

THE OMAHA DAILY BEE.

E. ROSEWATER, EDITOR.

PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION. Daily Bee (without Sunday), One Year, \$4.00. Daily Bee and Sunday, One Year, \$5.00.

DELIVERED BY CARRIER. Daily Bee (without Sunday), per copy, 5c. Daily Bee (including Sunday), per week, 35c.

OFFICES. Omaha—The Bee Building, Twentieth and M streets.

REMITTANCES. Remit by draft, express or postal order payable to The Publishing Company.

STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss: George B. Tschuck, secretary of The Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of The Daily Morning Bee...

Table with 4 columns: Circulation category, 1902, 1903, 1904. Rows include Total, Net sales, Gross sales, etc.

Subscribed in my presence and sworn to before me this 30th day of November, 1903.

A bale of cotton is worth almost its weight in gold in the New York cotton exchange.

It will be noted that Ill' Luck never overtook Prophet Dowie until he disparaged reporters.

Option gambling in cotton futures is if anything more hazardous than buying tickets in the new Havana lottery.

In the absence of any press cablesgrams to the contrary, we will assume that Mr. Bryan is still taking his meals out.

The rumor that a rate war between the "Rock Island" and the Burlington is imminent, is only a rumor. There are wars and rumors of wars.

As a presidential candidate, Judge Gray has just been assured the unanimous support of the democracy of Pottsville, Pa. And that ought to settle it.

Minister Powell is quite willing the new provisional government shall manage San Domingo, but insists that the new manager honor the old one's contracts.

The mayor told the poundmaster his methods constituted grafting and the poundmaster received the reprimand quite doggedly, as became one of his occupation.

From the promptness with which Former Lieutenant Governor Steele was dismissed from the grand jury room, we infer that he declined to tell what he did not know.

The supreme court of Nebraska has decided that the testimony of bloodhounds is not competent to convict a man charged with murder even if they bear the names of Columbia and Beuregard.

One of Chicago's car barn robbers proposes to plead that he hadn't hypnotized him. The public rejoices, as it has grown so mortally weary of the insanity dodge as to make any newer absurdity welcome.

Challenger, the prize steer of the Chicago show this week, has cost, all told, \$120; has won \$450 in prizes and probably will be sold today for \$700. This news can amaze only those who didn't know Challenger is a Nebraskan.

If City Treasurer Hennings can put \$35,000 a year into the city treasury by the enforcement of the scavenger law upon real estate on which no taxes have been collected for many years, he ought to be given an opportunity.

Now prepare for the millennium. A South Omaha statesman, who hankers after a city job, makes this startling declaration: "The time when the corporations of this city were actively engaged in the making and unmaking of political men has passed."

It is announced with a grand flourish of trumpets that professional fixers of juries still haunt the halls of the Lancaster court house, but we fail to perceive anything new or startling in that report. It is even suspected that professional fixers of juries haunt the corridors of the Douglas county court house periodically.

According to Prof. Jeremiah W. Jenkins of the International Exchange commission the gold standard is making good progress in China. In the meantime round dices of copper with square holes in the middle called cash continues to be the principal medium of exchange in commercial circles of the Chinese empire and gold circulates only in the form of mandarin jewelry and joss ornaments.

DEMOCRATS AND THE TREATY.

The treaty with Panama having been signed by the officials of the provisional government of the new republic, it will be at once returned to the United States and it is said may be sent to the senate before the adjournment of congress for the holiday recess. What will be the position of the democrats in regard to it is the interesting question. It is well understood that Senator Morgan and other Nicaragua advocates will be arrayed against the treaty, but the strength of this element is not at present definitely known and it may be found not so strong as is commonly supposed.

The effort made by Senator Gorman to unite his political associates in opposition to the Panama treaty was unsuccessful, some of the democratic senators vigorously refusing to take any such position. It is well known, also, that the constituents of most of the southern senators desire the ratification of the treaty and this influence will of course have a great effect. Then there is the consideration that the question is not political and offers no opportunity for party advantage.

