5." James J. Hill has introduced a new econ-omy on the rallroads which he controls. Each engine has a tab kept on its dally employment and against it is charged every cent used for oil. fuel, repairs and opera-tion. Thus if engine 200 is found to be cost-ing more than engine 200 is found to be cost-ing more than engine 200 is found to be cost-ing more than engine 200 is found to be so-former is asked to explain. The same plan is to be extended to every car on the sys-tem. Then the conductors and enginemen who make the best showing are to have bonuses.

who make the best showing are to have bonuses. William Akey, who lives at Williamstown Station. Mass. had a shot removed from one of his eyes after it had been there for more than three years. The pellet was re-moved without much trouble or pain and the sight has not been injured in the least. The boy is 7 years old and the shot entered his eye when he was 4. He complained a little when he received the injury, but his parents knew nothing of the accident then, and so nothing was done about it. A small air rifle was the cause, the boy having been engaged at play with two others when the stray shot struck him. It pained for the instant, but the eye soon became, normal in appearance.
