Delivers Letter.

ADVERTISES CURE FOR KAISER'S ILLS

insists that President Should Write Emperor William Telling of Discovery of Charcoal Remedy for Cancer.

NEW YORK, Nov. 27 .- President Rooserelt and Mrs. Roosevelt arrived at Jersey City at 7:30 o'clock this morning. They proceeded at once to this city by the Twenty-third street ferry and were driven o the home of the president's sister, Mrs. Douglas Robinson.

President Rossevelt came to the city to attend the funeral of his uncie, James K. Gracie. The president was accompanied by Mrs. Roosevelt, Dr. J. B. Stokes, his personal physician, and Captain Cowles of the navy. Commissioner Greene and a force of police met the president and a mounted detail escorted his carriage from the Twenty-third street ferry to his sister's ome on Madison avenue.

After breakfasting at the Robinson home he president left the house and went to the late residence of Mr. Gracie on East Forty-eighth street, remaining there until Adolph Johnson, murdered in a saloon obbery on August 6.

James Johnson, motorman, killed in robery of Chloago City Railway companys arn on August 2. Johnson was asleep on bench in the office, was awakened by the hooting and was shot as he arose to his Rooseveit.

Protectors Everywhere.

With them in the carriage was a detecwe sergeant and a secret service man, and secret service man rode on the box with he driver. The hearse was followed by carriages containing the mourners.

ery frequent intervals. The same cordon mounted police escorted the president hat had been detailed for the ride from the ferry. The police arrangements for the protection of the president were very effiduty about the block on which the church is located. On the west side of Sixth ave-

nue, opposite the church, there was a solid line of patrolmen, standing shoulder to block patrolmen were placed at frequent intervals, shutting off all traffic from Fifth avenue to Sixth avenue on Twentieth the street was kept open and the crowd, which assumed large proportions in a short time, was kept close to the sidewalk No one was allowed in the middle of the street. The president, with Mrs. Roosevelt, alighted at the main entrance and went quickly into the church. There was little excitement, the occasion barring any monstration.

The crowd by the time the cortege eached the church was so dense that incress and egress on the avenue was prac itically impossible. Just prior to the ar rival of the cortege a police inspector noticed a man standing on the structure, leaning over the east railing directly over the entrance to the church. The man was ordered away. After he had returned an insolent answer to the inspector's question he departed. While the man presumably had merely wished to get a vantage point to see the president, the crowd, impressed by the elaborate police protection, looked upon the incident as a possible plot against the president, but there was no further disturbance.

Another Crank. Just as the services were concluded man who attempted to force his way to the president and hand him a letter was ar rested. He gave his name as Arthur P. Deming, 65 years of age, of Jersey City. He said he was born in the United States and was the manufacturer of a medicine to cure every disease. When the president left his seat to leave the church he departed by a side entrance, leading to Twentieth street. Deming had in some way been allowed to gain access to a small antercom, and in that manner was directly in the president's pathway.

Deming said later: "I handed the president the letter and said: 'Please read this

on your way out." " When Deming held out the letter the president took it and handed it to a secret ervice man. Deming was then pushed back and placed under arrest. He said that he was A. R. Deming of 170 Broadway. and that he had a cure for cancer while he wished Emperor William to try. He wanted President Roosevelt to write a let-

ter to the emperor recommending the cure The president was unruffled by the in ident. With Mrs. Roosevelt he entered his carriage immediately and was driven to the Twenty-third street ferry, to take the train for Washington,

Deming was taken to the Tombs police Before being arraigned he said: "I don't know why the president did not keep my letter instead of handing it over to a policeman. It is a charcoal cancer cure that cannot fail. I wanted Mr. Roosevelt to write to Emperor William recommending the cure to him."

He Has a Record. It is said that Deming is the man wh

nen, including a number of high officials, ment, but the authorities quickly foretell what will be done or when any step will be undertaken. He also says there is no evidence of any warlike or aggressive movements against Panama. There is plenty of threatening talk, but no action.

