

Wagon Deliveries Every Day to Walnut Hill and Benson

# BENNETT'S THE TRADING STAMP WAR

The substance of the 4th "argument" offered by the Retail Grocer's Association as to why GREEN TRADING STAMPS are an evil, is: "That TRADING STAMPS are making millionaires out of schemers; and that the money is coming out of the Poochish People, who pay 10c more on the dollar for goods to get Trading Stamps; that they collect 1,000 stamps at a cost of about \$0.80 to themselves, in return for which they get something worth about \$1.75."

Now, dear brother, at one time you say that Trading Stamps are a tax upon the merchant. In this "argument" No. 4, you switch and say that it comes out of the Poochish People. The more you try to down Trading Stamps the less luck attends you.

You say that the Trading Stamps are taking a half million dollars out of San Francisco a year. San Francisco must be much more wide awake than Omaha, but we think you are ridiculously off in your statement all the same. Men have become millionaires by means of a much less worthy side-walk than Trading Stamps.

However, we have proved conclusively that the Poochish People, as you choose to call them, do not pay 10c more on the dollar on goods at Bennett's. Now, you know this is not you know that it has paid you and your kind to watch Bennett's ads, and overstock your little stores with Bennett bargains. You didn't do this because you wanted to swell Bennett's sales, but because you wanted to play the dear people for more profit with goods you bought at the cheaper than you could buy from your jobber. We have proven again and again that the Stamps cost the customer nothing; that it's because of our cash discounts on our cash purchases, and selling for cash and having no loss on account of errors (bad debts), that we can afford to give Trading Stamps whether you can or not.

Your inability or unwillingness to give your customer what they can get at Bennett's is your own affair. We haven't a word to say as to how you should run your business.

If you will come, any of you, to the Trading Stamp Parlor on our second floor, or visit the Parlor at 210 N. 18th street and ask the attendant to show you any SINGLE BOOK premium, and if you don't admit that it's worth FIVE TO SEVEN DOLLARS of anybody's money, you are not worth any reasonable man's attention. No, sir, you have not yet proven your case, and so it will be GREEN TRADING STAMPS WITH ALL PURCHASES IN ALL DEPARTMENTS ALL THE TIME AT BENNETT'S. WE WILL TAKE UP NO \$ LATER.

## Great Alteration Sale of Blankets

- FINE ALL WOOL BLANKETS—We have about 50 pairs left of our fine \$3.00 and \$2.00 all wool blankets; they are in pretty silver gray, with pretty border; for this great alteration sale we have marked them down to per pair..... **3.49**

## ARGUE THE LILLIE APPEAL

Attracts Largest Crowd to Supreme Court of Any Case in Long Time.

### AGRICULTURAL BODIES IN SESSION

W. R. Mellor of Loup City Succeeds J. B. Dinsmore of Sutton as President of the State Agricultural Society.

(From a Staff Correspondent.) LINCOLN, Jan. 20.—(Special.)—All of today's session of the supreme court was taken up by attorneys in arguing the Lillie murder case.

Interest in this overshadowing any case that has been tried in the court in recent years, with the exception of the revenue case. Mrs. Lillie was convicted on the charge of murdering her husband at David City on October 24. A new trial was denied her, and she appealed to the supreme court. She was given a life sentence, but still remains in the jail of Butler county.

Two pictures of Mrs. Lillie were presented to the court. The eloquent attorneys for the defense drew her as a loving and devoted wife, who could not, by any stretch of the imagination, have been guilty of the crime laid at her door. The representatives of the state pictured her as a woman, mad with the lust for money, driven to desperate deeds by speculation on the board of trade. Each side quoted from the testimony to prove its drawing was correct.

On behalf of the state it was insisted that the evidence leaves no other possible hypothesis than that she was guilty. It was pointed out that notwithstanding her husband was in receipt of a good salary, Mrs. Lillie loved money so well that she set up a dressmaking establishment in her own home, from which she made about \$50 a month. Unknown to her husband she began speculating with the money she had made and saved in business, and up to August 7, 1902, had been successful. Then came a turn in her luck and between that time and October 24, when Harvey Lillie was assassinated, she dropped \$10,000. The state's theory is that the desire for more money caused her to commit the deed, knowing that Lillie carried insurance amounting to \$5,000 on his life.

