The market exhibited renewed signs of life at one time, when on a report that the big holder was selling July oute semeral highdation in that delivery de- vised. The prices quickly dropped to 5% on May soid off in sympathy to 5% of the day. cattle. Good to choice grades are quotable from 8 to 53.6. fair to good from 82.5 to 50.5. Buils are also about a quarter lower than a week ago. The better grades sell from 8 to 63.75 and the commonet or bologna srades from 21.90 down. There has been a fairly good demand this week for bologna buils and prices are not a great deal lower. Veal chives are also a little iower, hut still the best grades bring around 55 and possibly 55.5. There has been a fair demand for stockers and feeders this week in spite of the cold and stormy weather which has kept buyers at home A good many warmed up cattle have sold for feeders but owing to the slump in the prices of fat cattle the feeder buyers would give more for them than would the packers. The best grades of gaad, heavy, fleshy feeders are not so much lower, but the commoner kinds are very dull and un-everly lower. Representative sales: HOGS-There was a moderate run of hogs in sight this morning and with a fairly good demand the market ogened steady and the bulk of the hogs was soon disposed of. The same as yesterday, the light stuff sold from \$4.75 down, mixed loads from \$4.76 to \$4.50, good heavy hogs from \$4.80 to \$4.50, with the top at \$4.50. Toward the close of the market, after packers had their more urgent orders filled, trading was list \$4.50 bits and prime heavies mostly from \$4.80 to \$4.50, with the store also and weak As salesmen wanted the early prices, it was rather baits before every-thing was disposed of. For the week of about \$60 head and as compared with the same week of last year ther and the close of last year the failing off as compared with January prices, it was rather baits before every-the fill was the shout \$60 head to year tendency of prices has been downward, but the net loss only amounts to 55.50 head. For the month of January supplies show a failing off as compared with January ions days to 1 or 20. On Wedneeday the market eased off about \$60. The general tendency of prices has been downward, but the net loss only amounts to 55.50 head For
