

START ON POLITICAL TALK

Elate Makers Busy Fixing Up Ticket for the Nebraska Republicans.

CANDIDATES ARE LAYING THEIR WIVES

Teachers Are Already Arriving for the Meeting of the State Association This Week and Record Attendance Looked For.

(From a Staff Correspondent.)

LINCOLN, Dec. 27.—(Special.)—Around Lincoln these days considerable talking is being done regarding political matters and several conversations have been referred to the state republican ticket. Some talking has been done also as to the necessity of holding two conventions. No one, however, seems to care whether one or two conventions are held and so far as any public expressions are concerned no one had yet said anything.

Senator Marshall of Otoe county was here Saturday and had an extended conference with Addison Wait, who wants to succeed his chief in the office of the secretary of state. The Otoe statesman said little was doing in the political line, but it is generally accepted here that he will whip things up for Wait, the two being from the same county.

At least three of the deputies now holding forth at the state house will be candidates to succeed the retiring senators. Frank G. Asst, Frank Stinson, L. H. Clow, all of Pierce; A. J. Newton of Centerville, G. D. Matheson of Boving; John Hayes, Anton Meier and Manuel Byive, all of Fort Pierce.

Senator Marshall of Otoe county was here Saturday and had an extended conference with Addison Wait, who wants to succeed his chief in the office of the secretary of state.

Teachers are already arriving for the meeting of the state association this week and record attendance is looked for. The meeting will be held at the state house.

sent to the passenger department of the road at St. Paul. The following reply to the letter mentioned seems to clear the matter and to insure the reduced fare over that road:

Dear Sir: Your letter of the 19th inst. in regard to reduced rates to Lincoln for the annual meeting of the Nebraska State Teachers' association has been referred to me. We have this day written to our agent at Ponca as to the rates and arrangements and I trust that members of your association desiring to secure tickets from that point will not experience any trouble in securing them, as all of our agents in Nebraska have been fully instructed.

Teachers who live along the line of that road are requested to write immediately or wire W. L. Stephens, chairman of the local committee, Lincoln, in case their railroad agents refuse to sell state association tickets, as per the above announcement.

It is rumored that politics will add considerable interest to the sessions of the association. There are three members of the Reading Circle board re-elected, and then the usual friendly contest over the office of president. Last year the contest over the office of president was unusually free from any strife or bitterness, and as far as can be seen now this year will follow closely the precedent established last year.

There is some talk among the members of the executive committee about a reduction in the number of members on that committee. The expense incident to each meeting of the committee seems to be the ruling motive. Some urge that three members could easily do the work now done by a committee of five. It remains to be seen, however, when it comes to representing the various sections of the state, whether a reduction in the number of officers would be advisable.

Arrangements may be made for board and room in private homes and boarding houses at reasonable rates. Teachers desiring to engage rooms in advance might address J. I. Wyer, at Station A, Lincoln, Neb., stating time of arrival, price they want to pay, number in party, board or room or both, time of departure. Mr. Wyer will make assignments and notify each member of address assigned. Teachers not engaging accommodations in advance will find list of private boarding houses at the bureau of information at the university library.

Letters of inquiry regarding the program of organized agriculture are pouring in from all directions, indicating that there will be a large meeting. The following are the dates of meetings during the week of January 13, at the university farm, Lincoln:

The State Board of Agriculture, January 13, 20 and 21. Nebraska Improved Live Stock Breeders' association, January 13, 20 and 21. Nebraska Dairyman's association, January 13, 20 and 21. Nebraska Veterinary Medical association, January 13, 20 and 21. Jersey Breeders' association, January 13, 20 and 21. Association of Agricultural Students, January 13, 20 and 21. Nebraska State Horticultural society, January 13, 20 and 21. Nebraska State Institute, January 13, 20 and 21. Nebraska Shorthorn Breeders' association, January 13, 20 and 21. Nebraska Corn Improvers' association, January 13, 20 and 21. Nebraska Beekeepers' association, January 13, 20 and 21. Nebraska Irrigation association, January 13, 20 and 21. Nebraska Stock Growers' association, January 13, 20 and 21. Nebraska Park and Forest association, January 13, 20 and 21.

The evening sessions will be held under the auspices of the State Board of Agriculture.

TUESDAY EVENING. Organ recital, Dr. J. M. Mayhew. Address, Wm. C. Bessmer, Chancellor E. Benjamin Andrews.