The defense insists that the verdict of guilty is not justified by the evidence, and that there were most grievous errors committed by the court in its instructions and in admitting in evidence that is not proper and which was highly prejudicial. Mrs. Lillie and her friends are leaving no stone unturned to secure a reversal. A new attorney appeared in the case now, who were not of counsel when the defendant was tried. These are Judge Hamer and ex-Senator W. V. Allen. When the case was called this morning the court room was well filled. Prominent among the spectators were Mr. and Mrs. Hill, the parents of Mrs. Lillie. The court announced that it would give each side two and a half hours.

**Chicken Show Safe.** The various conventions of the agriculturists are still on and the interest is still all that could be desired. The people of Lincoln who feared that the chicken show might be lost to them were assured this morning by the secretary of the Commercial club that no such calamity would happen, as the club owns a lot upon which it is willing to erect a suitable building for the use of the chickens if the management will bring the show back next year.

**State Board of Agriculture.** A meeting of much importance this morning was that of the State Fair board. W. R. Mellor of Loup City in his new position, having defeated the old president, J. B. Dinsmore of Sutton, at the meeting held this morning. R. W. Furnas of Brownville, secretary, and E. McIntyre of Seward, treasurer, were re-elected by acclamation. Of the members whose terms expired the following were re-elected: Charles Mann, Dawes county; V. Arnold, Richardson; S. C. Bassett, Buffalo; E. McIntyre, Seward; W. R. Mellor, Sherman; L. Morse, Dundys; T. A. McKay, Hamilton; Peter Younger, Fillmore; G. W. Hervey, Douglas; W. Foster, Lancaster. Two retiring members, E. L. Vance of Lawrence and W. Cole of Neligh, were not re-elected.

New members elected are: W. A. Apperson, Johnson; Joseph Roberts, Dodge; R. M. Wolcott, Merrick; E. Q. Russell, Washington; to fill vacancies, Cyrus Horton, Furnas. When the morning session opened H. L. Cook of the committee to consider reports of the secretary and other officers submitted a report containing recommendations. One was that a limit be placed on the number of stables or pens assigned to an exhibitor of live stock.

**Salary of Secretary.** "In the matter of a readjustment of the salaries paid officers of the board," said the report, "your committee finds a considerable difference of opinion as to the amount to be paid, under the rules of the board for the support of the office of secretary. "Your committee recommends that the salaries paid the various officers of the board remain as at present, it being understood that the salary of the secretary shall be in full of all compensation for services and clerical help necessary for the support of said office other than extra clerks needed immediately preceding and during the fair and in the folding and mailing of advertising matter connected with the fair.

In view of differences of opinion as to amount to be paid as salaries your committee begs to suggest that article 12 of the by-laws be amended so as to provide that warrants drawn for the payment of fixed salaries or for appropriations made by the state board which in session shall be on vouchers approved by either the president or the chairman of the board of managers." The recommendation in reference to the compensation of Secretary Furnas precipitated considerable discussion. The weight of sentiment seemed to be that he should not be made to stand the expense for clerk help out of the treasury. The report was amended to allow the expenditure, in the discretion of the board, of \$800 a year for extra help for the secretary's office.

A report of the auditing committee was to the effect that the financial reports were, after some slight correction, all right. A resolution was adopted directing the appointment of a committee to draft a measure for enactment at the next legislative session to take the place of the one recently repealed, which provided for county appropriations in any of county agricultural societies.

**Horticulturists' Meeting.** The State Horticultural society re-elected all of the old officers save one, Harry S. Harrison of York succeeding W. J. Hesser of Plattsmouth as vice president. The officers are: President, G. S. Christy, Johnson; first vice president, Harry S. Harrison, York; second vice president, E. M. Pollard, Nebraska; treasurer, Peter Younger, General secretary, L. M. Russell, Lincoln. The directors are Charles Saunders of

