates were rm and the supplies were not abundant in he market today, but the keemess of the emand was somewhat abated. Discounts

exchange opened unchanged and rather dull, but prices were generally firm on investment buying and indications of increasing speculation. Consols hardened on the firmness of money, being referable only to month-end requirements. Americans were steady and neglected, pending the receipt of Wall street's opening quotations, and closed steadler. Kaffre were moderately cheerful and irregular. Copper was flat, the drop in American prices having shaken confidence. Consequently the bears offered freely on an unwilling market.

BERLIN, Nov. N.—MONEY—Prices on the bourse today continued firm.

PARIS Nov. N.—MONEY—Trading on the bourse today opened dull and remained inactive throughout the day. Three per cent rentes, 971 9cc for the account. Exchange on London, 25f 17%c for checks.

opened stronger than Wednesday's close or about as good as the early market on Wednesday. Trading was not very active owing to the fact that packers wanted to bear the market wille salesmen wanted more money. The hogs kept moving toward the scales, though, and a clearance was made in fairly good sasson. The bulk of the heavy hogs sold from \$4.15 to \$4.20, medium weights went from \$4.20 to \$4.25 and lights from \$4.20. There was practically no change in the market from start to finish.

Today's receipts make the supply of hogs at this morning for the year to date ever 2.00.500 head. This, however, is a decrease as compared with the same period of last year amounting to about 9.000 head. Representative sales:

Wool M	inrket.		

Weol Market.

BOSTON, Nov. 21.—The Commercial Bulletin will say tomorrow: The decline of 5 to 18 per cent in the price, due largely to London auction seles opening last Tuesday, has had only a sentimental effect upon the Boston wool market. Holders are no less confident of the position of domestic wool than before the sales began. The statistical position is strong, with many grades scarce in and no great pressure to sell those that are in full supply. There will have to be a still further heavy decline abroad perore anything can be imported to compete with domestic medium wools, while fine medium territory at &c., clean, is cheap compared with competing Australian at a landed scoured cost of 70972c. The shipments of wool from Boston to date from December 31, 1927, are 212,344,039 pounds, against 20, 259,471 pounds for the same perfod last year.

The receipts to date are 252,485,386 pounds, against 29,259,471 pounds for the same perfod last year.

BOSTON, Nov. 21.—WOOL—Dullness has been the chief feature of the wool market for a week. Manufacturers see no encouragement as long as the trade lasts as it is. The market for both fisece wools and territory wools is quiet. No changes are recorded in foreign wool quotations. Trading has been dull.
