

STATUS IN THE EAST

Japanese Authority Tells of the Negotiations Between Japan and Russia.

CZAR HAS YET MADE NO CONCESSION

Withdraw Offer Made to Japanese Government During Month of October.

PROPOSALS MADE BY ISLAND EMPIRE

Offers to Recognize Special Interests in Manchuria and Korea.

CLAIMS TO BE FREE TRADE CHAMPION

Says Efforts to Keep Russia Out of Manchuria Permanently is in Defense of Commerce of All Nations.

TOUL, Jan. 6.—A Russian legation guard

of 200 men has been landed at Chemulpo, and the Japanese railway has refused to transport to Seoul. It is reported preparations have been made for the emperor of Korea to find an asylum at the French legation in the event of serious trouble. It is said that France and Germany will send marines here to guard their legations.

TOKYO, Jan. 6.—A high Japanese authority

today made the following explanation of the status of the far eastern question: The statement that Russia has made concessions to Japan is not exact. On the contrary, Russia, in the month of October, made certain concessions which were accepted by Japan, subsequently withdrew them and asserted that she would not let the Japanese little hope in the way of reaching a satisfactory agreement with the Japanese government. Confident in the declarations of disinterestedness in Manchuria made by Russia and recognizing Russia's special interests in that region, Japan should regulate, once for all, all questions in the far east in the way of peace and tranquillity. To this end Japan made the following proposals: First—Russia should mutually respect the independent and territorial integrity of China and Korea. Second—Russia should reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Third—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Fourth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Fifth—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Sixth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Seventh—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Eighth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Ninth—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Tenth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Eleventh—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Twelfth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Thirteenth—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Fourteenth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Fifteenth—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Sixteenth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Seventeenth—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Eighteenth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Nineteenth—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Twentieth—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. Twenty-first—To engage mutually not to infringe, Japan, the commercial rights and immunities secured by Russia in Korea, Russia, the commercial rights and immunities secured by Japan in Korea. Twenty-second—To recognize reciprocally, Japan, the special interests of Russia in Manchuria, Russia, the special interests of Japan in Korea. CONSUL EVANS COMES HOME

LONDON, Jan. 6.—United States Consul General Evans and Mrs. Evans today embarked on the Hamburg-American steamer Deutschland for New York.

CRIPPLE CREEK, Colo., Jan. 4.—C. H. Retzer

of the Portland Mining Company, was arrested by a military squad today and lodged in the bull pen. K. C. Sterling, chief detective of the Mine Owners' association, who investigated the arrest, said that after being detained for a time Retzer would be banished from the district. Mr. Sterling is quoted as saying that if Mr. Burns should come here and interfere in behalf of Retzer, he too would be put in the bull pen. Retzer and Burns, it is said, incurred the enmity of the Mine Owners' association by giving employment to union miners in the Fortran mine after having a successful campaign for the election of a union man as company treasurer. In an interview Mr. Retzer said: I represent the Ryan-Whitney interest in the gold mining combination. I have with Mr. Burns, been in favor of union labor and the demands made by the Western Federation of Miners for gold wages, mills and use of the property of the mine. I should be taken to Camp Goldfield and to the bull pen. More Miners Deported. TELLURIDE, Colo., Jan. 6.—Fourteen more strikers were deported from Telluride today by order of Major Hill. In this district a squad of soldiers is scouring the country for firearms and houses suspected of containing weapons are forcibly entered and searched. Trial of Union Miners. GEORGETOWN, Colo., Jan. 6.—In the trial today of the men charged with dynamiting the Sun and Moon transformer building at Idaho Springs, the only important witness was William Bate, former president of the Idaho Springs Miners' union. Bate was installed as president in April, 1903, and resigned in July, a short time before the Sun and Moon explosion occurred. It is alleged that he resigned because he did not approve of sentiments of other members of the union. Mr. Bate testified that when he became president there was a standing committee of union men known as "a committee of safety," whose business was to drive nonunion men from the camp. He said that some time before the explosion he was informed that he had been decided to blow up the Sun and Moon buildings, and that a committee, consisting of Fire, Carbonnelli and Thomas Walsh, had been appointed to do the work. Chandler, he said, left town ten days before the explosion took place. Fire was the man who was killed by the explosion. Other witnesses were examined for the purpose of showing that threats against the Sun and Moon had been made by members of the union. Stationary Engineers Strike. CHICAGO, Jan. 5.—As a consequence of the breaking off of peace relations between the stationary engineers and the Hotel Keyser association regarding wages and hours of labor, members of the union ordered strikes at more than twenty-five hotels and apartment houses where engineers are employed. The order of the union was obeyed at twelve of the hotels and apartment houses, some of them the most fashionable in the city. Citizens' Alliance to Help. BLOOMINGTON, Ill., Jan. 6.—The Citizens' Alliance of Bloomington, an anti-union organization of business men and citizens, this morning announced that it would tender the sum of \$10,000 to aid the Street Railway company in its contest with the strikers and also to prosecute any person engaged in rioting or injuring the property of the company. The Board of Arbitration is yet engaged in taking evidence on the strike situation and will report shortly. There was some disorder this morning, but of a trifling character. This afternoon Mayor George C. Morrison issued a radical proclamation concerning the street railway strike. He ordered all persons to refrain from loitering or congregating upon the public streets under the severest penalty. In addition, it was decided at a conference this noon between the city and county authorities and the forces of officers and of deputies in anticipation of any outbreak on Saturday night or Sunday. Grain Dealers Protest Against Proposed Action of United States Government. NEW YORK, Jan. 6.—Representatives of twenty of the thirty-two grain exchanges of the country met here today to consider proposed protest against the bill introduced in the United States senate by Senator McCumber of North Dakota to provide for the national inspection of grain. A resolution was adopted unanimously expressing the opinion that any measure of the kind existing in the United States is injurious to the best interests of the producer, dealer and foreign buyer; declaring that "the inspection of grain by the national government at terminal markets would be detrimental to the agricultural interests and the grain trade of the country"; and that the conference is "absolutely and unalterably opposed to any attempt to exercise governmental inspection of grain," having found the "supervision of inspection under political bodies to be entirely unsatisfactory" and favoring "the inspection in all terminal markets under the supervision and control of the commercial organizations of such markets." ANOTHER CAISSON VICTIM Inspector Dolan Latest to Die in the Compressed Air Vaults—Four Others So Killed Before Him. NEW YORK, Jan. 6.—Martin V. Dolan, formerly a prosperous Albany contractor, but who had just accepted a position as inspector of masonry in the construction of the Manhattan bridge across the East river, has met death in the compressed air caissons which are being used to lay the foundations on the river bed. It was Dolan's first day in the position. He is the fifth victim among the men who worked in the caissons and the second to succumb in a week. The air pressure of forty-five pounds to a square inch prevents the workmen remaining more than an hour in the steel vaults. The least physical ailment is almost certain death and Dolan is supposed to have suffered from heart disease, but so slightly that it escaped the notice of the physicians who rigidly examined each employe.
