## Not Working for Fowler.

Up in the northwestern section of the

state the school boards have been buying books and maps from agents who pretended represent State Superintendent Fowler. It was upon the strength of this latter rep-resentation, so some of the boards have inormed Mr. Fowler, that orders were given the goods which now they do not want. As a matter of fact Mr. Fowler has no agents in the state selling books and maps and he has repeatedly said so through circular letters. In answer to a communica-tion regarding the men Superintendent Fowier has mailed out a circular letter

It is strange indeed that so many school officers will haggie and quibble over the teacher's meager salary, letting the school to the lowest bidder, and yet rush pell pell into a purchase of charts, at from four to five times their real value, under the magical influence of the chart spall-binder.

the magical influence of the chart spell-binder. In the purchase of school supplies no undue haste should be made. Before the meeting of the board to make purchases for your district you should confer with your teacher and county superintindent, for they are furnished with price lists of the various companies authorized to do business under the laws of the state. All reputable companies dealing in school books and supplies have filed bonds with this department as required under the existing statute, which requires these com-panies to do business on business prin-ciples.

LEAVES BRIDE OF BUT THREE WEEKS

People of Sloux Falls Interest Officers of Surrounding Country in Case

> with Many Peculiar Phases.

SIOUX FALLS, S. D., Dec. 26.-(Special.) -Persistent efforts to solve the mystery surrounding the disappearance from his home in this city last Tuesday of Rev. Charles A. Lyons have thus far proven fruitless

The missing man was married only about three weeks ago to Miss Purvis, stenographer in a local bank. The ceremony was performed by the father of the bride, who pastor of a Christian church in a town near Cedar Rapids, Is., he having come to Sloux Falls for the express purpose of uniting his daughter and Rev. Mr. Lyons marriage.

The couple had apartments in a local husiess block. After eating lunch with her husband last Tuesday noon Mrs. Lyons. who had continued in her position at the bank, departed for the bank, leaving her hushand in their rooms. This was the last she saw of him. The operator of the elevator in the building has since stated that shortly after the wife left the building her husband also descended in the elevator. This was the last seen of him by anyone in Sloux Falls, so far as the authorities

have been able to ascertain. When the husband descended in the eleator he was carrying a small black box. This was, afterwards found in the apartments of himself and wife, showing that he must have returned to the building unobserved by anyone.

Finds California Analogy. Lyons came to Sloux Falls last May,

armed with letters of introduction to several local clergymen and prominent church people, and not having a regular charge, had occupied local pulpits at such times as the regular pastors have been absent. He was a printer or bookbinder by trade, and for the purpose of making a living had been employed in a local book bindery for some time before his mysterious disappear

One of the men with whom he worked spent some time a few years ago at San

Diego, Cal., and states that while there he worked with a man bearing the name of Charles A. Lyons, of about the same age and appearance of the man for whom scores of officers and others in this part of the country are now keeping a close watch in hopes of discovering him or unraveling the mystery surrounding his dis-appearance. The San Diego Lyons, so this

man states, disappeared in much the same fashion as Rev. Mr. Lyons, deserting a wife and one or two children.

Remembering this, and noting that the Lyons who was employed with him here ore a resemblance to the man of name he had known in San Diego, he day asked Rev. Mr. Lyons if he had ever been in the California city. The minister, he says, admitted that he had.

Early in the fall Rev. Mr. Lyons suffered a slight stroke of peralysis, which af-fected one of his eyes. Physicians claim that a second attack of this nature would cause death or complete loss of mind for an extended period.

Those who were the most closely assoclated with the missing man during his residence in Sloux Falls ridicule the idea that he deliberately abandoned his orde dynamite near the Portland mine broke windows in many houses in that vicinity and sent many rocks crashing through the in his right mind. ## The Bible Case,

OMAHA, Dec. 28 .- To the Editor of The See: Referring to the letter of G. W. Crofts which you published in The Bee of the 23rd inst., it is intimated that the school board of School district No. 21. Gage county, is deserving of some sympathy, when to an impartial observer this is cer-

tainly not the case. Are not the facts as follows? Mr. Freeman, one of the heaviest taxpayers. and one of the oldest residents of that district, applied for relief to the courts of the state, and to restrain the

tarian meeting house of the school house The supreme court of Nebraska gave Mr. Freeman the relief sought for, and incldentally called attention to the fact that the state constitution did not permit of the use of public money for religious instruction in the schools. As to the "grit and determination" of the majority party of the district, could not this be said about certain persistent crim-

inal classes who are always trying to evade the laws of the state? If the presi dent of the ministerial association ican sympathize with one set of law breakers he must naturally do so with the other WALTER BREEN. class.

## THE VALUE OF CHARCOAL

Fow People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more you

take of it the better; it is not a drug at all, but simply absorbs the gases and impurities slways present in the stomach and intestines and carries them out of the

Charcoal sweetens the breath after smok ing, drinking or after eating onions and

other odorous vegetables. Charcoal effectually clears and improves the completion, it whitens the teeth and further acts as a natural and eminently mile cartbartie.

It absorbs the injurious gases which colteet in the stomach and bowels; it disinoison of catarrh. All druggists sell charcoal in one form or

nother, but probably the best charcoal and the most for the money is in Stuart's absorbent Lozenges; they are composed of he finest powdered Willow charcoal and other harmless antisepties in tablet form, or, rather, in the form of large, pleasant training lozonges, the charcoal being mixed

with honey. The daily use of these lozenges will soon tell in a much improved condition of the peneral health, better complexion, sweeter yreath and purer blood, and the beauty of

it is, that no possible harm can result from their continued use, but, on the con rary, great benefit. A Buffalo physician, in speaking of the

benefits of charcoal, says: "I advise Stuart's Absorbent Lonenges to all patte suffering from gas in the stomach and towels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by

the daily use of them; they cost but twenty-five cents a bex at drug stores, and although in some sense a patent prepara-tion, yet I believe I gat more and better charcoal in Stuart's Absorbent Lossages than in any of the ordinary charges!
