Green Trading Stamp War.

TO THE PUBLIC:

Yesterday we printed seven reasons "WHY GREEN TRADING STAMPS ARE GOOD FOR THE PEOPLE," and we also printed an invitation to the Retail Grocers' Association to give reasons why, in their opinion, "GREEN TRADING STAMPS ARE NOT GOOD FOR THE PEOPLE." We offered them space at our expense.

The following are the reasons they advance!

Why Green Trading Stamps Are Not Good for the People

The committee on military affairs tonight concluded its investigation of charges against General Leonard Wood. Secretary Root was the only witness today. He was on the stand two and one-half hours in the morning and tonight from 8 o'clock until 11:30. The committee will meet tomorrow to prepare its report. It is understood that confirmation will be recommended by a vote of eight to two. A minority report will be made by the opposing members of the committee.

Secretary Root was the first witness before the committee. Mr. Root's testimony was in favor of General Wood. He read extracts from official correspondence bearing on the charges and also concerning General Wood's administration as governor general of Cuba. He was on the stand two and one-half hours. Senator Teller was present and asked Secretary Root a number of questions bearing on the case, many of which were suggested by the testimony of the secretary. Secretary Root did not conclude his testimony, nor did Senator Teller submit the questions he desired, and the committee adjourned to meet at 8 o'clock tonight, when Secretary Root will again appear.

The secretary's statement was an elaborate and carefully prepared defense of General Wood. He made a specific reply to each of the charges that have been urged so far against General Wood's confirmation and assumed responsibility for many of the matters charged against General Wood. Among others, it is understood, the granting of a license to the Jal Alia. He devoted particular attention upon the integrity of the official accounts of the Cuban treasury while under General Wood's administration and he was prepared, with no immense amount of data, to answer the charge of loose and faulty accounting and auditing. He took occasion to say that the weakness of the charges might have been established long ago had the senate printed the accounts which he transmitted to that body last winter in answer to a resolution.

Wants General Sumner Called. The committee received today a communication from Major Estes G. Rathbone asking that he be called again to direct attention to a number of things which he said the committee had ignored. He asked that his several requests for the subpoena of Colonel Lebo, Fourteenth United States Cavalry, be acted upon. He suggested that Colonel Lebo be questioned to bring out the fact that Wood was not with his command on the first day's fight at Santiago on July 1, 1898. The request also was made that Major General S. S. Sumner be examined on the same subject.

Attention was called by Major Rathbone to the fact that the committee had been asked several times to subpoena Major Orlando Ducker of Havana, N. Nathan of Denver, Lieutenant Brooks, former auditor of Cuba, and W. H. Lanashire, a former auditing officer of Cuba. The committee is asked in this statement, unless it is satisfied that General Wood knew the character of the correspondent Bellairs when he made Bellairs his friend and recommended that the Associated Press retain him in its employ, to call Mr. Calbra, formerly chief special agent under General Bellairs in Havana.

Other witnesses asked for by Major Rathbone, Senator Hanna and Senator Teller, are Bert A. Miller of Canton, O., Corydon A. Getch of Muncie, Ind., and Francis E. Leupp, Washington correspondent of the New York Evening Post. In this connection the committee had been asked to obtain correspondence between General William Ludlow and the adjutant general of the army growing out of an interview in the New York Evening Post concerning yellow fever conditions in Havana and Cuba under the Brooks and Wood administrations.

Root Approved Wood's Course. Secretary Root was asked especially about the charge which Major Rathbone had made that General Wood had influenced the courts in the prosecution of Rathbone and had tampered with the courts. The secretary explained at some length the court system in Cuba, saying that the court of first instance was in reality an officer directed to prosecute and obtain evidence. He was something like a grand jury in finding, but was further empowered to go out and obtain evidence, mingle with the people, procure affidavits and otherwise collect evidence against alleged offenders. The secretary said he knew what General Wood was doing in this matter and approved it. The secretary said that in fact he directed that the prosecution of the offenders be vigorous and General Wood was acting in this matter under orders from the War department.

The secretary also took up the subject of the Jal Alia company concession and said that this was not a gambling company, nor was the game played under the management of the company a gambling game any more than was a horse race or a game of base ball. Men could bet on the results.

COMMITTEE ENDS HEARING

Two Reports Will Be Submitted in Case of General Wood.

RATHBONE WANTS SUMNER TO BE CALLED

Asks that General Commanding Department of Missouri Be Requested to Tell Where Wood Was During Fight.

WASHINGTON, Dec. 16.—The senate committee on military affairs tonight concluded its investigation of charges against General Leonard Wood. Secretary Root was the only witness today. He was on the stand two and one-half hours in the morning and tonight from 8 o'clock until 11:30. The committee will meet tomorrow to prepare its report. It is understood that confirmation will be recommended by a vote of eight to two. A minority report will be made by the opposing members of the committee.

Root Is First Witness.

Secretary Root was the first witness before the committee. Mr. Root's testimony was in favor of General Wood. He read extracts from official correspondence bearing on the charges and also concerning General Wood's administration as governor general of Cuba. He was on the stand two and one-half hours. Senator Teller was present and asked Secretary Root a number of questions bearing on the case, many of which were suggested by the testimony of the secretary. Wants General Sumner Called.

