TAKES PLACE OF CHEYNEY

E. O. Griffen of Illinois Becomes Northwestern's General Local Freight Agent.

G. F. WEST GENERAL PASSENGER AGENT

J. A. Kuhn is Given Enlarged Functions, Having General Supervision Over Both Freight and Pas. senger Departments.

E. C. Griffin of Batavia, III., has been appointed by the Northwestern to succeed H. C. Cheyney, who left Omaha Sunday to become the Northwestern's general agent at Milwaukee. Mr. Griffin comes in the capacity of general local freight agent. In addition to the appointment of Mr.

Griffin the appointment is announced of George F. West, who is known to nearly everybody in this neck of the woods who rides on trains as the Northwestern's Omaha passenger and ticket agent, to the position of local general passenger agent. This is in the form of a promotion for Mr. West, which all who know him will agree is deserved. Also J. A. Kuhn, assistant general freight agent of the Nebraska and Wyoming division of the Northwestern here, is given larger duties, Mr. West and Mr. Griffin reporting to him instead of to the Chicago office, as did Mr. West and Mr. Cheyney heretofore.

Mr. Griffin formerly traveled for the Northwestern through Illinois and part of Michigan, being once located at Houghton, in the extreme northern portion of that state. He comes with high laurels to his

Burlington to Meet Rates.

Announcement is made by the Burlington that the new grain rates put in effect by the Northwestern Saturday will be met. The new Burlington tariff quoting through rates from Nebraska points to the Mississippi river and Chicago will be out within a few days. The rates go into effect two days earlier than those of the Northwestern, or February 2. The tariff will not contain a milling and cleaning in transit provision like that of the Northwestern. but it is believed this clause will be incorporated later.

Some new instructions regarding grain rates have been received from the general freight agent of the Rock Island, but owing to the numerous instructions received regarding rates during the last few days the officials of that line are at sea as to just where they stand in the rate matter. The new tariff on the Rock Island will be out within the next day or two, and when it is received it will be definitely known just what rates will be in effect. The last message received appears to provide for the same rates through from Nebraska points as are in effect by the Northwestern, with a milling in transit and cleaning in transit privilege.

\$500,000 ON HIS LIFE.

Polley Written for Charles Netcher of Chicago by the Mutual Life.

policy for \$500,000-the largest policy held by any one company on the life of a Chicagoan-has just been issued to Charles Netcher by the Mutual Life Insurance company of this city.

Netcher was born in Buffalo in 1852. When he was 14 years old he went to Chicago to earn his living. He got the job of bundle boy in a retail store. Now he is the proprietor of one of the biggest department stores in Chicago and the owner of a large amount of real estate.

There was keen competition among the insurance companies of the country to write this large policy.-From The S New York, Jan. 17.

Announcements of the Theaters. theater may be secured for 25 cents, the attraction being the Inex Forman company, with John Dillon in the cast, presenting "East Lynne." The same piece will be given this evening also.

On Thursday Blanche Walsh returns to the Boyd to present for three performances her greatest play, "Resurrection," based on Tolstoi's powerful novel of the same name. In the character of Katusha Maslova Miss Waish has reached the acme of realism, and by her strong personality and art forces home some truths in a way never before attained. At no time has there been a stronger scene on the stage than the prison scene in "Resurrection." It is sublimated realism, and is not to be forgotten by anyone who has ever seen it. The engagement includes a special matinee

Sam'l Burns' annual Feb. reduction sale is now going on; 10 per cent off everything.
