Pive-Mile Strip in Sheridan County Likely mon; substitute, Olin Horn. Waterville, to Be Thrown Open.

PALMER FOR POSTMASTER AT OMAHA

Senator Millard Said to Have Decided Upon the Successor of Joseph Crow, Who Will Be Named Soon.

(From a Staff Correspondent.) WASHINGTON, Jan. 12 .- (Special Telegram.)-Representative Kinkaid submitted a letter to Commissioner Jones today from Judge W. H. Westover of the district court of Sheridan county, Nebraska, urging the opening to settlement of what is known as "Five Mile extension," a strip of land five miles wide and ten miles long in the north part of Sheridan county, immediately south of the Pine Ridge Indian reservation in South Dakota. This strip of land is wholly in Nebraska, while the Indian reservation is entirely in South Dakota, The state of Nebraska has never ceded jurisdiction of this strip to the general government. This strip of hind was originally withdrawn from public entry in order to enable the Indian bureau to prevent the

The report of City Engineer Rosewater was submitted to the council last night. The recommendations read as follows: The city ought to establish its right to or procure the necessary frontage at an

Mayor Vetoes Resolution Taking Matter Out of Hands of Advisory

Board and Council Over-

rides Veto.

The city ought to establish its right to, or procure the necessary frontage at and helow Poppleton avenue by condemnation. If necessary, and maintain the dump as a proper public place for refuse disposal un-til better facilities can be developed or a suitable contract under proper specifica-tions for ten or more years can be entered into for disposal by inclneration, as is done by a large number of the leading cities, under private control, or until the city can be permitted to provide for public garbage collection and destruction without direct cost to the property owner other direct cost to the property owner other than general takation. This method is practiced almost exclusively abroad, and is the ideal from the point of health view. The report briefly reviewed the present situation and a vast amount of data collected during two years was presented. The proposed extension of the city garbage company's contract is regarded with disfavor, and the average cost under municipal operation shown to be much less than It has been costing the citizens of Omaha. The engineer suggested that fire masonry cesspools, connected with large sewers in many parts of the city, be constructed to solve the night soil problem. The entire

matter was referred to the committee on fire, water and police. Another Fire Engine Squib. Still another round in the interminable

fire engine controversy was pulled off be tween the mayor and council, his honor sending in the following veto, which was properly put down and out by unanimous

I return herewith without my approval A return herewith without my approval document No. 96 passed by your honorable body at your last regular meeting. Janu-ary 5, 1964. This document is a concurrent resolution, directing the city clerk to advertise for bids for furnishing a fire engine and other fire appartus for the use of the fire department of the city of Omaha.

f the city of Omaha. I veto this resolution for the following Freeman. Solon, regular, Charles J. Shi-

I veto this resolution for the following reasons: First-It is an attempt in violation of the charter to transfer from the Advisory board to the city clerk the duty of advertising for bids for city supplies. Becond-It is an attempt by the council in violation of the plain provisions of the charter to usurp the powers of the Advisory board to reject bids for such supplies. Third-It is an attempt by the council to usurp the power and duty of the Advisory board, in advance of accepting a bid or making a contract, of determining who is the lowest and best bidder and what par-ticular article advertised for is the most suitable or desirable. Conceding it to be true as stated by As-sistant City Attorney Herdman, that under the charter the authority to determine the necessity of purchasing supplies and the ordering of the purchase of the same rests upon the mayor and city council, it by no means follows that the primary duty in ad-vance of the ultimate reviewing authority does not rest with the Advisory board. The

means follows that the primary duty in ad-vance of the ultimate reviewing authority does not rest with the Advisory board. The provisions of the charter construed together clearly show that the duty of advertising for bids, receiving bids and making con-tracts for supplies is with the Advisory board, and that therefore the mayor and council are empowered to reject of approve any such contracts.

council are empowered to reject or approve any such contracts. Section 106 of the charter provides as fol-lows: "The Advisory board shall receive bids for all material and supplies required by the city upon reasonable advertisement therefor, and shall award contracts based upon such bids to the lowest reasonable bidder, and shall pass upon all bills there-for, subject to the approval of the mayor and council."

for, subject to the approval of the mayor and council." As expressly stated by the charter, the Advisory board and not the council or city clerk shall receive hids for all supplies re-quired by the city, and it is the Advisory board that is empowered to award con-tracts subject to the approval of the mayor and council. The authority of the mayor and council is merely to approve or reject such contract after it has been awarded. The provision above quoted is not, as stated by Assistant City 1 thorney Herdman in his opinion to the city clerk. "the only provis-ion in the charter relating to the authority of the Advisory board in such matters." but the following additional provision hears on the authority of the Advisory board and clearly provides that the Advisory board and clearly provides that the Advisory board. and not the city clerk, should advertise for supplies:

days, according to reliable information received here, and there is good reason for belleving that the reply will be so worded istration, and we have this result; as to prevent an immediate rupture, leaving both governments in a position to con tinue negotiations looking to a pacific set-

ceived here the Japanese cruisers Kasag and Niasin, bought at Genoa from Argen tine, have gone in the direction of Gibraltar, followed closely by British ships.

