REASON FOR OPPOSING CONFIRMATION

Believes Grievous Injustice Has Been Done in the Preferment of General Wood Over Older Army Officers.

WASHINGTON, Jan. 12 .- Senator Scott ington. The chapter now has a memberof the senate committee on military affairs ship of 124 women. During the business has submitted in executive session of the session the chapter endorsed the present senate a review of the evidence introduced state regent, Mrs. A. Allee of Omaha, and before the committee in the hearing in the the state vice regent, Mrs. J. B. Kellogg nomination of Brigadier General Wood to of Lincoln, for re-election by the Contia major general. Senator Scott gives nental congress to be held at Washington his reason for opposing confirmation. He in February. The recommendation of the quotes many points brought out against state board to levy a 10-cent per capita General Wood, particularly those in con- tax upon members for the benefit of the nection with charges that General Wood state work, was also ratified by the chapaccepted gifts from the Jai Ali company, a ter, as was the recommendation that the gamtling institution of Havana and was several chapters bear each its part of the guilty of complicity with Major James Runcle in the preparation and publication Mrs. A. J. Sawyer of Lincoln on the Lewis of an article reflecting discreditably on and Clark expedition, which is to be sold Major General John R. Brooke, his rank- at 25 cents a book, the proceeds to go to ing officer.

Senator Scott makes a strong personal argument to the senate in opposition to General Wood to be a major general. He prefaces his remarks with the statement that confirmation to so high a position as that of major general should be made with due deliberation and the person to be confirmed should be highly qualified and in every way worthy and above suspicion.

Commenting on a statement in the brief Senator Foraker, calling attention to the fact that it was President McKinley that jumped General Wood over hundreds in the army, Serator Scott said: "We are told that Augustus boasted that he found Rome of brick and left it of marble, and so, perchance, may General Wood lay claim to the boast that he found Cuba a den of filth and disease and left it with a sewerage system. This, however, goes to his credit as a physician, and as a sanitary like amount, for the purchase of officer, and does not in any sense show his logical books to be placed in the Omaha fitness to command a body of troops. The testimony of General James H. Wilson, concerning the advancement of General are expensive and are of use chiefly to Wood, is quoted at length, including that patriotic organizations it was suggested portion which asserts that General Wood that the two chapters present books to was not in the battle of San Juan.

In reference to the support given by General Wood to gambling games played in the tion of officers followed. Mrs. John R. All company's "fronton," Senator Scott Webster was elected regent; Mrs. J. W. say it is showed by the testimony that Griffiths, vice regent; Mrs. G. M. Strain, General Wood was an habitual attendant of the game, especially spending his Sundays there, on which days the betting reached as high as \$50,000. Senator Scott Mrs. I. N. Hoyt, registrar; Mrs. R. N comments on the evidence intended to reflect directly on General Wood's character as a man by impeaching his integrity and veracity, and then after summing up other charges, said:

To my mind a most grievous injustice has been done in the preferment of General Wood over a hundred or more old army officers—officers who won distinction on many bloody battlefields—battlefields where more lives were lost and more prisoners, taken in one day than during the entire Spanish-American war.

In the Treatment of Humours with More Than Magical Effect with

CUTICURA REMEDIES.

A Remarkable Testimonial from a Most Intelligent and Trustworthy Lady.

" A tumor came on my neck and in a day or two it was as large as half an erange. I was very much alarmed for fear it was malignant. My friends tried to persuade me to consult my physician; but dreading that he would insist on using the knife, I would not consent to go. Instead, I got Cuticura Resolvent and Cuticura Ointment. I took the former according to direc-tions, and spread a thick layer of the Ointment on the swelling. On renewing it I would bathe my neck in very warm water and Cuticura Soap. In few days the Cuticura Ointment had drawn the awelling to a head, when it broke. Every morning it was opened with a large sterilized needle, squeezed and bathed, and fresh Ointment put on. Pus and blood, and a yellow, cheesy, tumorous matter came out. In treatment completely eliminated the tumor. The soreness that had extended down into my chest was gone, and my neck now seems to be perfectly well.

"About five or six years ago my sister had a similar experience, used the Cuticura Remedies with magical effect. I am willing you should use my testi-monial, with the further privilege of revealing my name and address to such persons as may wish to substantiate the above statements by personal letter to me." They must be physically sound in every particular. The committee would suggest to boys who propose to take this preliminary examination that it would be well for them to take a medical examination before taking part in the intellectual competition. It would be sheer waste of time for any boy to make ready for the mental examination unless he can have a reasonable expectation of passing the rigid physical examination required by the government. It may save some boy, too, the humiliation of failing to gain the first, second or third place in the mental examination to know beforehand that, on physical grounds, it would be useless for him to compete at all. Candidates, however, may do as they please in this respect. The present com mittee has nothing to do with physical fitness, except to give such information as they possess under the rules as to what the government will require as to physical perfection. Candidates will be examined in spelling, reading, writing, punctuation, the use of capital letters, composition, geography, grammar, arithmetic, history, algebra through quadratic equations and geometry. Special stress will be placed on American history and geography, though not of course, to the exclusion of the general subjects. Further information will be given to boys who may desire to engage in the competitive examination upon application to any member of the committee. Will all papers published outside of Omaha, in this congressional district, be kind enough that the second semester of the school to publish this notice in full, or in subyear would open on Monday, January 18. stance, in order that all boys in the district may have ample notice and equal opportunity to compete? OMAHA, Neb., Jan. 11, 1804.—To the Sunday Bee of January 10 the letter which Mr. Moses H. Sydenham, from Kearney, Neb., sent you. That gentleman, because of the misdeeds of his friend, Fred J. Harrison, wants to make us believe that the reason so many of our citizens go wrong is because our public schools do not teach us christian merality. I am a Jewess and have spent half of my life in Omaha public schools, and never was taught Christian morality, yet I know right from wrong. Why, every one of our readers and histories teach us right from wrong, without introducing Christianity in them. There are thousands of cheerless homes in this country filled with discontent and unhappiness, lacking in love and companionship through the sexual weakness and physical impairment of a man whose years do not justify such a condition. Indiscretions, abuses, and recklessness often cause a temporary cessation of vital power that instantly yields to the won The proposition was filed yesterday with derful treatment discovered by the great Councilman Nicholson, who brought it up specialist, Dr. H. C. Raynor, of Detroit, at the general committee meeting. He said Michigan. It has remained for this great that Guy C. Barton had threatened to en- physician to discover that sexual weakness and similar troubles can be cured and in remarkable short spaces of time. This treament does not ruin the stonach, adding the miseries such injury en-
