by reason of the attorney general holding prizes obtained upon the relative accuracy of guesses or estimates as to the number of votes in a political election, or the number of beans that a certain jar contairs etc., are not in violation of the present lottery laws. It is sought by the amendment also to protect the public against fraud, as well as to suppress gambling which accompanies betting on horses. Betting on horse races has been held not to be within the purview of the lottery laws. Consequently, it is held that the only way by which these turf investment schemes can be suppressed under existing laws is upon the ground of fraud, in which case it is extremely difficult to obtain sufficient evidence to warrant an action. Such evidence cannot be obtained in any event until after the scheme has been in operation some time and after the company has in its possession thousands of dollars of the people's money, of which upon the issuance of a fraud order, experience has shown that the company retains a large part.

Captain W. T. Brownell.

FREMONT, Neb., Dec. 15 .- (Special.)-Notice was received here today of the death of Captain W. T. Brownell, whose family for many years resided here, at the home of a relative in Butler county. No particulars were given. Captain Brownell had followed the sea from boyhood and for about twenty years had been captain and part owner of a tramp freight steamer carrying grain from Seattle and Vancouver to English ports and going to other ports where a cargo could be had. He visited his family here about once a year. This summer he sold out his interest in the boat and removed to Butler county. He was about 60 years old and leaves a widow and large family of children.

Senators Patterson and Dolliver Have Tilt Over Cuban Reciprocity Treaty.

NORTH DAKOTA SENATOR IN OPPOSITION

McCumber Takes Issue with Those Whe Belleve it the Duty of the United States to Ratify the Treaty.

WASHINGTON, Dec. 15.-When the Cuban reciprocity bill was taken up in the senate today Mr. Perkins (Cal.), spoke. He declared that the people of the United States had increased their sugar consump tion six pounds a year per capita during the past eight years. He maintained that the domestic sugar

industry would not suffer by reason of the operation of the treaty, as, should we buy the whole Cuban crop, it would only supply one-third of the amount needed. Cuba, he said, had abandoned the cultivation of citrus fruits on account of the vast success of this crop in California and Florida. Mr. Simmons (N. C.) explained that he

had voted for the treaty and would vote for The bill contained some provisions he would like to have amended, but he realized, he said, the time for such changes was when the treaty was under consideration. He objected particularly to what was known as the five-year clause of the measure on the ground that the action of one congress cannot bind future con

Mr. McCumber (N. D.) ridiculed the state ments of friends of the measure that its passage was the payment of a debt and said such expressions are mistaken ideas of philanthropy. On the contrary, said Mr. McCumber, Cuba for years had tugged at the tether which bound her to Spanish aggression and when we cut those bonds it was not understood that we should bear the expense of making the Cubans prosperous and happy. Beyond applying to Cuba the protection of the Monroe doctrine, guarding her against external dangers from foreign countries and possibly internal anarchy he said, we have no duty toward the island that has not been already discharged. Predicts Chinese Competition.

Mr. Patterson (Colo.) took up a colloqui which occurred yesterday between Senators Teller (Colo.) and Lodge (Mass.) concerning the laws of Cuba governing immigration of Chinese into the Island.

Mr. Lodge had attempted to show that the Chinese exclusion act of this country Groninger, a ploneer merchant of Sloux was in force in Cuba. Mr. Patterson antag-City; vice president of the First National onized the statement and read reports and orders issued by the War department and later enacted into law in Cuba and other data to support the position which had been taken by his colleague. Mr. Patterson predicted a vast influx of

Chinese into Cuba and declared the republican congress to be the mouthplece for the influences which threaten to destroy the beet sugar industry. He found the inspiration of this course in the Sugar trust, which he accused of invading the sugar beet fields

Mr. Patterson proceeded to say that he would be willing to have the tariff on sugar reduced if there could be a corresponding reduction in other articles of import in which Mr. Aldrich interrupted him, asking If he was willing to make ad valorem rates on sugar as on other articles. Mr. Patterson replied that he was willing to take the present tariff as a basis and he asked Mr. Aldrich if he considered the tariff inequitable. The Rhode Island senator replied that he considered the tariff too high, and when Mr. Patterson was about to congratulate himself upon this admission, Mr. Aldrich exclaimed that he had reference to the duty on augar.

Patterson No Free Trader. Mr. Patterson proceed to say that he was willing to place himself upon the platform of Thomas Jefferson on the proetction of American industries, but in reply to a question from Mr. Aldrich as to whether a nocratic caucus would indorse that doctrine he said the democratic party is not a free trade party, but is for incidental protection. The democratic party was not alone, said Mr. Patterson, in not being a unit. It had not been so long since the republican governor of lows had come to Washington, and after a visit to the White House had returned to lowa and allowed Mr. Allison, the senior senator from that state, to write the party platform for him. Mr. Dolliver interrupted to say that there had been nothing to indicate that Governor Cummins had surrendered any of his tariff views, and he added. "The results of the

late election show that he has not surrendered any of his majorities." Mr. Patterson declared that four out of five senators would hold their noses while voting for this bill, and that many of them would east their votes against it if they could break away from the influences of the White House. He compared those who were controlled by this influence to a "nest of young robins, standing with mouths wide open and ready to swallow even a reciprocity worm if dropped by the parent bird

at the White House." Says Democrats Are Culpable. He aguin predicted ruin to American inustries through this bill directly or as a

Lant K. Salabury Says He Paid Member to Keep Him Posted on Work.