ATCHISON, Kan., Jan. 12 -- Millers here have received communications from Japanese merchants asking for prices on flour and saying that flour in large quantities may be wanted by Japan soon. The millers have answered, refusing to ship flour unless they are paid in United States money and unless the insurance companies will

cities.

# City Garbage Contract. A resolution was adopted extending for

five years the lease of the City Garbage company for a strip of Leavenworth street

25 feet long from the B. & M. tracks south to the river. Councilman Back said the ground is used for a stable and had no onnection with the city dumping ground. The proposition of the garbage company to give the city a "free" dump in consideration of a five-year extension of its contract and the payment of \$2,000 annually.

was referred to the fire and 'police committee. At its request the Board of Public Works was authorized by reso'ution to advertise for blds for the construction of permanent

sidewalks during 1904. Councilman Back attempted to have passed a resolution setting aside \$200 to pay for the serving of sidewalk notices, but later withdrew it upon the statement of City Attorney Wright, who said that all ordinances ordering sidewalks heretofore passed are illegal in view of a recent district court decision. This decision holds that the material to be used must be speci-

fied and that the customary phrase "brick, stone or artificial stone" will not do. Balance in City Funds.

Comptroller Lobeck submitted the following statement of the condition of funds annary 11 1904:

### Dies as Result of Accident.

LINCOLN, Jan. 12.-(Special Telegram.)-Charles Griver, the youth who was accidentally shot a few days ago while out hunting near Havelock, died at a late hour tonight at the hospital. Owing to the length of time which elapsed between the injury and receipt of surgical aid little hope was entertained of his recovery from the first.

## Chicago Inspects Churches.

CHICAGO, Jan. 12.—The city building de-partment, beginning with the First Metho-dist church in the downtown district, today, instituted a searching inspection of Chi-cago churches to learn if they comply with the ordinances provided for the safeguard-ing of life.

# MINER HIT

#### A Gold Miner on the Coffee Question. Many a rugged constitution has broken fown by the use of coffee:

"I and my sons are miners and have been strong coffee drinkers. I will add I followed mining for fifty years. Nearly threes years ago my son had palpitation of the heart so bad that after a hard day's work he would be almost unable to get his breath when lying down, and I was a victim of constipation, headache and could not sleep soundly.

"So I pulled up stakes one day and started to see a doctor and curiously enough an old acquaintance I met on the way steered me off. We stopped and talked and told each other all the news and I told him about our troubles. He said it was coffee doing the work and that using Postum in place of coffee cured him of almost exactly the ailments I described. "So instead of going to the doctor's I sent for some Postum although I did not have much faith in it, but to my great joy it turned out all right and after we quit

coffee completely we both began to get well, kept it up and are now both of un strong, well men with none of the old troubles. A miner is supposed to be able

the auditor's report relating to insurance. I was formerly of the opinion that an in-dependent insurance department should be created, but I have changed my mind, and I now believe that the wiser course is to I now believe that the wiser course is to leave the work where it is, giving to the auditor authority to employ a force suffi-clent to transact the business in an efficient way. I concur in the recommendations of the auditor that he should have authority to employ at a yearly salary an examiner and actuary, with such clerical assistance as may be necessary.

# Fraudulent Insurance.

cur also in the recommendation that I concur also in the recommendation that an effort be made to define what a contract for life insurance is. In these days life in-surance takes on no many phases and the ingenuity of managers is so great that every kind of indemnity and investment, fair and unfair, honest and fraudulent, is offered to the people as life insurance. I believe that a statutory definition can be devised broad enough to embrace every legitimate contract and that would facili-tate the work of the auditor in excluding contracts which are either fraudulent or which belong to some other field of enter-prise.

prise.

prise. I concur most heartily in the recommen-dations relating to reinsurance or consoli-dation. It is highly necessary for the pro-tection of the policy holders that the state shall determine the conditions under which one company shell be absorbed by another. Upon my own behalf I earnestly urge upon you an amendment to the law which shall provide that all fees paid by insur-ance companies for examination, or for any other service rendered under the direction other service rendered under the direction of the state, shall be paid into the state treasury, and that whatever compensation is allowed to those who perform the work shall be paid by the state.

