(From a Staff Correspondent.) ES MOINES, Jan. 9 .- (Special.) - The reublicans of the legislature ficished up their election of officers and chief employes this morning. The senate republican caucus They will be elected unanimously on Mon-The caucus was called to order by made chairman, with Senator Winne secresession and the honor was conferred unani-mously. Nearly all the officers were named by acclamation. The only real contest of the preliminary work was on second assistant secretary. On the first ballot it was twenty each for T. P. Low of Marshall and John L. Gillespie of Story county. On the second ballot one failed to vote and Gillespie had one majority and was declared the nominee. A contest was promised for bill clerk, but Benator Hastelquist withdrew the name of his candidate and the selection was made unanimously. There were several ballots on assistant doorkeepers. The following are the senate officers and employes selected:

President pro tem., James A. Smith.

The senate selected a caucus committee, consisting of Senators Hopkins, Hogue, Turner, Maytag and Hartshorn. Two senators, Bruce and Dunham, were absent from the caucus.

Completing the Committees. Much work has been done by both of lature looking to perfection of the committees, but the fask is not yet done. President Herriott and Speaker Clarke say that they have not yet finished any of the committees and all guesses on who will, head this or that committee may be wide of the mark. It is believed certain that there will be two or three of the twenty-two house democrats who will get chairmanships. Speaker Clarke is kindly disposed toward the democratic minority and it is the understanding the democrats will vote for him for speaker and thus make it unanimous. The house caucus committee consists of Messrs. Plenniken, Kendali, Lepson, Weeks and Carden, Many of the members went home ôver Sunday because of the preliminary business all being done.

Contracts for Repairs.

The State Capitol commission today let a contract for the canvas that will be needed to form a temporary ceiling for the house of representatives for \$500. The canvas will cover the ceiling and come down over the galleries which were burned. The debris is now nearly all taken out of the hall of the house. Other contracts are being made rapidly for the temporary work in the hall and it is regarded as certain that the house will be able to meet in its chamber in two weeks. The supreme court room appears to be in bad condition, as two of the paintings which form the decoration for the celling have fallen down and members of the court say they will not take any risk in remaining in the room during the court session.

NICHOLS QUITS KANSAS CITY Rumor Teabeau is Negotiating for Lease of Western League Ball Park.

KANSAS CITY. Jan. 9.—(Special Telegram.)—Charles A. Nichols. manager of the Kansas City Western league base ball club, today resigned to accept the management of the St. Louis cardinals. It has been rumored here for some time that Nichols intended resigning the management of the local team, but he has always denied it until today. As yet it is not known whether a successor will be appointed for him or not. The impression is growing that Nichols' resignation means the dissolution of the local Western league team. George Teabeau, of Louisville is in the city tonight and it is reported that he is negotiating for the lease on the Western league park, which would indicate that the Western is going to abandon this city.

USHER ADMITS THEY CLOSED UP EXITS

Were Securely Fastened with Pad locks and Never Unlocked Until After the Second Act of the Play.

CHICAGO, Jan. 9 .- It was discovered today that two iron gates, the existence of which has not been known to the publi and which were removed from the Iroquola theater after the fire, played a deadly part in the destruction of life in the Ill-fated playhouse. Fire Inspector Fulkerson, who knew of their existence, was not able until today to secure evidence concerning them

Today George N. Dusenberry, head usher of the theater, admitted to Mr. Fulkerson that these gates were placed one across the end exit in the first baleony and the other icross an exit from the second balcon Both gates were locked securely with pad locks, and were never at any performance unlocked until after the second act of a play. On the day of the fire the second ac had not been completed when the catastrophe occurred and the gates were still standing. They were so strong that firemen were not able to batter them down with axes after the fire, and to the frenzied people who sought safety through those exits they were absolutely impenetrable.

During the afternoon several members of the Bluebeard company testified. The most Important witness was William Wiertz, who had charge of a light similar to that which is supposed to have caused the fire and which was placed a short distance from it. He declared that it was impossible for the light close to the scenery to have caused the fire. He said that i blue screen was held before it for the purpose of producing moonlight upon the stage. This, he said, would prevent the curtain from coming in contact with the light. He admitted, however, that when changing screens the carbons were unprotected and that if the scenery touched them at such a time it would be ignited.

Miss Lizzie Haley, a teacher in the pub lic schools, created something of a sensation by declaring that many of the public school buildings are absolutely without protection against fire, and that repeated protests by teachers and principals had produced no results and had not even been honored by a reply

Uricsol Cures rheumatism

Uricsol is a positive cure for rheumatism and other diseases which are caused by an excess of Uric Acid.

It is this excess of Uric Acid which forms into urates and, lodging at joints coming incontact with the nerves, causes the pain which is called rheumatism. Uricsol causes these deposits of urates to become dissolved and then eliminates them from the body. It removes the cause and is therefore the only remedy that can be depended upon to absolutely cure rheuma-

Uricsol is a radical departure from all so-called cures. Uricsol does not interfere in the with the stomach or digestive functions; it has tonic properties which increase the appetite and is of itself a general stimulant for the liver and kidneys.

These five years have Rheumatism had settled in my right leg (knee and foot) which was constantly swollen up out of all proportion, and I was always in great pain. The Rheumatism

Uricsol promotes the general health by its direct action upon the Kidneys and Liver, and its assistance in the elimination of waste matter, and those who have used it the most liberally have experienced its increased buoyancy, both mentally and physically to a marked degree.

This can be easily understood when we realize that most diseases originate primarily or as a secondary consequence from the retention of effect matter within the body.

Assisting Nature mildly but continuously in this excretory process until it is able to regain its normal tone, and accomplish this duty without help, is only one of the many virtues of Uricsol.

Health her hands were practically strength.

The deposits of disappear, the ioints of disappear, the ioints neared the deposits about the joints usually requires three or four times the amount of Uricsol required in the instance cited, and in this sense it is not strictly a typical case. It however, proves the possibilities in every such case, and gives to chronic sufferers evidence that they are not beyond cure if they will do their part faithfully.
