LONDON, Dec. 19.—Money was in moderate supply in the market today, and the demand increased, owing to stock exchange requirements. Discounts were easy on the exchange rate of New York exchange, this being interpreted as indicating a cessation of the United States demand for gold. Business on the stock exchange was quiet and duil, the settlement checking aperations; besides, the disquieting far eastern news produced weakness, especially in Japanese securities. Consols consequently declined and closed quiet acd underided Americans reinpsed in sympathy with the market in New York, then wavered, subse-

NEW YORK, Dec. 10.—COTTON—The cotton market opened steady at a decline of 7 points to an advance of 2 points the decline being in sympathy with disappointing cables, which induced liquidation by longs. Almost immediately, however, the market was rallied by a renewal of bull support and reports that northern aginners have been buying very freely recently and with some outside buying orders the market was advanced until near the end of the first twenty minutes prices were net 40% points higher. The advance was the signal for considerable bear pressure, and as the market started downward rumors were circulated that a strong bear clique had been formed in the theory that the continued bull movement is offsetting in the popular mind the government's small crop estimate, when it was found that demand in the spot markets was falling off. Interior receipts were also rumning full, although the port movements show a subsiding tondency and the accumulation of stocks at the interior towns is believed to point to a good increase in the week's visible supply figures. Notwithstanding these figures the market showed great a subborness under pressure. At one time, just before midday, it was at a net decline of 9gri5 points iff the active months, but rallied again, and in the early afternoon ruled rather firm, but continued very irregular The close was steady, with July I point higher, but the other months were unchanged to its points lower. Sales estimated at 30,000 bales. Exports were full. Estimated for tomorrow's leading points were about a standoff and the southern spot markets of tomorrow's leading points were about a standoff and the southern spot markets of tomorrow's leading points were about a standoff and the southern spot markets of tomorrow's leading points were about a standoff and the southern spot markets. was quoted slow and weak, buyers did not take noid here with much lite and, while prices were not so much lower, trading was slow. The bulk of the early arrivals was disposed of in fairly good season, but it was late before a clearance was made. There were about twenty-five cars of corn-fed steers included in the receipts and the market was very slow, with the tendency of buyers to bear the market. Six some of the cattle were of good quality and flesh, but still even those were not as active as they might have been. The market the greatest change being on the undesirable grades.

There was a good demand for the better flesh active as they might have been and such kinds could be quoted steady and in some places were a little lower. Packers do not cases were a little lower. Packers do not cases were a little lower. Packers do not very poor advantage.

Bulls, veal calives and stags sold generally steady. There were not many on sale and the prices paid were not enough different to be worthy of mention.

The stocker and feeder market was also slow and if anything prices were a little lower. Something very desirable might have commanded steady prices, but that kind were very scarce. The general run were certainly sow sale, with the feeling were certainly sow sale, with the feeling were certainly sow sale, with the feeling steel with the same as noted above for the natives.