### Mulcting Insurance Companies.

Maletiag Insurance Companies. I am led to comment on this subject with unusual emphasis, largely on account of some matters which occurred during the four years in which Frank F. Merriam was auditor of state. Toward the close of his last term it was charged by various foreign itsurance companies that he, together with his insurance examiner. Mr. Max Beehler, had made, or pretended to make, a large number of examinations which were with-out the authority of the executive council and for which fees and dishursements were exacted grossly in excess of fair compensa-tions made and expenses incurred. The record of the executive council did not dis-close any authority for such examinations. When Mr. Merriam's attention was called to the matter he said that the members of the exocutive council had given him oral authority, and his recollection in this re-spect was verified by letters from former members. As governor of the state I then made an examination of his office for the purpose of ascertaining what companies busements had been charged. I at once discovered that the books of the auditor's busements had been charged to the subject. The only papers that could be found relating to the examinations un-der consideration were some reports of ex-aminations. In this situation the auditor's authority, the daylee of the attorney general, to complete his books in this re-spect, so that we might know what had I am led to comment on this subject with

# Demands an Investigation.

troubles. A miner is supposed to be able to stand great hardships, but we could not stand coffee. It was killing us. Anyone of wing the directions on the package of he can get from the best coffee.
Think every coffee toper should know postum will cure him of his aliments, be siden by Postum Co., Battle Creek, Mich. Coffee hurts nearly all who drink it and soaks some people very hard. There is a sure way out of the trouble by quitting coffee and using Postum.
And "there's a reuson."
Took in each package of a copy of the famous little book, "The Road to Well-vile."
Demands an Investigation.
Domands an Investigation.
No man should be judged without a hearing, if may be that they can explain what they have done so that all adverse criticism will be unwarranted. I think it is your duty to prive them an opportunity to do so. Upon the face of the papers that I have received, it ap-pears that many of these examinations were not in good faith, were without value, and that the farce was enacted for no other purpose than to collect money that had not been earned. It seems that from the auditor hear is paines paid what was demanded of them imply because they knew that the auditor hear is power which he could exercise to their injury. It is due to these men as weil that these matters be investigated by a committee having authority to ascertain

merits your most serious consideration. Being charged with duties in the enforce-ment of the statute. I have given to it abd to its results most careful thought and in-vestigation. I believe that the general principle of the law should be preserved. for its influence upon men given it labits of intemperance, but who fear the Lamila-tion of confinement; but I say without hesitation that if it cannot be amended it should be repealed. The plan of sending inebriates to insane hospitals is bad, not only for inebriates, but for the insane. This is the uranimous opinion of the board of control, of all the superintendents of the hospitals, and I have superintendents of its ill-effects to lead me into an earnest appeal to provide some other place of de-tention. believe, further, that the minimum term

The Inchrinte Law.

I believe, further, that the minimum term of confinement should be one year. To me it is absurd to declare that any person who is in such condition as to warrant his with-drawal from the community on the ground of inebriety can be cured in thirty days. I believe, further, that when physically able inebriates in confinement should be given an opportunity to work and be re-quired to do so. It is clear that wherever they are confined they should be so guarded, either by walls or attendants, that they cannot escape.

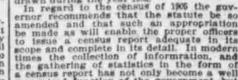

# Primary Election Law.

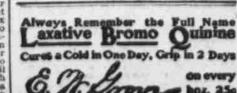

Primary Election Law. There has been much discussion in Iowa during the past two years respecting a primary election law, and I believe that public opinion has gradually ripened so that there is now a great preponderance of sentiment in favor of some regulation that will insure common decency and fair-ness in the nomination of candidates for office. There is practically no fraud, dis-honesty or even unfairness in the conduct of general elections, but the manner in which caucuses, party primaries and other proceedings leading up to nominations are held and the practices which attend there intolerable with clean, fair-minded people. While I recognize that there are wide differences of opinion concerning the scope as well as the detail of such a law. I ven-ture to express the opinion that it should have the following features: — Trat-It should include all municipal, county, state and congressional offices filled

as well as the detail of such a law, I ven-ture to express the opinion that it should have the following features: First-It should include all municipal, county, state and congressional offices filled by the voters. Becond-The primary election for all po-litical parties should be held at the same place and time. Third-It should include a system of reg-istration, where registration is now re-quired at general elections, and where reg-istration is not required at general elec-tions it should include an adequate plan for identifying the voters. The capital commission has submitted to me a report, which is now laid before you, showing with great pression what it has done and the reasons which have in-fluenced it in adopting its plans and making its exceed it in adopting its plans and making its expenditures, and in creating the obli-gations which it shows. They considence in the discretion of the eminent sentlemen who compose the hody, it gives me pleasure to say that I have heartly approved of all that has been done. It is not surprising that when the com-mission came to critically examine a build-ing which has stood without substantial repairs since its foundation was laid, thirly years ago. It found many things to be done which had escaped the observation of the eraliminary commission, and that it discov-ered that the cost of the work was largely in excess of the estimate. General Recommendations.

# General Recommendations.

General Recommendations. It was with the advice of the executive council that the location of the warehouse just north of the capitol and the character of its construction were determined. The commission acted wisely, in my opinion, when it combined the work relating to heating, ventilating, electrical equipment and elevators, involving an obligation in excess of the sum which could be legally drawn during the year 198. In regard to the census of 1986 the gov-ernor recommends that the statute be so amended and that such an appropriation be made as will enable the proper officers to issue a census report adequate in its scope and complete in its detail. In modern times the collection of information, and the gathering of statistics in the form of a census report has not only become a well recognized function of the government, but a necessity for the guidance of society.
