Hold Lands for State.

\$220,879.17

Another chapter in the famous Boyd county land case has been reached and again the contention of Land Commissioner Folimer that the land belongs to the state and not to the general government has been austained by the Department of the January 22 and it was received this morning by the land commissioner from the land office at O'Neill. The decision upholds the action of the register and receiver at O'Neill in rejecting the application for homestead.

With the opinion from Washington it is stated that the sixteen homestead appliwhose case has been made the test case) raced in approved selection lists.

No Fight on Bryan,

Even though a majority of the democrats of Nebraska do not believe as does William J. Bryan that the Kansas City platform should be re-affirmed, the indications are now that no fight will be made on Mr Bryan's candidacy for a place on the Nebrazka delegation to the national democratic convention. While there are enough democrats in the state who have swerved from the beaten path of Bryanism to make an interesting fight against him, there are reasons for not fighting him at home. One prominent democrat, who like many

others prominent in the party, has laid aside his views on silver, probably voiced the sentiments of many others when he said Mr. Bryan should go to the national convention and have a hand in forming the platform and in naming the candidate, because even though he is defeated in his ambitions to control the convention, as he ould be a part of the convention, he would be less liable to bolt the ticket.

"I shall not make a fight on Bryan for that very reason. If he be a part of the convention he is less liable to boit the ticket. That he will be defeated in the convention there is no doubt. In fact I see not a ghost of a show for him to win out in his plat form ideas. What has he left upon which to build his hope of success? Teller, Dubois, Towns and even Weaver have turned their backs on the Kansas City platform and with these men acknowledging that free silver is not an issue I cannot see how Mr. Bryan will ever get the next democratic convention to indorse his views.

"I firmly believe that Mr. Bryan has an idea to be the next candidate of the party because no man has yet been mentioned whom he is willing to endorse. But I be lieve that Mr. Bryan hoped that the republicans would imminate Senator Hanna and in that case he would like to match his strength against the republicans. He would stand little show against President Roosevelt, and I believe with the president as the standard-bearer of the opposition Bryan would not want the nomination He knows that he is no stronger in the east than he was and he knows that against Roosevelt in the west he would

Speaking of the action of the Douglas County Democracy in endorsing W. R. Hearst for the democratic nomination for the presidency, this man said he believed that club was acting solely on its own responsibility. "It is more than likely the object of the endorsement was to secure funds with which to carry on a campaign and they endorsed Hearst thinking that he had sufficient money to scatter should it be placed in the right direction. But in this I believe the Douglas county organization will lose out. Hearst comes nearer than anyone else mentioned to filling the mentioned. Therefore he will not be likely \$50,000 to \$100,000. Bankers' Union Case Thursday, The application for an injunction to prevent the Bankers' Union of the World from doing business and for the appointment of a permanent receiver, will be heard by the supreme court Thursday. In the meantime E. C. Spinney, president of the company, got into court this morning with his answer to the charges embodied in the application for the injunction, and he denies every one of the charges. He said neither he nor his wife had ever taken a cent of money from the order that was not rightfully coming to them; that the order was not run in the interest of E. C. Spinney; and all the other charges he specifically denies. He alleges that the application for the temporary receiver was based on a report of an examiner of the insurance department of the state and that the examination of the affairs of the company had not been thorough and was not unprejudiced. He asks the court for an early hearing and a thorough examination into the affairs of the company, because he said the temporary injunction would work much injury to the company, as many assessments now due would not be paid, and Mr. Patrick said that afterward as Patrick many policies would be allowed to lapse. He said the company was able to pay all its losses and was in a good condition. Spinney is represented by Fields, Andrews

SUPERIOR, Neb., Feb. 1 .- (Special Telegram.)-A complaint was filed with County Judge Dysart today charging Harley Feazle with the murder of his uncle, E. W. Feanle place him under arrest. The alleged crime is supposed to have been committed about November 1, and the complaint is signed by a brother of the missing man, who came here recently from Humboldt, Neb., to in vestigate.

E. W. Feazle, the missing man, has for a number of years been the manager of the Nuckolls county poor farm, situated between Superior and Nelson. About November 1 he suddenly and mysteriously disappeared. He was not in particularly hard straits financially and left considerable property belonging to him on the poo farm. His wife went to Nelson and became a cook in the Columbia hotel. Saturday and yesterday she was closely questioned by the sheriff and told several conflicting stories regarding her husband's disappear ance. One of her stories was that he had bought a new overcoat and had taken it with him. A search of the house made in the absence of Harley Feazle disclosed the fact that the overcoat was still there. Last week Charles Hutchinson, a boon companion of Harley Feanle, took sixteen hogs. the property of E. W. Feasle to Nelson and sold them. The theory is that Harley made away with his uncle and is now disposing of his property.

A, warrant has been issued for Hutchinson charging him with larceny. The poor farm will be searched tomorrow for the body of Fearle. Fearle was a man of 50 years and had long been a resident of Superior or upon farms nearby.

County Attorney Says Bridge Contractor Offered Him \$500 to Drop Proceedings Begun Before Judge Day.

