LONDON, Feb. 5.-Yuan-Shi-Kai, the commander of the Chinese imperial army and navy, and the vice president of the War board have memorialized the throne urgently insisting upon an offensive and Manchuria, cables the Shanghai correspondent of the London Globe this afternoon. "The memorials," the correspondent adds, "maintain that the Japanese are better prepared for war than the Russians and are more disinterested."

Both the Russian ambassador and the Japanese minister visited the Foreign office this afternoon. The latter stayed half an hour. The Russian ambassador, who only remained ten minutes, was granted the us of the telegraph of the Colonial office. A dispatch to the Central News agency

from Tokio says that the newspapers there publish telegrams saying that 20,000 Russian troops have been conceptrated in the Yalu valley, with the probable intention of seising northern Corea.
It is added that hope of maintaining

peace has been abandoned. Nothing has been heard of the report published in the United States by a news agency that sixty Japanese warships are blockading Port Arthur. Beyond the dispatch of the Associated Press from Port

PARIS, Feb. 5.-Foreign Minister Deleases presented a review of the far eastern situation at a meeting of the cabinet today, but the Foreign office says he was unable defensive alliance, with Japan to regain to acquaint his colleagues with the full contents of the Russian reply, because it had not been received here. Until war actually begins the French authorities say they will take the view that a peaceful settlement is possible. They admit, however, that the chance is alim, despite the concessions which Russia is expected to have made.

At the Russian embassy it was said that on Sunday or later there will be news, but there was nothing to justify the pessimistic reports which have been current for the last few days. An interview published here with Baron Hayashi, the Japanese minister to Great Britain, has attracted marked attention in the highest government quarters, particularly his declarations that Russia signs a treaty carrying out Japan's demands war will result, and also his state-ment that Japan desires to be left alone and will object to any intervention from Great Britain tending toward inducing the acceptance of Russia's reply.

One of the officials in touch with Foreign Minister Delcasse said that if this interview was genuine, as it seemed to be, it was of Arthur last night announcing the return the highest moment, as being an indication of the Russian fleet to that port, nothing of the warlike attitude of the Japanese gov-

WASHINGTON, Feb. 5.-The political dehate in the senate on the \$4,000,000 appropriation to the St. Louis exposition, white has been discussed on a point of order for three days, came to a close today through a vote which left the provision in the urgent deficiency appropriation bill, which

Mr. Patterson of Colorado made a speech other countries, announced that he was not in favor of another democratic pronouncement for silver. After the vote on the deficiency bill

Mr. Mitchell, from the committee on postoffices, made a favorable report in the solution directing the postmaster general to send to the senate the reports made on the irregularities in the Postoffice department, and required immediate consideration. The resolution was adopted withou debate. It calls for reports on the investigation by Assistant Postmaster General Bristow, together with the reports of Messrs. Holmes, Conrad and Charles Bonaparte, special counsel for the government, on the charges made by S. W. Tulloch, formerly cashier of the Washington city postoffice.

More Money the Pannene.

The urgent deficiency appropriation bill was laid before the senate, the provision for the St. Louis exposition loan being the immediate question under consideration, journed until Monday. and Mr. Patterson (Colo.) took up the political phase of the question and made a reply to Mr. Foraker. He said that having noted the want of prosperity on the part of the trusts and syndicates, the Ohio senator had introduced a bill, which if it should become law would supply that deficiency. Mr. Patterson contended that prosperity was not so much dependent on tariff laws or the balance of trade as most people believed. On the contrary, he found that good times depended more on the volume of currency than on other causes, HELENA, Mont., Feb. 5.-The fair trial and he traced the prosperity of the decade from 1850 to 1890 to the extensive colunge of silver in that period. The panic of 1898, he said, had been the result of the crusade against the greater circulation of silver both in the United States and elsewhere.

Ready to Quit the Issue. Recurring to the silver issue, Mr. Patterson said that he and the people of Colo-rado realized the issue of 16 to 1 had been decided against them, but it did not, he said, follow that they would throw themse'ves into the arms of the trusts.

Mr. Patterson reasserted his conviction that the Lomination of Mr. Bryan by the Chicago convention of 1896 had insured a far larger vote than another candidate on another platform would have secured. He to advocate a policy which the country has declared against." Such a course would cestroy the usefulness of any party.

Mr. Patterson having concluded, the question of sustaining Mr. Bailey's point of order was placed before the senate. There was no roll call, but there was an overwhelming response of "noes" and the chair announced the point as lost. That settled the question and the amendment was

agreed to. Mr. Spooner withdrew his motion to consider the vote by which the bill for the gaturalization of Porto Ricans and residents of other insular possessions of the United States was passed and the favorable action of the senate on it was allowed to

Entire City Under Guard,

The German consul here has requested United States Minister Powell to afford protection to Herr Worman, the German vice onsul, that he might bring his family into the city, as the insurgents have given Mr. Worman forty-eight hours to leave

where he is or suffer the consequences. Mr. Powell secured a guard of sixty men from the cruiser Columbia and informed the government that it was the intention of the German consul and himself to bring Herr Worman's family into the city and asked the government that its troops not fire upon this party while it was on its mission. He said that if fired upon this party would protect themselves. The guard started out. As soon as they passed outside the city they were covered by the guns of the Columbia. No attack was made and the Worman family and their belongings were brought back here in safety.

All the houses outside the city walls have been pillaged. The insurgents are desperate and are destroying foreign property wherever they find it. Mr. Powell has received urgent appeals to protect foreign property against this pillaging and the Columbia may be compelled to land marines to do so. The firing around the city continues. The situation is serious, the prices of provisions are very high and the poor are suffering from want of food.
