LINCOLN, Neb. Feb. 8 - (Special.)-"To give 10 per cent to God is the duty of a Christian," according to Governor Mickey. He urged delegates to the state Young Men's Christian association convention this morning to follow this rule in life. Incldentally he delivered himself of a few weighty thoughts for the guidance of the youth of the land.

"I think the first thing to be observed is integrity," said the governor. "Live within be taken to Lebanon for trial. The owner your income, boys. It takes a great deal of money to do things."

Governor Mickey spoke of the late Mil-Honaire Colgate, who begun his life's struggle when a poor boy and how he made a success of it by reading his Bible, attending church, being a Christian, and above all, remembering his mother's prayers. He man should give a small part of his earnings to the Lord.

He said: 'I would rather my son would earn \$1 dollar honestly by working eight or ten hours a day than have him make a million on the board of trade in one day. Martensen Smiles Once More.

The gloom in the neighborhood of the state treasurer's office has for the first time in six months been effectually dispelled. At midnight the belief was general that the jury could not possibly agree. When the jury reported to Judge Graves at 8:30 der the Poynter administration. Three this morning that belief was general. The jurors sent for Judge Graves a few minutes before 10 o'clock. The news that a verdict had been reached caused a commotion at the hotel where Butler and his friends, toscore of citizens, had gathered. There was a demonstration.

Ten to Two for Acquittal. Attorney Folk, who was in the court room, appeared dumbfounded.

"I thought the state presented a good ase," he said. "Beyond that I have nothing to say at this time."

About eighteen ballots were taken, ac cording to Foreman Rosser, and at the start the jury stood ten for acquittal and two for conviction. "One of these voting to convict changed

after the first ballot," said Mr. Rosser. The other man held out stubbornly until 9:45 this morning, when he finally came into line. I do not care to mention the names of the two who held out for conviction, nor the one who remained firm up to the last moment.

"The jurors did not want to convict the defendant on the testimony of boodlers and perjurers, whose statements were flatly contradicted by men of good character. Again, we did not think the circumstances pointed to the defendant's guilt on the evidence of the state. Even though we thoroughly credited it, there was serious doubt as to Butler's guilt. Weighing the facts carefully, we think we did our full duty fair and impartially."

witness had been produced to refute the testimony of the defense that Butler was not on the floor of the house of delegates on November 28, 1899, the night the city lighting bill was passed, the verdict would have been different. When Mrs. Butler was told of the verdict she gave her husband this advice, which was received laughingly