MUSIC, Dr. J. M. Mayhew. Address, Dr. J. M. Mayhew, Farmers' Institute specialist, United States Department of Agriculture.

WEDNESDAY EVENING. Music, Wm. C. Bessmer. Address, Prof. W. A. Henry, dean of the agricultural college, University of Wisconsin.

THURSDAY EVENING. Music, Wm. C. Bessmer. Address, Dr. J. M. Mayhew, Farmers' Institute specialist, United States Department of Agriculture.

WANTS LONG-TERM JUDGES

Former Senator Allen Talks on American Judicial System.

FAVORS LESS POWER TO TRIAL JURIES

Warns Against Placing Power of Initiating in Hands of Prosecuting Attorney Dependent on Voters for Election.

Former Senator William V. Allen of Madison read a paper on "The American Judicial System" before the Philosophical society Sunday afternoon. He criticized the jury system as at present operated and advocated the election of all judges for terms of fifteen years.

It is believed that the grand jury as it exists under the English law. It is a serious blow at the efficiency of the criminal law to abolish, modify, or tamper with it. To do so is a direct encouragement to criminality.

But I want to speak more particularly of the traverse jury. This law court auxiliary is more than six centuries old and the facts and circumstances of its origin and development furnished the basis of my paper.

But I want to speak more particularly of the traverse jury. This law court auxiliary is more than six centuries old and the facts and circumstances of its origin and development furnished the basis of my paper.

WOULD LIMIT JURY'S POWER

"I would not abolish the trial of actions at law by a jury, but I would greatly circumscribe and narrow the jury's province. I would not give it verdict unless upon evidence, nor, if the judge of fact, to act against its verdict when I thought it wrong. I do not accept the idea embraced in the present constitution, that twelve untrained minds, that seldom reason consecutively or correctly and frequently become the sport and play of wily and unscrupulous advocates, should determine the rights of men and women, and decide upon the merits of a case.

STRIKES IT RICH IN NOME.

RAVENNA, Neb., Dec. 27.—(Special.)—Frank Petrick, formerly of Ravenna, is one of twelve men who have recently incorporated what is known as the Nome Quartz Mining company at Nome, Alaska. The company owns twenty-four claims on the Quincy river, and on their property is the first quartz discovered in the Nome district. The ore is fine milling, and assays from \$7 to \$2500 per ton, and averages \$100 per ton. The vein they control varies in width from six feet to seventy feet so far as developed.

REMAINING OF FOUNDER OF SMITHSONIAN INSTITUTION TO BE BROUGHT TO AMERICA.

GENOA, Dec. 27.—Dr. Alexander Graham Bell, inventor of the telephone, has arrived here. He will convey to the Smithsonian institution at Washington, D. C., the remains of James Smithson, founder of the institution, who died in Genoa in 1829.

FUNERAL IN PLACE OF WEDDING

MCKEESPORT, Pa., Dec. 27.—After a journey of nearly 4,000 miles, which was to have had its termination at the nuptial altar, Miss Lillian Bennett of Wednesday, England, today stood in the presence of the remains of her betrothed, Ambrose Good, who was killed in the wreck of the Duquesne limited last Wednesday evening. The scene in the little darkened parlor of the home of Thomas R. Good, a brother of Ambrose, was pathetic. Just across the street from the home of Thomas Good stands the cottage which Miss Bennett's intended husband had purchased and furnished for her. Tomorrow, which was to have been the last before the wedding, will witness the funeral.

WANTS NATIONAL AQUARIUM

WASHINGTON, Dec. 27.—It is said here that the reason for the removal at this time of the body of the founder of the Smithsonian institution from Genoa to this country is because a stone quarry has encroached on the English cemetery at Genoa to such an extent that it has become necessary to remove the remains interred there. Mr. Bell left this country a little more than a week ago. Congress has made no appropriation for the removal of Mr. Smithson's remains to this country, and it could not be learned tonight, on account of the absence of Prof. Langley from the city, whether the regents of the Smithsonian had voted money for this purpose or Mr. Bell was acting on his own initiative. The matter had been discussed in local scientific circles, where the opinion prevails that the grounds of the institution in this city are the proper site for their final resting place.