Omaha, C. H. Green of Fremont and George Marshall of Arlington. They succeeded C. H. Barnard of Table Rock, H. S. Harrison of York and J. G. Neff of Davey. The following papers were read and generally discussed: "Western Ornamentals," C. S. Harrison, York; "Carnations," Irwin Frey, Lincoln; "Ornamentals for Outdoor Planting," Ed. Dole, Healy; "Fruiting," J. S. Stuedgen, Johnson; "Diseases Arising from Insects," F. E. Hart, the best of the most suitable to Plant and Care of the Orchard," J. A. Hogg, Shelton; "Care of Houses," F. A. Hogg, Shelton; "Care of Hedgerows," assistant pathologist botanical garden, L. Louis, Mo.; "Lawrence Lawrence Bruner, Lincoln; "Our Schools of Horticulture," L. O. Williams, Lincoln; "Horticulture in the Mississippi Valley," J. M. Irwin of the Western Fruit Grower, St. Joseph, Mo.; "Horticulture," Horticulture, Louisiana Exposition, E. M. Pollard, Nebraska.

**Conference on Irrigation.** The conference of irrigators which will be held tomorrow at the state fair will be an occasion of much profit to all interested in this question in the state. The conference will be held in room 203, exposition station, state fair, commencing at 10 o'clock, and will continue throughout the day.

The following is the program in part: "Practical Procedure Before the State Board of Irrigation," Adna Dobson, state board secretary, Lincoln; "Irrigation and Drainage of Alkali Lands," Frank Mesagry, Lexington; "Capitalized Irrigation," Ditch at the Semi-Arid Regions, Hon. Henry E. Lewis, Lincoln.

**Metrical Irrigation in the North Platte Valley.** Hon. W. H. Wright, Scott's Bluff. "Recent Observations of the Water Supply of Nebraska," Prof. G. B. Stout, irrigation engineer, University of Nebraska. The present outlook from the standpoint of irrigation, by Francis J. Hamer, Kearney.

Discussion of above and other topics concerning this subject, will be held during the day. The friends of irrigation and agricultural interests in Nebraska are invited to attend this meeting.

**Labor Opposed to Grant.** The State Society of Labor and Industry was busy today on resolutions, and this was the result: The State Society of Labor and Industry, desiring to place the seal of its emphatic condemnation upon the practice of graft, by a resolution of the laws and customs, social, political and governmental life, poisoning the very fountains of justice and destroying the equality before the law, without which a republic is verging upon despotism, hereby adopts the following resolutions:

Resolved, That we express our horror and denunciation of the practice of graft, in all its forms, and denounce the men in every walk of life who have been guilty of this practice, and who have prostituted their high and noble positions to the end that they may line their pockets. Resolved, That we call upon our public prosecutors to bend their energies toward the exposure and punishment of the men and demand of them that the rich man as well as the poor man, the man who bribes a legislator, the man who bribes a juror, the man who accepts a gratuity for his influence or for overlooking some part of his official duty, be held responsible for their crimes before a court of justice.

Resolved, That we ask of our legislative body, a stringent law against this most insidious of crimes and urge upon the people the necessity of immediately realizing in our young men and women a realization of the necessity of putting the man above the dollar.

**Discuss Revenue Law.** The county assessors from seventy-five counties met this morning in the senate chamber for an all-day session. Governor Mickey delivered an address of welcome and urged upon the assessors the necessity of taking the actual value of the property and assessing one-fifth of that to carry on the intent of the law. He spoke at some length of the past practice of assessors to place a value of \$5 or \$6 an acre on land that was worth \$40 or \$50. Auditor Weston talked along the same lines and urged a careful study of the revenue law. General Culver also talked.

At the close of the day the assessor in a careful discussion of the new law, section by section, wherever there was any doubt of the intent of the legislators. The meeting continued all day and from the expression of the assessors the revenue law will be given a fair trial.

**State Dairy Association.** At the State Dairymen's association S. C. Bassett made the practice of the dairy law in a well considered paper this morning. Dairy products, he said, had reached a total of \$20,000,000 and to the hand separator he gave most of the praise. L. D. Stetson of York read a paper on proper care of the cow, insisting that warm quarters and good feed were her due.

**SMUGGLING OPIUM TO PRISON** Former Convict Said to Have Admitted Implicating Guard at Penitentiary. (From a Staff Correspondent.) LINCOLN, Jan. 20.—(Special Telegram.)—The story of opium being smuggled into the penitentiary as told by an ex-convict and published in The Bee some months ago, "The convict" started this morning, when it was reported to Governor Mickey that a former convict had made affidavit to the effect that prisoners were getting the drug through their friends on the outside, who worked the smuggling through some of the guards.