"Money, money, everywhere; but not a ent to spend." This is not the translation of the Latin words which surmount the exhibit of the United States treasury the fair in the Mechanics' building, but it might well be. Over in a corner of the main hall this feature of the big exmuch attention from every visitor. Pro tected by only a low rail, here is one of the big coining presses which the government uses to stamp out its metal money and without any greater protection are three big frames where are displayed behind glass United States currency, bonds

value of \$100,000. But while the press is a constant temptation to the professional counterfeiter, and while \$100,000 is enough to make every visitor to the fair stop and look and speculate what he or she would do if all that money was his or hers, Treasury Agent Downing, who is in charge, walks calmly off to his luncheon at noon, and as calmly to his hotel at night, without ever locking up his treasure, or looking back, to see if some bold thief is not already ranking away with it. The coining press weight a matter of seven tons, and its theft would be no vest pocket affair; but how about the bills, in denominations of from \$1 all the way up to the \$10,000 variety which rests behind no more secure cover than a sheet of glass? Scarcely is there an hour in the day when there is not a crowd of people around the exhibit, and casting curious and oftentimes envious glances at the crisp-looking new bills. What would be the result of a well directed brickbat, a quick grab for those big \$10,000 gold certificates, another for the \$10,000, silver certificates and several more kinds of \$10,000 bills, not to mention the

To begin with, what could the thief do could be use the \$5,000 bills, nor the \$1,000 bills. Only when he got down to the comparatively small notes, \$100 or less, could he try to spend them without almost certain detection and capture.

BALFOUR ON BRITISH ARMY

Says L. beral Administration: Were Eesponsible for South African D fficulty.

MISTAKES COMMON TO ALL PARTIES

Premier Insists that Strength of Great Britain Lies in the Loyalty of Its Self-Governing Colonies,

LONDON, Nov. 27.-Premier Balfour ... alding at the annual banquet of the Ln. et Service club tonight, delivered a specci which was devoted entirely to the rator : instituted by the War office and whe avoided the fiscal question. He said h hoped that the War office advisory commit tee would quickly evolve a satisfactory

result from its investigations.

Mr. Halfour defended the secretary of state for war, who, he said, had to face a more complex problem than that now before the war minister of any other nation, on account of the vast scope of British territory. He blamed the liberal predecessors of the present government for their deliberate policy of starving the army, which policy had resulted in the difficulties experienced in the South African war, not withstanding the efforts of the present government, which did its utmost to bring the army up to an efficient standard. He contended that the army as framed by the union government, operating through Lord Lansdowne and Lord Wolseley, had performed a feat in South Africa that no nation had ever attempted or had ever carried out, but, he said, no enthusiastic gratitude had been displayed to those wh were responsible for this result.

If the army, in the condition in which had been left by Lord Rosebery's adminis tration, said the premier, had had to go through the South African campaign i would have met with many more disasters. No Apology to Offer.

Mr. Balfour said it was not his intention to apologize, because he did not consider that an apology was necessary, but when he found Sir Henry Campbell-Bannerman and Lord Rosebery denouncing the present military policy, and thought of their own conduct of military affairs, he felt his gorge rise. He thought that for very shame the members of the Rosebery gov ernment would have preserved a discreet silence. He did not wish to minimize the magnitude of the miscalculation which had been made in South Africa, but it was a miscalculation of which the whole British military profession was alike guilty, if guilty is the word, and it was not due to the maladministration of the war office. In regard to the future, Premier Balfour asserted that he did not believe a large army was required for home defense. The great military problem was the defense of the large Indian frontier against the great, and, he was glad to think, friendly empire of Russia. For that reason he emphatic ally replied to those who wanted Lord Kitchener in London at the head of the army, that the Himalayas was where the general ought to be.

In conclusion the premier maintained that conscription never had been and naver could be used to defend outlying possessions. In the ultimate resort Great Britain must depend upon the free will of a free people. There was needed an elastic organization, able to utilize the enthusiasm of the whole empire. He did not believe that the empire would shrink from the making of necessary sacrifices, or be inadequate for the greatest strain its patriotism might endure, if only all the component parts of the empire could be har moniously united for some scheme of defense not dependent upon the war office alone, but drawing its strength from all