In reference to this the New York Journal of Commerce remarks: "If Mr. Gorman, or any other democratic senator imagines that party capital is to be made out of such tactics he will make one of those characteristic blunders that so often damage the party at critical moments. The evidence that the people of the country approve of what has been accomplished by the president and the secretary of state in such a short time, and of every step that has been taken in achieving it, is overwhelming. There is practically no opposition sentiment in either party and democratic senators might as well accept that fact and fall in with the course of events instead of trying to create a disturbance. When the treaty comes up in the senate partisan obstruction by democrats can only mean injury to their party." If the democrats were to unite against the treaty they could prevent its ratification, but as has already been shown they are not likely to unite.

BRITAIN'S NEW AMBASSADOR.

The new British ambassador to the United States, Sir Mortimer Durand, comes to his post with an evidently earnest desire to win American good will and to promote cordial relations between his country and this. His address in presenting his credentials to the president is in the very best spirit, with less of the perfunctory character than ordinarily marks such deliveries. The new ambassador was never before in this country, though it is said he had greatly desired a diplomatic appointment here, his sympathies being strongly American. He is described as being as brilliant a sportsman, as good a soldier and as excellent a writer as he is a good diplomat, all of which is expected to commend him to Washington society as a representative of the best type of Englishmen.

MISJUDGING AMERICAN POLICY.

It is not surprising to find American policy misjudged abroad and a disposition there, in some quarters, to see in every step of progress made by this country a purpose menacing to the integrity of other countries in this hemisphere. Thus the Panama episode has furnished the text for an expression of opinion by one of the leading papers of Germany that the Central American states will be absorbed by this republic and it wonders if Mexico and South America will escape. It is not very difficult to conjure up visionary conditions in support of such a view, but no one familiar with the sentiment of our people can seriously think that there is the remotest danger of the United States absorbing any of the southern countries, not one of which would be of any advantage to this nation as a part of its territory.

This country has always shown a most earnest desire for the maintenance of the independence of its sister republics and for their progress in all respects. As an eastern paper, commenting upon the utterance of the German journal, says, what we desire is an enlightened sisterhood of American nations, each independent and sovereign in its own sphere and capable of self-government and progress which shall be for the benefit of commerce and civilization. "We desire these countries to be independent and self-governing, but we wish to see them progressing out of the stage of political anarchy and industrial barbarism, for their own sake as well as ours, and for the sake of the world's advancement. We should have in the part of the continent south of us a vast field for trade and the most potent reason why we do not have it is the character of the people and their failure to develop and advance, politically, industrially and commercially. We cannot cure this by taking possession of them at huge trouble and expense, and we cannot colonize them, for we have neither the people nor the capital to spare. Nothing is farther from our desires than were conquest and the taking up of great burdens of government beyond our present limits." This reflects the practically unanimous feeling of the American people today.

If foreign opinion is intended to create sentiment against the United States among the people of South and Central America, perhaps with a view to injuring our commercial relations with those people, it is possible that it will have some effect, but it is hardly conceivable that any great number of intelligent persons in the southern republics can be induced to believe that it is the purpose of the United States to absorb any of their territory or in the least degree change its long-maintained policy in respect to them, so far as related to their independence and their protection against foreign aggression. They have at no time been more absolutely secure in the friendship and good will of the United States than they are at present and there is very good reason to believe that most of them, and particularly the more advanced and progressive, fully understand this.

among the people of South and Central America, perhaps with a view to injuring our commercial relations with those people, it is possible that it will have some effect, but it is hardly conceivable that any great number of intelligent persons in the southern republics can be induced to believe that it is the purpose of the United States to absorb any of their territory or in the least degree change its long-maintained policy in respect to them, so far as related to their independence and their protection against foreign aggression. They have at no time been more absolutely secure in the friendship and good will of the United States than they are at present and there is very good reason to believe that most of them, and particularly the more advanced and progressive, fully understand this.

PLAYING A CONFIDENCE GAME.

Ever since the federal grand jury now in session in this city entered upon its investigation of the alleged Dietrich postoffice bribery charges the Omaha World-Herald has published from day to day not only the forecast of the subjects for inquiry to be presented to the grand jury, but also large fragments of testimony given before the grand jury and the conclusions of that body before they had been presented to the court.