Hearst naturally expects were present Saturday at the meeting held Bryan to control the Nebraska delegation at the court house to look into the action and he knows that if it comes to a show- of the county commissioners regarding the him rather than for anyone else so far county's money in the building and repairing of the bridges throughout the county. requesting them to attend the public meeting. The court room was packed, representatives coming from the most remote parts of the county, I. D. Clarke wa. elected chairman of the meeting and G. D. McClaskey secretary. Nearly every one present stated their views of the controversy. A majority of the taxpayers were against the actions of the county board, while some were favorable to them. No definite conclusion was arrived at, as the entire time was taken up in hearing how the taxpayers stood. County Attorney Patrick stated the board's action was clearly illegal, that 78 per cent of the entire levy for last year was used in the repair and building of bridges, and that after the bridge fund had been exhausted the board transferred large sums from the general fund to the bridge fund and continued its expenditures.

Charges Attempt at Bribery.

Mr. Patrick a few weeks ago applied to Judge Day in Omaha for a remporary injunction against the Sheeley Bridge company and the county board prohibiting them from completing the repairs on the bridges. The injunction was granted and was walking down the street in Omaha Mr. Sheeley called him into the Paxton hotel and laid out a plan whereby he would give Patrick \$500 if he would call the fight off and let things stand as they were. Mr. Patrick refused to do this, and later another person representing Sheeley called on Patrick and offered to raise the amount to \$700 if Patrick would cease his aggressiveness. This caused quite a sensation and Chairman Clarke had difficulty in restoring Pierce figures that all of \$22,000 will be paid order. Sheeley was present, but did not

deny the truth of this. An organization to be known as the Taxpayers' association was perfected and L D. Clarke chosen chairman and G. D. Mc-Closkey secretary. Mr. Clarke was given power to call enother meeting in the near future. This case is the sole topic of conversation throughout the county.

Object to "ormer Report.

What the Figures Show.

It was shown by figures taken from the county records that during the year 1903 the expenditures through the bridge fund would aggregate \$28,000, while there was only legally available for such expenditures 55 per cent of less than \$10,000; that for this purpose \$7,000 had been transferred from the general fund to the bridge from the road fund; that the commissioners Officers have gone to Feasie's home to had ordered the construction of fourteen bridges, one of which was to cost over \$10,000, after the expiration of the annual bridge contract with Sheeley; that the construction of thirteen of these bridge had been enjoined at the instance of the county attorney; that the orders given by the county board for the erection of bridges, so far as they appear of record, as to character, dimensions or cost of the bridges ordered, but that such informa-Sheeley; that after an appeal by taxpayers

STOMACH TROUBLE.

Stomach trouble is the most distressing affliction known to humanity, and takes on so many forms that it is often impossible for those without a mudical education to decide from a patient's symptoms as to just what particular ailment is afflicting them. People suffering from this dread disease become nervous and cannot sleep. They have belching and sourness of the stomach, bad dreams, acute stomach pains, or colic, a feeling of fullness after meals, appetites varying from ravenous to that where there is no desire for food.

They have indigestion, constipation, heartburn, yellow skin, coated tongue, bad taste in the mouth, liver trouble, and catarrh of the stomach.

Now all these symptoms mean simply that the stomach has grown weak, and is not properly digesting the food given it. The intensity of action in modern life, the nervous strain in business and society, and the improper mastication of the food all contribute their share towards bringing about this condition.

Many preparations have been offered to the public for the relief of those suffering from stomach trouble which aid temporarily only, for after a little the patient feels worse than before treatment. Within the last six months, however, there has been perfected a remedy for all these ailments, which absolutely reaches the seat of disease and positively cures any and all troubles of the stomach, bowels, lungs and throat.

It relieves inflammation, builds up the system, enriches the blood, strengthens the various organs of the body, and is guaranteed not only to give immediate relief, but effect a permanent cure. This remedy is known as Milks' Emulsion, and is wonderfully beneficial to children as well as adults. Its effect on the sick is immediate, and one bottle will give sat infactory results or your money will be returned by your druggist. Price 50c. per bottle. Manufactured by The Milks' Emulsion Company, Terre Haute, Ind.

from an order allowing Sheeley \$5,000, the commissioners had reconsidered their action, concelled the warrant, allowed Sheeley to withdraw his claim and then joined with him in requesting an accounting in the injunction suit brought by the county atorney, for the purpose of enabling him to escape the trial of the issues to a jury; that Sheeley has increased his charges for building wooden bridges from \$2.15 per lineal foot in 1897 to \$5.20 per lineal foot in 1903; that in addition to receiving pay per lineal foot for erecting steel bridges, he has also been paid per lineal foot for the tubing and permitted to do the repair work under his annual contract, which is clearly fliegal; that no proper bond has been required of Sheeley and that the commissioners had failed to publish an advertisement for bids in any paper of general circulation throughout the state.

There was no attempt to exhonerate fact that the Board of Education Lands down Bryan will vote the delegation for alleged extravagant expenditure of the either the commissioners or Sheeley, as it was only the purpose of the meeting to discuss facts and, figures and if deemed necessary, to organize a permanent taxpayers' league to keep an eye on the methods employed in the conduct of the county affairs. The meeting, without a dissenting vote, determined that such an organization was necessary and proceedings were taken for the organization thereof. Very truly yours,

I. D. Clarke, G. D. M'CLOSKEY Chairman. Secretary.
