unds for the erection of that new asym. At least this was the decision of the board late this evening. And in the meantime the board members do not wish to be placed in the light that they are slow about attending to business. The defense offered for the board members is that they have many boards to look after, which one Lands and Funds. The question was raised of them said was a good reason for the adoption of a constitutional amendment. As a matter of fact the board has quite a efense when they rustle around and dig

had time to figure it up he believed that he would find that he belonged to at least a dozen boards. A member of the board said it had been

explained to the people of Norfolk that they would get that asylum and the apriation would not be allowed to lapad back to the treasury, as they seen to think if will. The state has one srchitect and it impossible for him to attend to everything in a minute. It is the intention of the board to advertise for bids some time in January and get work started just as soon the statehouse, even though they are dry as possible. #### Kearney Makes Mistake.

In the meantime it is beginning to look an though the people of Kearney made a erious mistake when they began to protest against the making of \$10,000 worth ements on the flats to be used as a dormitory for the new normal school. The letting of the contract for the erecdon of the building is in the hands of the Board of Education and when Kearney received a majority of votes that secured the school, it left several blue spots. And even though much time has elapsed since the vote was taken the feeling has by no means died out. The result is that e is considerable talk going the rounds that some members of the board are not anxious that the contract be let in a hurry. use the more delay there is the more hance there is for Kearney to lose that building. If nothing is done before the convening of the next legislature, then the money appropriated reverts to the treas-ury. It is the general belief that this deity in beginning on the construction of the building is made with an object. Kcar-ney, it is said, did not help the board get a move on itself by protesting against the spending of the \$10,000.

He is a man who takes the people into his confidence probably more than any other public man and had he been intending to run for the republi can nomination the people would have heard it from him. Senator Hanna is for Roosevelt and there is absolutely no question about it. Mark my words, in the next convention he will be found whooping it up for the president with the rest of the republicans of the country. "From the many reports I have received there is no opposition whatever to Presi-dent Roosevelt, though it is the desire of the popocratic press to make the people believe that Senator Hanna is to be a

candidate. In an endeavor to create discord in the republican ranks. They will fall, for we are all for Roosevelt and so

### Nebraska for Roosevelt.

Governor Mickey is among the number who think the talk that President Roosevelt will have opposition for renomination in the person of Senator Hanna and that fences to keep him out are being erected in Nebraska, is without foundation. "I set many men from various parts of the state every day and the information I get is that President Roosevelt will have not the least bit of opposition in Nebraska. All republicans and many democrats ad-mire Senator Hanna and believe him to be one of the foremost men of the day in the United States and with probably more influence than any other single citi-sen other than the president, but they are for President Rosseveit for the republican standard bearer.
