Mr. Hurt took part in the destruction of furniture and other household effects and in digging up and destroying the walks and shrubbery about his house.

All day about twenty of the sect were in the house. The destruction of the furniture is done, the members say, because God wills it. Later Brooks excused himself to the reporter, saying that "they were about to receive a message from the Holy Ghost in side, and that he had to be present." Diphtheria Among Indians.

SIOUX FALLS, S. D., Nov. 27 .- (Special.) Those in charge of the education of Indian children on the Rosebud reservation have become alarmed by the appearance of diphtheria among some of the little Indian pupils at a reservation day school at Ironwood Creek. The school has been closed and the government physicians on the reservation are doing everything within their power to prevent the disease being communicated to Indian children on other parts of the reservation. This will prove difficult task, as Indians generally are strongly opposed to quarantine regulations, which can usually be enforced among them only by the most drastic measures, somewhat on the order of the "shot gun" quarantines of the south.