At the very outset of their session the grand jurors were admonished by Judge Munger not to reveal to any person any of the testimony taken or any of the proceedings inside of the grand jury room. There must be a leak somewhere. Manifestly members of the grand jury have either disregarded the instructions of the judge or somebody who takes part in the proceedings of the grand jury has been talking out of school.

That any member of the grand jury is in violation of his oath and in defiance of the instructions of the court divulged the secrets of the grand jury room is highly improbable. The only person to whom the leak could be naturally traced is the district attorney. The bond of sympathy between District Attorney Summers and the World-Herald has been their mutual attachment and sympathy with Bartley, whose intimate relations to District Attorney Summers have been almost of as great a scandal as the pardon of the embezzler procured at his instance. It is still fresh in the memory of the people of Nebraska that at the pardon of Bartley the World-Herald not only sought to glorify Bartley as a martyr, but eulogized Governor Savage in the most fulsome terms for liberating the great embezzler.

In all actions there must be a motive and the palpable object of the publicity of grand jury proceedings before the conclusions are reached and the forecasts made of the probable findings of the grand jury is part of the dramatic grandstand play that has characterized the brass band still hunt now in progress in the federal building. The leakages from the grand jury room are by no means accidental. They are designed to create popular sentiment favorable to District Attorney Summers as a conscientious and efficient public prosecutor, when as a matter of fact the contrary is true and he has simply been playing a clever confidence game upon the public and the Department of Justice.

Judge Slaughter's vision of Greater Omaha of 1910 is decidedly inspiring. In his radiant perspective the Omaha of 1910 appears supplied with a great power system adequate to the needs of 750,000 people, a municipal heating plant, Farnam street paved with asphalt, a boulevard running up hill and down dale along the bluffs that skirt the river from Pierce street to Riverview park, a number of small parks in places centrally located, trees planted for miles along the thoroughfares at small expense to the property owners because done by the city at wholesale rates, church spires and towering sky scrapers piercing the sky line, palatial residences looming up on the hillsides and beautiful cottages covering suburban lands now utilized as cow pastures. Before that exhilarating vision is realized, however, there will have to be a few funerals, an infusion of public spirit and civic pride, a more general cultivation of the artistic taste and the popularization of the things that make a city beautiful.

The favorable impression made upon the municipal authorities by the suggestion of The Bee that the families of Omaha firemen be given protection from want by taking out life insurance policies for all the firemen is gratifying. The proposition made by an accident insurance company not only to insure the lives of the members of the fire department, but also to grant to their families weekly indemnity in case of accidental injury, merits serious consideration. If it were possible to carry out the original suggestion to have the lives of the firemen insured so that their families will be provided for in case of death, whether caused by accident or disease, it would be still more advantageous, although it would require a heavier draft upon the city treasury besides a monthly premium from the members insured.

A delegation of Sioux Indians from the Pine Ridge reservation proposes to interpolate the great father at Washington as to the meaning of the treaty negotiated by General Sherman in 1869. The Indians propose to have discovered that certain portions of the Black Hills district in South Dakota were only loaned and not ceded to the government. If this version proves correct we shall not be surprised if enterprising land speculators shall band together and offer to lease half a million acres at 2 cents an acre.

Omaha, like other cities, is blessed with visionaries who entertain schemes of beneficent reform that are absolutely impracticable. One of these "men with an idea" has discovered that Omaha is confronted with a paving problem that can only be solved by an organization

of real estate owners and horse owners to put through a program of paving reform that will bring about the abandonment of granite, asphalt and brick as paving materials and the substitution of macadam, cinders and ashes. Special paving taxes are to be taboed and all pavements to be paid for out of the general fund. If the proposition was not preposterous on its face it could not in any event be entertained seriously without a complete revision of the city charter, which is out of question before the winter of 1905.

