Bulge in Wheat Market Upon Urgent Demand for Immedate Delivery.

PRICES SOMEWHAT HIGHER

Oats Follow General Tone of the Market and Provisions Advance Sharply on Light Receipts of Hogs.

CHICAGO, Nov. 30.—Big clearances and an urgent demand for the cash article were factors that tombined to create an exceedingly string tone in the wheat pit. and May closed with a gain of 1½00½c. May corn and oats were each up ½c. while January privisions closed from 10½c, while January privisions that the Eading longs had shipped large amounts if wheat from St. Paul here to go east dused uncashness among Docember shore early in the day and efforts on the part of such interests to cover sales resulted in a quick advance. There was early selling by St. Louis houses on the advance, but offerings were taken and the selling pressure was soon ended. NEW YORK STOCKS AND BONDS

Report of Trouble Between Japan and Russia Has Depressing Influence.

LITTLE EFFECT UPON PRICES, HOWEVER Market is Firm Later in the Day, but

There is Dullness in Dealings and Shorts Are Unensy.

NEW YORK, Nov., 30.—There was a narrow and drifting market for stocks today which resulted in only smail net changes except in the special cases. There was some depresseion manifest during the early part of the day and this was aggravated by, if it was not entirely due, to a disturbance of sentiment in London over the reflerated rumors of trouble between Japan and Bussia. Traders endeavored to exreiterated rumors of trouble between Japan and Russia. Traders endeavored to extend the decline here, but they succeeded in bringing out little stock.

The market of the latter part of the day was firm, but the movement was small owing to the duliness of the dealings.

The prevailing feeling of the loan crowd kept the shorts uneasy, especially in some of those stocks which were sold most freely last week. Shorts in Pennsylvania covered freely. There was some pressure upon Republic steel preferred, due to the fear that the dividend would be reduced or passed during the day. The doubts were not resolved when the market closed with the directors in session. There was a special accumulation of Louisville and Nashville and the accompanying strength of Nashville. Chattanooga and St. Louis gave color to the supposition that an early dividend distribution on that subsidiary stock is in contemplation.

is in contemplation on that subsidiary stock is in contemplation.

The rise in the money rate to nine percent, was practically ignored in the trading, as it was attributed to the arrangements for the December settlements, which finds it was expected would return in a few days to the money market. The various movements in the money market were on a large scale, but so nearly offset each other as to have little effect. Telegraphic transfer of \$100,000 was made to San Francisco, and authority exists for the transfer on a large scale, but so nearly the property of \$1.000.000. Such a movement from \$1.00.000 and authority exists for the transfer tomorrow of \$1.000.000. Such a movement is not unusual at this period of the year. Last year the week ending December 6, the sum of \$3.500.000 was telegraphed through the sub-treasury to San Francisco and authority exists for the transfer tomorrow of \$1.000.000. Such a movement is not unusual at this period of the year. Last year the week ending December 6, the sum of \$3.500.000 was telegraphed through the sub-treasury to San Francisco The requirement is for crops. The arrival of foreign gold to figure in Saturday's bank of foreign gold to figure in Saturday's bank extra property of \$1.000.000 was taken in the London market for New York today out of today but not received. In addition, about \$1.900.000 was taken in the London market for New York today out there is not much expectation of any considerable rise. \$4.000; per lb., in 60-lb, boxes, \$6. OMAHA, Nov. 30.—Bank clearings for today are \$1,357.545.32, an increase of \$49,-084.93 over corresponding day of last year. Cotton Market.

NEW YORK, Nov. 30.—COTTON—The market opened easy at a decline of 10 points, following cables that were congriderably lower than expected, which had the effect of inducing liquidation and some pressure from bearishly disposed operators who are working on the theory that the government's forthcoming reports have been overdiscounted. Almost immediately however, the market was railied sharply by aggressive bull support, the relative firmness at New Orleans, re; ris that New England spinners were sending in buying orders to the market and a score of brokers who were rendered uneasy by rumors concerning nearby options, here and at New Orleans, where a strong bull pool is believed to be centered and operating with the local bull operators. It is understood that a local New Orleans paper had issued a bullish crop report and the local anthorities were talking of a bureau report of ground 10,000,000 bales. With hardly a reaction the market sold up until in the afternoon all the positions were on a new high level for the season. December, which had sold at 11.15c on the first call, reached 11.41c; January advanced from 11.21c to 11.50c; March from 11.20c to 11.63c, and May from 11.30c to 11.63c, and sold at 11.6c on the first call, reached 11.41c; January advanced from 11.21c to 11.50c; March from 11.20c to 11.63c, and the loss realizing eased the market was railied again and closed firm, at or nearly the best for the session, with sales estimated at 800,000 bales. The southern spot markets sent very buillish reports during the day and were changed to 3-16 higher. The estimates for tomorrow's points in exports show falling off in the movement.

CATTLE-There was a moderate run of cattle nere this morning, there being quite a decrease as compared with a week ago today. The memana from all sources was of quite sheral proportions and as a result the market ruled active and stronger.

There were several cars of con-fed steers included in the receipts, but they were lacking in quality, being mostly short ted. Packers, though, had to have some cattle and, as westerns were scarce, they bought the corn-feds fully steady, and if they were at all good the prices paid looked a little stronger.

There were something over fifty cars of cows and heifers on sale, but the demand was fully equal to the occasion, and the market could safely be quoted strong, with a good many sales, 50 lbc higher. Trading was quite active on all grades, so that an early clearance was made. The better grades, though, in most cases showed the streatest advance.

greatest advance.
Bulls, veal calves and stags were in good Bulls, veal calves and stags were in good demand at strong prices.

There were not very many feeders on sale this morning and, as speculators carried very few over Sunday, they were all anxious for fresh supplies. The market as a result was active and strong, with the better grades safely 5000c higher than at the close of last week. The common grades also improved in price, as there did not seem to be enough of the better grades on hand to meet the demand.

Western grass beef steers were in small supply and, as the demand from packers was good, the market ruled active and stronger on everyfhing that would do to kill. Range cows and stockers and feeders were also strong and active, with a good many sales 500c higher. Representative sales:

RUSH TO WEST ON LOW RATES Tourists Crowd Cars on Last Day of

> Reduced Pares to Callfornia.

The low passenger rates from the east o California expired yesterday and as a result the various lines which have had the rates in effect are swamped with business. Notice was received at the local Burlington offices from Chicago Sunday evening that twelve tourist cars had left there attached to one train, which arrived in Omaha Monday:

A large number of requests for tourist sleeper berths had to be refused on acount of the fact that the Pullman company, which is owner of all the cars, had no more cars of this class in the east, the heavy travel of the past few days having taken them all west, and the most of them are now in California. The railroads report that recently the

tourist car has grown greatly in popularity with the traveling public and that a large percentage of western travel is now in these cars. On secount of the increased demand for berths the owners of the cars have been forced to advance the rate to prevent the regular Pullman sleepers from being deserted by the traveling public. The advance will go fate ffect December 1, and it is thought the raise in rates will drive travelers back to the regular sleepers. One railroad man estimated that 75 per cent of those who buy berths to the west are now patronizing the tourist car. Light western travel is anticipated by all the roads for a time after the low rates expire.