At the time of publication the matter was thoroughly investigated, and while it was found that the convicts were getting the opium no evidence was found that would warrant the charge that Warden Beemer or his employees were implicated. The warden discovered several clever schemes that were used by the prisoners and their friends on the outside and reported to Governor Mickey, who ordered a strict watch kept and a thorough investigation made. The governor stated this morning that he believed the smuggling had all been stopped and that the prisoners were not now receiving any drugs.

**Farmer in Hard Luck.** NORFOLK, Neb., Jan. 20.—(Special.)—Joseph Vlasny of this city has had more than his share of hard luck. Last spring, when the Elkhorn river ran out of its banks, it licked off six acres of the choicest beam upon Mr. Vlasny's farm. The current also stole his barn and well. Later on a son broke his arm in a scuffle in school. Just as this boy got out of bed another got in with pneumonia. A third son was stricken a little later with the same disease and then Mr. Vlasny's father died. A day or two ago his wife suffered a serious compound fracture in a runaway, and just as she was made comfortable by a surgeon she was taken ill.

**Baptist Meetings at Trembeck.** TREMBECK, Neb., Jan. 20.—(Special.)—Evangelistic meetings are in progress at the Baptist church here, in charge of the pastor, Rev. W. F. Smith. The attendance is good and a satisfactory outcome is anticipated.

Piso's Cure for Consumption will stop a cold at once. Always keep it handy.

## FIREMEN CAPTURE FREMONT

Large Attendance from All Over State at the Annual Convention.

### ELECTION THE CENTER OF INTEREST

Grand Island After the Next Convention and Indications Are that it Will Get What it is After.

FREMONT, Neb., Jan. 20.—(Special.)—The twenty-second annual convention of the Nebraska State Volunteer Firemen's association met at the district court room at 8 o'clock last evening. Every train yesterday brought a goodly number of visitors, most of them coming on the afternoon trains on the Northwestern. They were met at the depot by a reception committee and taken to the city hall in a large horse wagon, labelled police patrol, and were in charge of A. C. Hull and Chief Mortenson. According to the usual custom at the firemen's gathering, swapping badges began as soon as the visitors reached town, and today a majority of the visitors are wearing bunches of from fifty to one hundred ribbon badges, fastened to their coats on large safety pins. Many of the badges are unique and the demand exceeded the supply.

President C. E. Hartford of Norfolk called the meeting to order last evening and introduced Mayor Wols, who extended to the visitors the freedom of the city. Mr. Hartford responded and short speeches were made by a number of the "old timers" and received with applause.

The chairman appointed the following committee on credentials: A. C. Hull, Fremont; W. A. Kern, Norfolk; W. D. Moore, Beatrice; and George Springer of North Bend.

When President Hartford called the convention to order this morning the attendance was much larger than last night, a good many delegations having arrived on the early trains. The committee on credentials submitted its report, which was accepted and the committee was continued, as there were still delegates on the way. About 300 representatives of the volunteer fire companies were present. The reading of the minutes of the previous meeting were dispensed with and the printed proceedings approved. Vacancies on the standing committees were filled by appointment for the session. The convention then listened to a report by J. L. Schieck of Beatrice, the delegate from the Nebraska association to the National Firemen's convention, which met at Chicago in September last. Accompanying the report was a paper read at the national association upon the necessity of a federated fire service organization throughout the country and the benefits to be derived from such an organization.

**President Makes Report.** President Hartford then called Vice President Bauer to the chair and read his annual report. He said he had visited a number of towns, especially in the northern part of the state, whose fire departments were not represented in the state association, and he found in many of them the firemen were not receiving the privileges to which they were entitled by the laws of the state. Secretary Miller then read his report, which was an outline of the business transacted since the last session and of the results of the tournament held at Norfolk last summer. The report of the treasurer was also submitted and the association was found to be in a satisfactory financial condition.

This afternoon the delegates to the convention met at the court house and were photographed. A snow storm and cold northwest wind made this a rather unpleasant feature. The convention then, headed by the Wahoo band, Chief Mortenson of Fremont and Messrs. Clelland and A. C. Hull, were shown the various points of interest in the city. It was a cold trip, but the boys turned up their coat collars and faced the wind with alacrity. After this trip a business session was held in the district court room.