The alarm sounded by Irrigation Commissioner Maxwell that the Hansbrough amendment to the present land laws will work great injury to homesteaders on the public domain may not be premature, providing always that it is made in good faith and does not mask some scheme equally as injurious to those who seek free homes. It is a matter of grave doubt whether it was necessary to pound the Maxwell tomtom quite so vigorously to fix the eyes of congress on the proposed amendment of the timber and stone act introduced by Senator Hansbrough, in view of the fact that Congressman Lacey, chairman of the committee on public lands of the house, has cut his eye teeth several years ago.

Railroad freight rates are to be increased on many classifications throughout the southern states in the course of the next few weeks. The reason given by the traffic managers for levying this compulsory tribute upon the producers and shippers of the southern states is that in Virginia, Georgia and other southern states railroad taxes have been largely increased and it is necessary to raise money to meet this new demand. Railroad traffic managers in Nebraska are shrewd enough not to excuse the raising of freight rates on such flimsy pretexts. They know what everybody else knows, that railroad taxes in Nebraska have been out of all proportion below the taxes paid by other taxpayers.

The Stamp Will Stick. Detroit Free Press. Don't be too despondent about the Post-office department. You can still put a 2-cent stamp on a letter, and be reasonably sure that nobody will soak it off and steal it.

Marked Improvement Noted. Washington Post. A decided improvement is noticed in the Commoner since Mr. Bryan went to Europe. His understudy is using plate matter liberally instead of filling the columns with original matter.

A Problem in Economics. Brooklyn Eagle. Several paper mills have shut down in New England because the water that drove them has failed. The failure of the water is due to the cutting of the woods which made the paper. Here, then, is a problem in economics that anybody may solve, who will.

The Canal Century. New York Tribune. With a \$100,000,000 canal across the state of New York, with the stupendous waterway over the Isthmus of Panama, with the prodigious expenditures upon inland channels in other parts of America, in Europe, Asia and Africa, may it not be considered the canal century above every other?

Rumor Mongers at Work. Springfield Republican. Disquieting reports continue to pursue the Kaiser, so far as can be discerned there is nothing of an authoritative nature to base the rumors upon. Naturally his voice is still husky, and there is no sense in thinking that he is a doomed man simply because he is going to the Mediterranean to recuperate.

A Dazzling Prospect. Springfield Republican. It is a welcome announcement which the United States secretary of agriculture makes in his annual report, that "the physiologists of the bureau of plant industry have now developed a cheap and effective method of exterminating algae" which contaminates the water supply of so many cities. Extensive tests are being made with extremely satisfactory results so far and when they are ended the method will be disclosed, the prospect which is here opened up is a dazzling one.

Let Us Hear from Wood. Indianapolis News. By all means let Wood come home and testify in his own behalf. Many things are clearing up. Fortunately, the senate committee seems determined to go to the bottom of the business. It is of the greatest importance to know whether Wood is really deserving such rapid promotion. In a few short years an army officer, in his own country, with no experience in the field, has been jumped over the heads of scores of able and faithful officers who have grown gray in the service. And now it is proposed to make him a major general. The question is important and should not be answered hurriedly. Let us hear from Wood.

ROOZERS MUST BRACE UP. Another Railroad Tells Drinkers "Dry Up or Go." Portland Oregonian. Further evidence of the efficacy of modern transportation methods in the promotion of temperance is furnished by the conduct of the Northern Pacific railway managers, to take effect on the first of the coming year, which requires all employees of the company to abstain from liquor as a condition necessary to a continuance in its service. It is a commendable measure, and it is to be hoped that the forerunner of excess in thousands of instances, is forbidden upon pain of dismissal. This is a plain business proposition, devoid of a single element of what is called "temperance reform." It will, no doubt, be more efficacious in promoting temperance than which in the case of a vast multitude of men means total abstinence, than all of the temperance lectures that emotional reformers have delivered in half a century. Men unable to observe its requirements are already too far gone to be reformed to be safe handlers of traffic that is carried on at a high rate of speed, while those who have not reached that point in the indulgence of appetite will be saved to themselves, their families and the requirements of business before (as the orthodox preachers already too far gone to be reformed to be safe handlers of traffic that is carried on at a high rate of speed, while those who have not reached that point in the indulgence of appetite will be saved to themselves, their families and the requirements of
