PORT ARTHUR, Jan. 22.—High officials here say they believe war or peace will be decided upon today or tomorrow.

After a conference of the heads of all the departments of the Manchurian administration orders were issued that a list of reservists in Manchuria be drawn up, as well as a list of those indispensable for the civil administration which it is impossible to send to the front.

Naval and military stores in unusual quantities are being bought on the condition of immediate delivery. The admiralty authorities, answering inquiries on the part of ship owners, decline to define the rights of neutral ships bound for Japan.

The principal part of the ceremonial discussed in Rome was the adoption of a white silk canopy embroidered with his armorial bearings, under which the new archbishop made his solemn entry into the cathedral.

Canon Moyses of the London cathedral had absolute charge of the arrangements and it was his idea that the ceremony should be conducted on pre-reformation lines by reintroducing some of the usages prevailing when the ancient archbishopric of Canterbury took possession of their office.

The stand taken by the new archbishop regarding the school question and his announcement that by the establishment of middle class day schools for boys at St. John's college, he hoped to obtain some of the government money in support of his new diocesan seminary, has met with general approval in Rome, where much is hoped from the untiring energy of the head of the English Catholic church.

Plus X was strongly impressed on the recent visit of the archbishop to Rome and did not hide his intention to promote him soon to the cardinalial dignity.

The new bishop of Southwark will soon be named. Three candidates have been recommended in Rome, Mgr. Fenton, Canon Amigo of Southwark and Canon St. John, diocesan treasurer.

NO FINANCIAL LEGISLATION

Practically Determined to Take No Action at This Session of Congress.

PROHIBITION OF MEXICAN COIN OPPOSED

Foreigners Resist Introduction of New Silver Standard Because They Can Make Large Profits Out of Cheap Dollars.

WASHINGTON, Jan. 23.—It has been determined practically definitely that no financial legislation will be enacted at this session of congress. Several measures are pending in both branches of congress bearing upon the question. One, at least, of them, it is said, has strength enough behind it to insure its passage by one branch of congress.

Speaker Cannon is of the opinion that no radical legislation of a financial or any other comprehensive character should be entered upon during the present session. At a later time financial legislation may be considered, but even so a proposition it is understood Speaker Cannon is not committed.

Recent Manila advices to the War department throw light on the present agitation on the Philippines over the proposed expulsion of the Mexican dollar from circulation. The banks, conducted for the most part by foreigners, are strenuous in their opposition to the proposed abandonment of the Mexican silver piece, because the large opportunities its use affords for making profits in exchange.

Before the war the Spanish authorities in Manila had prohibited the importation of Mexican dollars. The Spanish authorities even went so far as to import the Mexican money on their own account and recoup it into pesos at a profit of about 10 per cent.

The pesos were not popular and General Merritt ordered the suspension of the decree prohibiting the importation of Mexican dollars and they soon began to pour into the islands from China in great volume. The banks of Manila had been making a handsome profit out of the Philippine peso and just as they now resist the change to the American peso they resist General Merritt's order allowing the importation of Mexican dollars. But an American peso having been provided for by congress the other silver money of the islands must go.

Collectors Are Slow.

The report of the committee contains a statement by Assistant Secretary Armstrong of the treasury on the subject of deficiency for collecting the revenues and a provision authorizing the president to restrict the country. The secretary stated that it is not the intention to abolish collection posts, but that many could be consolidated with economy. He calls attention to the fact that there were something like fifty districts in which it costs \$900 to collect a single dollar.

Several Army Promotions.

This was a red-letter day in army history for retirements and promotions in the army. The general officers retired today, General George L. Gillespie, who has been several years chief of engineers, became a major general and chief assistant to Lieutenant General Chaffee, chief of staff. Colonel Alexander MacKenzie became a brigadier general and also assumed the duty of chief of engineers. Francis S. Dodge retired. Colonel W. E. Daugherty becomes a brigadier general and retires Sunday, giving place to Colonel William McCaskey. Colonel John Story assumed the duties of chief of artillery, with the rank of brigadier general.

Water Famine in Flood.

HARRISBURG, Pa., Jan. 23.—The simultaneous breaking of two of the thirty-inch mains which feed the reservoir and supply water to the network of pipes throughout Harrisburg has caused the worst water famine ever known in this city. Houses, hotels, railroads, mills and factories have been cut off from water. This state of affairs is one of the most serious known in years and is made worse by the flood in Paxton creek, which retards the work of repair.

Five Persons Drown.

SHARON, Pa., Jan. 23.—Four men and a woman who attempted to ford a swollen stream near here today were swept away and it is reported all were drowned.