Much interest centers in the election of officers, which will come up tomorrow. First President at the court house and were photographed. A snow storm and cold northwest wind made this a rather unpleasant feature. The convention then, headed by the Wahoo band, Chief Mortenson of Fremont and Messrs. Clelland and A. C. Hull, were shown the various points of interest in the city. It was a cold trip, but the boys turned up their coat collars and faced the wind with alacrity. After this trip a business session was held in the district court room.

**Sends Girl to Reform School.** TREMBECK, Neb., Jan. 20.—(Special.)—Grace Barnes, the 15-year-old daughter of Henry Barnes of Sterling, has been sent to the reform school for girls at Geneva. She was brought into the county court on the charge of incorrigibility.

## BROWNELL HALL

A Boarding and Day School for Girls. Resident Officers and Instructors—Euphan W. Macrae, Ph. B. (University of Chicago), principal. Grace L. Ware, 9 years a pupil here at Trembeck. Delays in composition of music department, piano. B. The Woman's College of Baltimore, mathematics teacher, 6 years a pupil in the Lycée Moliere, Orléans, France; later a pupil of Miss. Cheradame, Paris, and of Prof. Dubout of the University of Paris; also a pupil of Prof. Edward Paul Biot, head of the French department, Northwestern University; from May to September last, 1903, student in Paris; father a native of Louisiana, French Switzerland, lecturer in Paris, St. Germain, Lyons, Metz, and other towns on the Rhine; French, Idella H. Hamlin, G. (Smith College); science, Katherine Thomas, A. B. (University of Nebraska), history. Francis Hesse, (native language, German); 3 years of special work in German at the University of Chicago under the supervision of Prof. Wilhelm W. Taylor. G. Platt, A. B. (Smith College), dramatic expedition to the Alps, Germany, 1901. G. Platt, A. B. (Smith College), dramatic expedition to the Alps, Germany, 1901. G. Platt, A. B. (Smith College), dramatic expedition to the Alps, Germany, 1901.

## ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of The Bee May Have a Sample bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

**DR. KILMER'S SWAMP-ROOT** Kidney, Liver & Bladder CURE. DIRECTIONS: May take one, two or three teaspoonfuls before or after meals and at bedtime. Children less according to age. May commence with small doses and increase to full dose as soon as the case will permit. This great remedy cures all kidney, liver and bladder troubles, such as backache, rheumatism, neuralgia, headache, dizziness, indigestion, constipation, hemorrhoids, and all other ailments of the urinary system. It is pleasant to take. DR. KILMER & CO., BINGHAMTON, N. Y. Sold by all Druggists.

If you are sick or "feel badly" begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

I cheerfully recommend and endorse the Great Remedy, Dr. Kilmer's Swamp-Root, for kidney trouble and bad liver. I have used it and derived great benefit from it. I believe it has cured me entirely of kidney and liver trouble, from which I suffered terribly. Most gratefully yours, A. H. Reynolds, Chief of Police, Columbus, Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue such suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. It makes you water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back joints and muscles; make your head ache and back ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you have no energy; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for those troubles is Dr. Kilmer's Swamp-Root, the world-famous new kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

**How to Find Out.** If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles of matter are visible, your kidneys are in need of immediate attention. Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have tried it, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## DISEASES OF MEN

It is not so much of a calamity that a man contracts disease or weaknesses, but that he neglects them or fails to secure the proper treatment for their cure.

Why wait until your whole system becomes polluted with disease or until your nervous system is tottering under the strain and you are a physical and mental wreck, unfit for work, business, study or marriage? Uncertain or improper treatment can only do harm. There is only one perfect, safe and lasting cure for you, which you will find at the State Electro-Medical Institute. Start right and secure permanent relief. We treat men only and cure them quickly, safely and thoroughly. Every man suffering from any private disease.

Varicocele, Stricture, Kidney or Bladder Diseases, Poisonous Discharges, Blood Poison (Syphilis), Weakening Drains, Impotency, Nervo-Sexual Debility. I WILL CURE YOU.

caused by self-abuse, excesses, indiscretions, or the results of specific or private disease, owing to their family and especially to the future generations to get cured promptly, safely and thoroughly. CONSULTATION FREE—Office hours, 9 a.m. to 8 p.m. Sundays, 10 to 12 only. If you cannot call write for symptom blank.