The committee received today a communication from Major Estes G. Rathbone asking that he be called again to direct attention to a number of things which he said the committee had ignored. Other witnesses asked for by Major Rathbone, Senator Hanna and Senator Teller, are Bert A. Miller of Canton, O., Corydon A. Getch of Muncie, Ind., and Francis E. Leupp, Washington correspondent of the New York Evening Post. In this connection the committee had been asked to obtain correspondence between General William Ludlow and the adjutant general of the army growing out of an interview in the New York Evening Post concerning yellow fever conditions in Havana and Cuba under the Brooks and Wood administrations.

MINERS IN SUPREME COURT

Highest Tribunal of State of Colorado Considers Habeas Corpus Case.

OPINION OF THE COURT IS RESERVED

Adjutant General Bell Says that Two Members of Union Under Arrest Have Confessed Complicity in Explosion.

DENVER, Dec. 16.—The state supreme court today issued writs of habeas corpus in the cases of Victor Poole and J. Paul, prisoners held in the military guardhouse at Camp Goldenfield, Cripple Creek. Attorneys representing the prisoners waived the matter of having the prisoners produced in court and the cases were set for argument next Monday.

District Judge Seeds of the Teller county court recently ordered Poole released on a writ of habeas corpus, but the military authorities, acting under Governor Peabody's instructions, ignored the court's order. No criminal charge had been brought against Poole.

During the proceedings today Attorney General Miller accused Horace Hawkins and Frank J. Haug, attorneys for the prisoners, of perjury in making affidavits that a state of insurrection and rebellion did not and does not exist in Teller county, as declared by Governor Peabody in his proclamation of martial law. Attorney Hawkins characterized the statement of the attorney general as an "unnecessary insult."

The court reserved all decisions as to its power to take jurisdiction on the right of the governor to issue a proclamation suspending the writ of habeas corpus in the case of Poole and all other questions involved.

Says Prisoners Have Confessed.

Adjutant General Bell said today that Charles McKinney and Charles Foster, who were arrested by the militia at Cripple Creek, had confessed that they had taken part in the dynamiting of the Vindicator mine, which resulted in the death of Superintendent McCormick and Foreman Beck. It is said they implicated twenty other persons in their confession.

Probe for Inner Circle.

GEORGETOWN, Colo., Dec. 16.—Examination of witnesses was resumed today to secure a jury for the trial of fourteen union miners charged with complicity in the blowing up of property on the Sun and Moon mine at Idaho Springs on July 28 last. It is reported that the state will attempt to prove that the Sun and Moon explosion was planned by a so-called inner circle of the Western Federation of Miners and that several union men who knew the details of the alleged plot will testify for the prosecution.

Coopers Win First Strike.

CHICAGO, Dec. 15.—The first strike won by the coopers in the stock yards district in twenty-one years was concluded today when the agreement was reached and signed between the coopers' union and the Packing Trades' council on one hand and the packers on the other. Hereafter the minimum scale is to be \$2.00, but all men earning \$3.00 or more a day are not to be reduced. Work will be resumed tomorrow morning.

MUNYON'S PAW-PAW

TO THE PUBLIC

In presenting PAW PAW, a natural stomach, heart and nerve tonic, I feel that I have added to the science of medicine a force that is as revolutionary as was vaccination, as important to mankind as the discovery of antiseptics and as beneficial in the preservation of human life and happiness as anything that man's ingenuity or providential wisdom has ever devised.

THE PRACTICAL DRUGGIST AND REVIEW OF REVIEW says: "The juice of the Paw Paw is more efficacious than peppin in dissolving albumen. The fruit or juice seems to have the same effect as a good digestive and is most effective in cases of dyspepsia and habitual constipation."

Having combined this wonderful natural remedy with other medicaments, I positively assert that I am giving to the world the greatest stomach, blood, heart and nerve tonic known to mankind.

I know that Paw Paw will make worn-out stomachs almost as good as new; will make good, rich blood and build up the nervous system; will do away with both the necessity and desire for beer, whiskey, wine and other injurious stimulants.

A body that is overworked, a system that is run down, requires a stimulant. Alcoholic stimulants lift, but let you fall. PAW PAW LIFTS AND HOLDS YOU!

I want every weak and debilitated person to give Paw Paw a trial. I want every doctor carefully to test this remedy and then honestly tell the public the results.

I want every clergyman when he feels exhausted to take Paw Paw and then tell his friends what he thinks of it. I want every mother to introduce Paw Paw into her home. It will prove a ready agent in curing and warding off many diseases. I want every tired woman after a hard day's work or an afternoon's shopping, to take a tablespoonful of Paw Paw and see how quickly it will refresh and invigorate her.

In order that everybody may have a chance to test this remedy before buying, I have arranged for free distribution of 5,000 bottles from the office of the World-Herald, Thursday, Dec. 17. After you have taken it write to the editor of the World-Herald and tell him the truth. If it has cured you tell him so. If it has benefited you, say so. If it has not done you any good say so. Let us have the truth, MUNYON.

Sold by All Druggists. Large Bottles \$1. Paw Paw Laxative Pills 25c a Bottle.

(The Editor of the World-Herald will be pleased to hear directly from any one who has been benefited by the use of the Paw Paw sample given away at our office or from the use of a bottle subsequently purchased from a druggist.)