BOTTLE MAKERS TO SHUT DOWN

PITTSBURG, Dec. 27.—A decision has been reached by Pittsburg glass manufacturers to close all bottle factories shortly after January 1 for four weeks in order to curtail production and better enable the trade to maintain prices. The report of this decision has caused consternation in glass circles and particularly among the workers who had presumed that their season's work was permanently settled and there would be no cessation of the industry for the remainder of the year. The agreement, it is said, covers all the members of the associated manufacturers, but of course not the independents, who will continue their operations. Notices of shutdown, it is said, will be posted some time during the week and thousands of skilled workmen will be rendered idle.

WRECK ON NORTHERN PACIFIC

ST. PAUL, Dec. 27.—North and south-bound passenger trains on the Duluth division of the Northern Pacific railway met in a head-on collision between Pine City and Hinkley this evening. One reported killed and several injured.

ACT NOT WITHOUT PRECEDENT

LINCOLN, Neb., Dec. 27.—To the Editor of The Bee: The Panama incident is too fresh in the public mind to need rehearsal. When reading the speech of Senator Morgan a few days ago, I rubbed my eyes to get them wide open, and pinched myself to make sure that I was not in arms of the sun. In substance, accuse the president of making terms with an irresponsible revolutionary junta and of declaring war, the power to do which—none will dispute him—is reserved to congress under the constitution. John T. Morgan fought four years to maintain the right of secession, and he ought to feel kindly toward the people of Panama.

FEAR KING HAS BEEN MURDERED

PREMONT, Neb., Dec. 27.—(Special.)—Relatives of George Vascada, a young farm hand formerly employed at the ranch of Mark M. Cook, east of this city, report that he has been missing for nearly six months, and from certain circumstances connected with his disappearance they are fearful that he has been murdered.

Cook, east of this city, report that he has been missing for nearly six months, and from certain circumstances connected with his disappearance they are fearful that he has been murdered.

HELD TO BE CASE OF SUICIDE

Brother in Wisconsin Orders Body of Man Found Near Papillion Buried at that Place.

PAPILLION, Neb., Dec. 27.—(Special Telegram.)—After an investigation lasting several days the authorities have come to the conclusion that John Nelson, the man found dead in the woods along the Platte river, was a limb of a tree by his neck with his feet upon the ground, a gash had been cut in his throat extending from ear to ear and almost severing his head, making a horrible wound. A bullet had been shot entirely through his head, coming out near the temple and the man's wrist was slanted from a revolver shot. Strichyline in large quantities was found in Nelson's stomach, which alone is considered enough evidence that the man committed suicide. No inquest was held.

FINDS BABE DEAD BY HER SIDE

Grand Island Mother Has a Shock on Awakening in the Morning.

GRAND ISLAND, Dec. 27.—(Special.)—Friday morning Mrs. George Plummer awoke at a late hour she found that her 3-month-old babe was dead by her side. Dr. Roeber, who is at the same time coroner, was notified and called. The babe had, it is believed, smothered by its bedding accidentally getting over its head. Mrs. Plummer awoke about 5 o'clock a. m., and, the baby being restless, had nursed it. She then laid it carefully at her side, covering it well. When she next awoke a few hours in the morning, the child was dead.

REPORT OF GENERAL BATES

Commander of Northern Division of Army Suggests Number of Changes.

RECRUITS ARE NOT UP TO STANDARD

Would Return to Features of Old Uniform and Have More Military Prisons in the Division.

CHICAGO, Dec. 27.—In reviewing the year's work of the United States army in the Department of the Lakes, Major John C. Bates, commander of the northern division, says that the character and appearance of recruits is not up to the standard of those of former years, the number of undeveloped youths being especially noticeable.

According to the report, the "baby blue" facings for infantry is unpopular, and without exception is opposed by all infantry officers, and a return to the white facings is universally desired, as is also the retention of the officers' blue overalls in lieu of the new olive drab overcoat. The general mess system in operation throughout the department is declared unsatisfactory, and a return to company mess system is recommended.

In discussing the need of a military prison, which the report declares has been fully demonstrated, General Bates says: "The post guardhouses have been overcrowded although under instructions from superior authority I have released many prisoners where, in my judgment, such action was not likely to be detrimental to discipline, and in some cases, I am afraid I have exceeded that limit in efforts to reduce the number of prisoners."

Furthermore, I think it had a bad effect on the young soldier in coming into contact with old soldiers serving long sentences, and that it would be in the interest of discipline to send all men under sentence of a year or more away from the post to a military prison as soon as possible.