GRAND RAPIDS, Mich., Dec. 15 .- A warrant for the arrest of William Leonard, was issued today charging subordination of perjury in connection with the attempt to bribe witness Garman during the trial of Lant K. Salisbury on the charge of bribery. Leonard stood mute when arraigned before Judge Newham in superior court this afternoon and a plea of not gullty was entered for him. He was held

for trial under \$2,000 bonds. It was said late this afternoon that one of the next warrants to be issued by the prosecution in the water case scandal will be for one of the members of the grand jury that convened in this city in 1900 and investigated the Lake Michigan water deal, It is stated that in Salsbury's confession to the prosecuting officials he divulged the name of a juror to whom he says he paid \$600 in consideration of a complete daily report of the proceedings of the grand jury, the charge may be contempt of court or perjury.

New Cure to Prolong Life

Made From the Fruit

Stops All Wastes by Feeding the Nerves

REVITALIZES THE

Cures Indigestion, Dyspepsia and Stomach Troubles

### A Great Test To Be Made in Omaha

5,000 Bottles To Be Siven Away From the Office of the World-Herald

This Free Distribution Begins Thursday Morning, Dec. 17, at 9 0'Clock.

To the Editor of the Omaha Bee: Having discovered a new remedy which believe will revolutionize the practice of medicine, I most earnestly ask that you assist me in its introduction by inducing the public to take advantage of my FREE DISTRIBUTION OF "PAW PAW" AT THE OFFICE OF THE WORLD-HERALD. I want the public to know the truth;

know it as I know it. I believe there is a cure for every disease -I believe that human life can be prolonged-I believe that people should die only from old age, and I also believe and know that my Paw Paw remedy will not only relieve much suffering, but add many vears to the average life. In my opinion dyspepsia and indigestion

are the cause of most allments. Indi-

setion. means nervousness, sleeplessness,

mpure blood, catarrh, sluggish liver, kidney and heart affections. No person can of life and enjoy its pleasures, who suffer from any form of stomach trouble. An eminent actor called my attention to the wonderful benefit he had derived from eating the Paw Paw fruit, telling me that it had made almost a new stomach for him. I began to experiment with this fruit and found it to be a most

powerful aid to digestion. I have taken the medicinal qualities of this fruit and combined it with other medicaments and have made a preparation which is called "MUNYON'S PAW

I cannot recommend this remedy too highly for all forms of indigestion and nervousness. This remedy also wonderfully well on the liver, blood and kidneys, but I believe its greatest office is in its marvelous effect upon the stomach and neaves. It is really a nerve food and vitalizer.

It gives exhilaration without intoxica-tion. It does what whicky nor beer cannot do. It relieves the nerve tension. It stimulates every fiber and puts into active force every tissue of the body. It holds him there. It is a bridge that enables the weak and sickly to cross dangerous places. It feeds and nourishes the nerves, so that the blood corpuscies will be constantly revitalised and the losses of the vital forces will be almost imperceptible. In other words, it will supply a sufficient quantity of life matter to take the place of the waste.

Instead of irritating the nerves and stomach, it soothes and strengthens them. Almost every human being some time equires a stimulant: NOT AN ALCO-HOLIC STIMULANT; not a stim that will buoy up for a moment and then cast down to lower depths of depression, but a stimulant that will give an abiding strongth and lasting force. My Paw Paw aids the stomach to di-gest hearty foods and so make good, rich

blood, which again in turn strengthens the nerves, vitalizing all the tissues, and soon produces muscles, tissue, bone. It is my opinion that the clergymen in this vicinity could do no greater service to the cause of temperance than to advocate the general use of my Paw Paw, for by its use drunkenness would be lessened, and the morals and health of the

community greatly improved. A wife whose husband is addicted to drinking can do nothing better for herself or family than to get a bottle of this Paw Paw, and whenever her husband feels the need of a tonic give him a tablespoonful of Paw Paw. She will find that he will soon lose all cravings for strong drinks-that his appetite will soon be natural, that his nervousness and longing for excitements will disappear and he will be perfectly satisfied without alcoholic

stimulants and harroful beverages. I have so much confidence in this remtles free, from the leading newspaper offices throughout the country. everybody to try it, feeling confident that it will bring relief and happiness, Trusting you will aid me in this investigation, I beg to remain
