STICKNEY DENIES REPORT

Declares Dutch Firm Has Little Stock Road and Holds That.

RUMOR WAS THAT HOLLANDERS SOLD OUT

Railroad Men Profess to See in This Attempt of Competitors of Great Western to Absorb It.

A story to the effect that the Dutch banking firm of Teixeira de Mattos Brothers has sold its holdings of Great Western stock has gained currency among railroad men. It is said that this firm held enough of the stock of the Great Western to control the policy of the company in conjunction with other large stockholders, ind, according to the report, it was among the largest stocaholders who had bought the holdings of the Hollanders.

In speaking of the matter General Agent Thomas of the Great Western stated that he had information direct from President Stickney to the effect that there is no truth in the reported sale, and further, that the firm reported to have made the sale, owned very little or no stock in the company. The report has generally been received, where it was credited, as an attempt on setitors of the Great Western to absorb that system.

It has been found impractical to hold school the day before Christman, as there is sure to be a great number of absentees and the students present have their minds engaged with thoughts of the festivities of the season. Caty is a witness for the state. In a letter difference to him, he was warned that unless he went on the stand and testified that the Northern Pacific detectives had bribed him to testify against the defendant he would be killed. In this letter jurors were told that the defendant was innocent and unless they accommodate the county treasurer's quitted him their houses would be blown.

Prof. Munyon says this Paw Paw remedy feeds the nerves and refleves them of all countries of the put them to sleep, but a remedy that will give them a lasting strength.
